Re: 10-year mineral rights lease for a section of Lake Lewisville, TX

Gentlemen,

I live in Arlington, TX and the neighborhood i live in is surrounded by gas well sites. Back in 2012, we experienced a total willife death in our creek, including fish, frogs, turtles and snails. At the same time, we found large masses of brown foam in our creek.

Enclosed are some videos taken at the time:

**Foam' videos:**

As you know, our water is a valuable resource we can not live without. Please consider the possible consequences of your proposed actions.

Sincerely yours,

Sinikka Dickerson
