Santa Fe, NM 87508

To Whom It May Concern:

I have serious concerns about the BLM's leasing of drilling rights under Lake Lewisville to companies engaged in drilling for oil and gas. Fracking in such close proximity to the drinking water supply for millions of people would be a catastrophe. This is OUR community and our drinking water, and I am certain that you would not allow such an event to happen in your beautiful state. You need to do what is in the best interests of the residents of the Dallas-Ft. Worth Metroplex and their children and grandchildren and stop moving forward with this endeavor.

Sincerely,

  
Mary Timmons
