Re: Protest of April 20, 2016 Lease Sale

Dear Ms. Leuders:

I am filing this Protest of the Bureau of Land Management's (BLM) planned April 20, 2016 oil and gas lease sale and Environmental Assessment DOI-BLM-NM-040-2015-61-EA, pursuant to 43 C.F.R. § 3120.1-3.

I formally protest the inclusion of the following parcel, NM- 201603-43 (also marked as MN-201603-44 on EA p. 17/101) covering a total of 258.9 acres on Lewisville Lake.

I am filing this protest on behalf of my husband and myself . My husband and I live at 6747 Lupton Dr Dallas, and I can be reached at 2142427845. My email is cjhof@tx.rr.com.

Lake Lewisville supplies water to the city of Dallas where we live. We do not feel like we should be asked to risk our water supply to fracking. Drinking water, water for bathing, washing clothes, etc. is a necessity of life We don't want to be another Flint, MI.

That should be enough. DO NOT ASK US TO TAKE THIS RISK PLEASE. But we know that there are many other environmental and safety concerns to take into consideration, and you have been told what they are. Yes, people still use oil for their cars, but I don't think that there is one person in the city of Dallas that would not trade a full tank of gas for clean water coming out of our taps.

Fracking under this lake is jeopardizing the water of thousands of people. They always tell us it is safe until it isn't.

Thank you.

Sincerely,

Jane Hoffman
