or errors with this fax. Thank you.

February 15, 2016

To the powers that be at The Bureau of Land Management New Mexico Office,

My name is Noelle Miller and I have been a citizen of Carrollton, Texas for over 20 years. Not only am I citizen of this city but, I also work in Creekview High School, which is also in this city. My concern and the reason that I am writing you today is that I have been made aware of the proposed drilling rights auction for Lake Lewisville, which is directly north of me and my property and business. The Lake Lewisville dam is already under stress and has several areas of weakness. If the proposed drilling occurs, there is a great potential to compromise the dam and flood several cities down river, including my own. If the dam breaks, it would leave down town Dallas under ten feet of flood water and kill potentially 400,000 people in the wake of the wall of water that would be released. Please do not grant this lease at the auction to drill for natural gas or anything else in or near Lake Lewisville.

Sincerely,

A handwritten signature in cursive script, appearing to read "Noelle Miller".
