Dear Sirs,

I am writing to protest the proposed auction of 43 parcels of oil and gas leases under Lewisville Lake set for April 20, 2016.

I live in Denton Texas. Lake Lewisville is a major source of our drinking water. A drilling accident or spill could be a disaster.

As a parent and grandparent I am very concerned about global warming/climate change. The science is in and it is very clear. The carbon in the ground now must stay in the ground. I can't even imagine you people are even considering any drilling leases!

Yours truly,  
  
Marshall Smith
