SUBJECT: AUCTION/SALE OF MINERAL LEASE ON LAKE LEWISVILLE

To Whom It May Concern:

I live in Flower Mound, TX which is near Lake Lewisville. I have just been made aware of a proposed sale of a mineral lease on a parcel of land which includes Lake Lewisville. The sale of a lease for drilling on Lake Lewisville would impact the entire area. Fracking in this area has already caused numerous earthquakes nearby. I am concerned not only about the water quality that could be impacted but also the damage to the dam over Lake Lewisville.

I respectfully ask that you withdraw any proposal to sell or lease any rights to land in, on, or adjacent the Lake Lewisville.

Sincerely,

Ann L. Clubb
