I am a Resident of The Bluffs at Pinnell Point in Corinth TX, I have a beautiful home that backs to Lake Lewisville. I hereby protest the drilling of the 259 acre section of Lake Lewisville.

This lake is the home of a variety of wildlife. Residents use the lake for water sport activities. The lake provides flood risk management & assist with water supply. This drilling would hurt our property values, not to mention be an eye sore. Please do not drill, go somewhere else.
