Regarding Lake Coas Drilling Etc.

See Attached.

505 954-240

Hello. I am a citizen of IRVING TX.

I am TOTALLY against Drilling under
LAKE Lewisville. That Dam is already
Damaged & would NOT TAKE MUCH TO TOTALLY
Have A Break That Could Damage
Water Supply, But FLOOD Lewisville, Dallas
IRVING ETC & Cause Thousands to be Flooded
& Cost Thousands of Lives! It is not
worth the Risk at this time. I am all
in Favor of GAS Drilling & Fracking where it
is SAFE. A LAKE in the middle of A High
Metro Area like Dallas is CRAZY. I am
Sure there would be Terrible Consequences.
It is not a matter of if, just when.

Please consider the Risk to Reward. We have enough
GAS Supply for the time being. Leave it alone.

Thank You

Bruder Edwards
