SANTA FE, N.M.

To Whom it May Concern,

This letter serves as a request that you do not allow the sale of waterfront property on Lake Lewisville. This lake is the main drinking source for the surrounding towns as well as Dallas. Safe and clean water is the lifeblood on any community. Wildlife habitat and environmental issues have not even been explored or addressed.

The second issue deals with the instability of the existing Lake Lewisville dam. There have been numerous reports of leaks and the Corps of Engineers has taken measures to stop the deterioration. Fracking would only serve to compound this problem.

I implore you to withdraw this proposed sale for the safety of the DFW residents. Public land should not be sold to private industries who will wreck havoc with the air and water quality!

Thank you for your time.

RoyAnn Cox
