To whom it may concern,

This letter is to formally protest the auction of all or part of the 259 acres of U.S. Army Corps of Engineers property on the Hickory Creek side of Lewisville Lake for gas drilling activities on April 20.

This lake is a source of water for the surrounding cities. The Lewisville Lake dam is an earthen dam with structural issues. If breeched, it could cause catastrophic flooding to the surrounding cities downstream including Lewisville, Carrollton, Farmers Branch, the Dallas hospital district as well as Dallas, Texas.

I would suggest that if you feel that there is no concern for water contamination or flooding then, perhaps, you should move your families here before making your decision. The sale should not be deferred. It should be taken off the table period!

What the frigg are you guys smoking up there? Whatever it is, then stop. Think about the potential consequences of your actions. I don't know if you can be held accountable legally for any such catastrophic events due to sale or lease of this property for gas drilling. You certainly would be accountable morally and ethically.

Sincerely,

Constance Ray
