

Jesse Juen
U.S. Bureau of Land Management
New Mexico State Office
PO Box 27115
Santa Fe, New Mexico 87502

Dear Director Juen;

As a life long resident of northern NM (64yrs) I am asking you for the sake of my children and their children to defer the 13 parcels up for lease in the October 22, 2014 BLM Lease Sale. Our land and water are precious up here, the rivers flow to Albuquerque and now as I sit here we are on irrigation restrictions because of the droughts, every drop is precious, needed and needs to be pure, of the chemicals used, the runoff that kills life along the precarious river beds and our fields. Allowing fracking in this tender environment is a crime against our children. Please think, please be wise thank you for listening.

Sincerely

Amber archer ,

Pob 197
