Dear NM BLM State Director,

As a resident of Abiquiu, NM who swims in Abiquiu Lake and hikes in the region I protest the sale of Oil and Gas Parcels in the Santa Fe National Forest. I moved to this area in 1987 to live in a cleaner environment than Chicago. Chemical contamination resulting from fracking is nothing I want to live near. We have dealt with enough fire in this area and do not need additional fire damage that could be ignited through flaring. We don't seem to see bargain gas prices in return for fracking so there is no payoff for bearing the burden of these environmentally hazardous practices. Even if there were a payoff it wouldn't be worth it.

The following parcels need deferral:

NM201410-004	NM201410-005	NM201410-006
NM201410-007	NM201410-008	NM201410-010
NM201410-011	NM201410-012	NM201410-013

NM201410-015

A finding of No Significant Impact (FONSI) for the October 22, 2014 Oil and Gas Lease Sale is not adequately supported by the Environmental Assessment as it now stands.

Sincerely,

A handwritten signature in dark ink that reads "Jan Ryan". The signature is written in a cursive style with a large, stylized "J" and "R".
