INSTRUCTIONS:

- *Do not override any data-controlled cells or delete allotments from this table.
- *Specific directions are provided at the top of each column.
- *Use columns L and M to indicate changes or provide clarifications if needed.
- *Refer to the "Reference" tab of this worksheet for additional information.
- *Do not add data in new columns; it will not sort correctly and may be disassociated from the allotment it pertains to.

Example spreadsheet; some data have been changed for demonstration purposes. Do not use!

and some updates have been made based on data review in 2020-21.		closures, name changes, being combined with other allotments, etc. Allotments not found in this table can be	these allotment numbers are drawn from RAS and used for data analysis. If		MANDATORY: Enter the Land Health Status Category using the drop- down list of options. The definitions for each category are listed in the Reference tab of this worksheet. Enter "UNEVALUATED" if no evaluation report has been completed.	format. If not evaluated, leave		date for the most	Enter year of causal factor determination YYYY format.	List each standard(s) not achieved and the associated causal factor(s) from the determination. The acceptable causal factors are listed in the Reference tab of this worksheet.	Include any comments needed to clarify information provided in columns A through J. Ensure that notes and comments are complete, professional and provide enough context to be understood by BLM reviewers interested publics.	this column. This column is
