ROK Pilot Offices

Permit and Fee Training Courses

Testing an onsite ROK station

Amount Expended: \$22,565.00

With funding support from BLM-Headquarters, three BLM field offices piloted Remote Off-Grid Kiosks (ROK) at one campground and two day-use areas in 2023. A ROK is a self-contained fee payment device that accepts electronic payments anywhere, thanks to its remote access software. It offers a convenient and efficient way to process payments and print permits at these remote recreational areas.

Permit and Fee training course students and instructors

Amount Expended: \$7,805.00

The BLM provides high-quality training delivered by subject matter experts. The field benefited greatly from the funding provided by HQ430 for the travel costs of instructors. The course targets outdoor recreation planners, park rangers, managers, and others who process recreation permits to ensure the regulations, policies, and procedures for administering Special Recreation Permits (SRPs) and other recreation fees are properly met.

Recreation fee dollars are an investment in outdoor recreation. Current and future generations benefit as 100% of the funds collected are reinvested in the facilities and services that visitors enjoy, use, and value.
