PRESENT

CHANGING TIMES

WITH ED KABOTIE

In ancient times, Puebloan peoples exemplified the resiliency of the human spirit. Today, several contemporary Pueblo villages are regarded as the oldest continually inhabited communities in North America. The longevity of these societies has been a fascination to both scholars and seekers, and provides enduring lessons for adapting to changes in climate and culture. Ed Kabotie will share personal insights and songs to highlight lessons from Puebloan resiliency to help navigate changing times.
