The timber sale area consists of approximately 423 acres within 5 units, as marked (leave trees are marked). The units consist of 423 acres and all harvest trees are Douglas-fir. Additional larger trees may be required to be removed from within aspen stands. Timber will be sold by scaled weight, per ton. The volume and appraised value are an estimate only for administrative purposes. The actual amount will be determined by scaled weight.

The sale consists of tractor and dozer ground units. Topography is variable.
