THIS TIMBER SALE NOTICE does not constitute the decision document for purposes of appeal of a forest management decision. Consistent with 43 CFR Subpart 5003.2(b), the date the BLM posts the forest management decision on the BLM's ePlanning website establishes the effective date of the decision for purposes of an administrative appeal.

The 42 Divide Forest Management Plan Environmental Assessment (EA), Finding of No Significant Impact (FONSI) and Decision Record (DR), which underlies the Reston Pieces Timber Sale, Contract No. ORR05-TS-2026.0004, has been challenged in the United States District Court for the District of Oregon, Eugene Division. The plaintiffs have requested that the Court vacate and set aside the DR, FONSI, and EA. The Authorized Officer may exercise his/her discretion to award the contract for this sale without waiting for a judgement from the Court. The Bureau of Land Management (BLM) will proceed with normal bidding on the tract.

Although the BLM does not know at this time how the Court will rule, the BLM is providing this notice to advise all bidders that significant delays may occur before award of the contract or before any operations may be undertaken. Additionally, an adverse ruling may require the BLM to suspend, cancel, or modify the contract. The Authorized Officer retains the right to reject all bids associated with this tract.

The high bidder must submit the signed Notice of Litigation Acknowledgement along with their written bid.

A WRITTEN BID on Form No. 5440-009 at no less than the appraised price on a unit basis per species and the required minimum bid deposit shall be required to participate in oral bidding for this tract. Oral bidding will be restricted to Douglas-fir.

A PERFORMANCE BOND in an amount not less than twenty (20) percent of the total purchase price will be required for all contracts of \$10,000 or more, but the amount of the bond shall not be in excess of \$500,000, except when the Purchaser opts to increase the minimum bond as provided in 43 CFR 5451.2.

1. Seasonal restrictions apply to this sale regarding logging operations, use of native surfaced roads and road work. Refer to Sections 44(A)(5)(b), 44(A)(6)(b), 44(A)(7)(b), 44(A)(11), 44(A)(12), 44(A)(13), 44(B)(2), 44(C)(3)(c), 44(C)(4)(d), 44(F)(1)(e)(8), and 44(F)(1)(e)(9) for details. A “seasonal restriction matrix” is included with this prospectus to serve as a guide in planning and scheduling operations.
2. Due to expiring Marbled Murrelets surveys, cutting and yarding operations in the yarding wedge of Harvest Unit 6 and Harvest Unit 6 shall be completed no later than March 1, 2029. See Exhibit F for detailed map of restricted areas.
3. License agreements with Roseburg Resources Co., Lone Rock Timberland LLC, Seneca Jones Timber Co., and Manulife Investment Management are required. The terms and conditions of the license agreement are available for inspection at the Roseburg District Office.
4. Slash disposal requirements consist of the following: machine piling, covering and burning slash and debris within a fifty (50) foot radius of landings; in unit machine piling, covering and burning slash within the portion of Harvest Area 7 designated for ground-based harvest; in unit hand piling, covering and burning slash within Harvest Areas 4 and 6; and in portions of Harvest Areas 2, 5, and 7, designated for cable harvest. The Purchaser will have the option to assist in burning or to make a buyout security deposit to the Bureau of Land Management in lieu thereof. Refer to Sections 44(F) and 44(H) for details.
5. Girdling (or felling) of approximately 543 trees in the Harvest Land Base to create snags (or down woody material) after completion of logging operations will be required. The purchaser will have to complete the snag creation requirements described in Section 44(G) and there will be no buyout security offered as shown in Section 44(H).

7. As appraised, approximately 79% of the sale area is available for wet season operations, including Harvest Areas 4 and 6, and portions of Harvest Areas 2, 5, and 7 (118 acres). Wet season operations may be maximized at the Purchaser's expense by:
- Cable yarding Harvest Area 1 to the existing rocked road (28-8-23.2) approved for wet season operations, instead of ground-based yarding (approximately 4 acres).
 - Cable yarding Harvest Area 3 to the existing rocked road (28-8-15.1) approved for wet season operations, instead of ground-based yarding (approximately 4 acres).
 - Adding rock to 28-8-20.2 and Spur 4 in Harvest Unit 7 as necessary for wet season cable yarding, instead of ground-based yarding (approximately 14 acres).

In order to maximize wet season operations, a logging plan must be submitted and approved by the Authorized Officer.

8. This contract contains provisions for the sale and removal of additional timber necessary to facilitate safe and efficient Purchaser operations. It is estimated that approximately 7 MBF of such additional timber would be removed under the contract but is not included in the advertised sale volume. Refer to Sections 44(A)(9) and 44(A)(10) for details.

The approximate additional timber volume associated with the yarding wedge to facilitate the operations of Harvest Unit 6 is not included in the above estimation.

9. In addition, this contract contains provisions for the protection and retention of trees in Harvest Areas that are greater than or equal to 40 inches DBH **and** that were established prior to 1850; trees meeting these criteria may be cut, if necessary for safety or operational reasons, but they will be retained as the property of the government and will not be sold or otherwise removed from the contract area. Refer to Sections 43(e), 44(A)(9)(b), 44(A)(10)(b), and 44(A)(10)(f)(3) for details.
