The selection applications included lands that were withdrawn from all forms of appropriation, including selection by the State of Alaska, by Public Land Order (PLO) 5150, 36 Fed. Reg. 25410 (Dec. 31, 1971), as amended, and by PLO 5180, 37 Fed. Reg. 5583 (Mar. 16, 1972), as amended.

On February 25, 2026, PLO 7966 partially revoked PLOs 5150 and 5180 within the Dalton Utility Corridor, north of the Yukon River. The opening order for PLO 7966 took effect on March 27, 2026. Accordingly, the lands subject to PLOs 5150 and 5180 are open to appropriation under the public land laws, including selection by the State of Alaska. As a result, the State's top filings made pursuant to Sec. 906(e) of ANILCA are now effective selections.

The Bureau of Land Management (BLM) has ten sites or facilities, described in the table below, that are currently experiencing some level of federal use within the Dalton Utility Corridor north of the Yukon River. The U.S. Fish and Wildlife Service (USFWS) has one bunkhouse site AKAK106166915/F-94544 located wholly within the footprint of the Galbraith Lake Administrative Site described below. The State’s top filings – pursuant to Sec. 906(e) of ANILCA – continue to be recognized as a future interest application for the lands encompassed by the federal facilities, but are of no effect until such time the land becomes available for selection. If the land becomes available, the State’s top filing will become an effective selection without any further action on the part of the State. These sites or facilities have been excluded from the lands approved herein for this conveyance to the State of Alaska:

The BLM’s records reflect federal mining claims recorded prior to March 27, 2026, when the lands were opened to appropriation under the public land laws. Therefore, such lands encompassed in these federal mining claims are not available pursuant to Section 6(b) of the Statehood Act, and have not become effective selections. These mining claim recordations have been excluded by serial number from the lands approved herein for future conveyance to the State of Alaska. However, the State’s top filings, pursuant to Sec. 906(e) of ANILCA, continue to be recognized as a future interest application for the lands encompassed by the mining claims but are of no effect until such time as the land becomes available for State selection.

On July 22, 2025, the State of Alaska submitted a request for priority conveyance for certain lands within the Dalton Utility Corridor north of the Yukon River that was subsequently as revised on October 9, 2025 and January 26, 2026. The State’s most recent request includes most available federal land in the townships described above.

Applications for rights-of-ways (ROW) and permits for Federal lands that are wholly within the lands herein approved for conveyance currently pending before the BLM are rejected. *See The Mountaineering Club of Alaska, Inc.*, 19 IBLA 198 (1975) (“the allowance of a state selection application furthers the discharge of the federal obligation to fulfill the State’s statutory entitlement and, generally, it will be preferred in the public interest over the discretionary application of one who does not have an entitlement of equal dignity.”) Accordingly, the following applications, set out in the table below, are hereby rejected:

<u>Date</u>	<u>Applicant</u>	<u>Serial Number</u>	<u>Purpose</u>
1/4/2012	William Carlo Jachetta	AKAK106167117/ F-96021	ROW for access
8/14/2017	Dennis Diamond Mayer	AKAK106233573/ F-97349	Long term camping permit
3/1/2025	Fairbanks Pumping and Thawing	AKAK106725174	ROW for storage and towing operation with crew camp
3/2/2026	University of Alaska - Fairbanks	AKAK106792371	ROW for research
3/11/2026	University of Alaska - Fairbanks	AKAK106792379	ROW for access
3/27/2026	University of Alaska - Fairbanks	AKAK106792377	ROW for research

Similarly, Applications for rights-of-ways and permits for lands that are partially within the lands herein approved for conveyance applications currently pending before the BLM will be rejected for the portion of the lands within the conveyance boundary. *See the Mountaineering Club of Alaska, Inc.*, 19 IBLA 198 (1975) (“the allowance of a state selection application furthers the discharge of the federal obligation to fulfill the State's statutory entitlement and, generally, it will be preferred in the public interest over the discretionary application of one who does not have an entitlement of equal dignity.”). Accordingly, the following applications, set out in the table below, are hereby rejected in part as to the lands herein approved for conveyance:

<u>Date</u>	<u>Applicant</u>	<u>Serial Number</u>	<u>Purpose</u>
8/28/2020	John Bonacor	AKAK106233399/ F-97637	ROW for access
11/21/2025	Tanana Chiefs Conference	AKAK106775579	ROW for fiber optic line
12/22/2025	Allakaket Tribal Council	AKAK106792408	ROW for winter road from Allakaket to Dalton Hwy

The lands approved herein meet the criteria for compactness, are unreserved, are not known to be occupied or appropriated under the public land laws, are not valuable for hot or medicinal springs, and otherwise conform to the requirements of the Alaska Statehood Act. These lands are hereby approved for future conveyance to the State of Alaska.

The lands approved for conveyance are more particularly described in the attached proposed tentative approval, which is incorporated herein by reference. The proposed tentative approval also identifies federal and third-party interests, if any.

When this decision becomes final, the BLM will issue the tentative approval transferring title to the State of Alaska.

The chargeable acreage within these selections will not include the submerged lands, if any, up to the ordinary high water mark, beneath rivers or streams 3 chains wide (198 feet) and wider, and

lakes 50 acres and larger, which are meander-able according to the 2009 BLM's Manual of Surveying Instructions and navigable waters, if any, of lesser size. These submerged lands will be identified at the time of survey.

As set out in the table below, the State of Alaska Department of Transportation and Public Facilities (ADOT&PF) filed applications and a request for consent that are currently pending before the BLM, and which address lands that are completely within the lands herein approved for conveyance. Further adjudication of the applications or consent, if granted, would create a property right that would merge with title upon conveyance. As such, the BLM will not take further action on these applications:

<u>Date</u>	<u>Serial Number</u>	<u>Purpose</u>
October 23, 2019	AKAK106233611/F-97563	ROW application for calcium chloride storage sites
April 30, 2020	AKAK106233030/F-97601	Request for BLM consent to a Highway Easement Deed
April 1, 2022	AKAK106233762/F-97820	ROW application for culvert replacement
March 18, 2025	AKAK106724036	ROW application for stream redirection dike

Similarly, on November 15, 2024, the ADOT&PF filed application AKAK106792370 for statewide avalanche mitigation that is currently pending before the BLM, and which addresses lands that are partially within the lands herein approved for conveyance. Further adjudication of the application would create a property right that would merge with title upon conveyance. As such, the BLM will not take further action on the application as to the lands herein approved for conveyance.

Pursuant to Sec. 906(k) of ANILCA, the BLM will review any revenue generating cases and, if appropriate, authorize payment to the State of 90 percent of the proceeds received and attributable to the use of those lands after the date the State's selection applications become effective.

As set out in the table below, airport leases issued to the ADOT&PF will not be reserved in the grant since the lesser interests granted to the State will merge with the State's full title granted under this conveyance. A duplicate copy of the ROW case files will be transferred to the State after conveyance. The original case files will be sent to the Federal Records Center (FRC):

A duplicate copy of these case files will be transferred to the State after conveyance. The original case files will be sent to the FRC.

The ROW AKAK106233544/F-97133 will not be reserved in the tentative approval since the lesser interests granted to the State under the provisions of Title V of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2776; 43 U.S.C. 1761 merge with the State's full title granted under the Alaska Statehood Act. A duplicate copy of the case file will be transferred to the State after conveyance. The original case file will be sent to the FRC.

After conveyance has been issued, the appropriate Succession of Interest notices and Waiver of Administration decisions, if applicable, for the interests identified in the proposed conveyance document, will be issued by the BLM.

My decision herein constitutes the final decision of the Department and, in accordance with 43 C.F.R. 4.402(b)(2), is not subject to appeal under Departmental regulations at 43 C.F.R. Part 4. We appreciate the State's collaboration on this undertaking to date, and look forward to continued

cooperation on fulfilling your statehood land entitlement. If you have any questions, please feel free to contact Chelsea Kreiner with BLM Alaska at ckreiner@blm.gov or 907.271.4205.
