## Notice of Temporary Closure Order

**OFFICE:** Black Rock Field Office / Winnemucca District Office

**ACTION:** Temporary Closure

**SUMMARY:** The Bureau of Land Management Black Rock Field Office announces the temporary closure of certain public lands under its administration from 12:01 AM July 30, 2026, to 11:59 PM October 10, 2026, for the 2026 Burning Man Event. This action is taken to minimize risk to the public and resources on the Black Rock Desert Playa during pre-event construction, event operations, and post-event clean up and is in effect for 74 days under a Special Recreation Permit (SRP).

This Closure Order supersedes Federal Register **BLM\_NV\_FRN\_MO#45001710000**

The temporary closure is located within the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area. The closure will be implemented in two phases based upon the Event operations: the Phase 1 Closure covers approximately 10,185 acres, and Phase 2 covers approximately 50,748 acres. Together the temporary closures include portions of the Black Rock Desert Playa and the 8-mile playa entrance. The West Highway of the Playa will remain open for moving traffic.

The two-phase temporary closure area is in Pershing County, Nevada, and is necessary for the period because of the Burning Man event. The event's activities begin with the Golden Spike, fencing the site perimeter, Black Rock City setup (31 days), followed by the actual event (9 days), Black Rock City tear down and cleanup, and final site cleanup (33 days). This event is authorized on public land under Special Recreation Permits.

The public temporary closure area comprises about 33 percent of the Black Rock Desert playa. Public access to the other 67 percent of the playa outside the temporary closure area will remain open to dispersed recreational use.

**The following restrictions will be in effect for the duration of the closure.**

Unless otherwise authorized, the following activities within the closure area are prohibited:

- Public access to the closure area.
  - Public use of the 8-mile entrance from August 23, 2026 – September 9, 2026.
  - Phase 1 area on the Black Rock Desert Playa from July 30, 2026 – October 10, 2026.
  - Phase 2 area of the Black Rock Desert Playa August 24, 2026 – September 11, 2026.
- Parking any vehicle in violation of posted restrictions, or in such a manner as to obstruct or impede normal or emergency traffic movement or the parking of other vehicles, create a safety hazard, or endanger any person, property, or feature. Vehicles so parked will be subject to citation, removal, and impoundment at the owner's expense.
- Operating a vehicle through, around, or beyond a restrictive sign, recognizable barricade, fence, or traffic control barrier or device.

## **TEMPORARY RESTRICTIONS**

### ***A. Environmental Resource Management and Protection***

Campfires may only be burned in containers that are sturdily elevated six (6) inches above the playa surface and in a manner that does not pose a risk of fire debris falling onto the playa surface. Plastic and nonflammable materials may not be burned in campfires. The ignition of fires other than a campfire is prohibited. This restriction does not apply to events sanctioned and regulated as art burns by the event organizer.
- (2) Fireworks: The use or possession of personal fireworks is prohibited except for uses of fireworks approved by the permit holder and used as part of a Burning Man-sanctioned art burn event.
- (3) Grey and Black Water Discharge: The discharge and dumping of grey and black water onto the playa/ground surface is prohibited. Grey water is defined as water that has been used for cooking, washing, dishwashing, or bathing and/or contains soap, detergent, or food scraps/residue, regardless of whether such products are biodegradable or have been filtered or disinfected. Black water is defined as wastewater containing feces, urine, and/ or flush water.
- (4) Human Waste: The depositing of human waste (liquid and/or solid) on the playa/ground surface is prohibited.
- (5) Trash: The discharge of any and all trash or litter onto the ground/playa surface is prohibited. All event participants must pack out and properly dispose of all trash at an appropriate disposal facility.

This applies to all recreational vehicles, trailers, motorhomes, port-a-potties, generators, and other camp infrastructure.

  - (b) Fuel tanks that are not purpose-built auxiliary tanks may not be incorporated into fuel systems for the purpose of circumventing the 110-gallon liquid fuel limit.

- (c) Each camp storing liquid fuel must establish a designated fuel storage area at least ten (10) feet apart from combustible materials, vehicles, camp trailers/RV's, generators, and any sources of ignition (such as burning cigarettes, open flame, electrical connections, or trailer/RV appliances); twenty (20) feet from LP-gas storage; and fifty (50) feet from other designated liquid fuel storage areas.
- (d) Fuel storage containers, regardless of size or type, shall not exceed 80 percent capacity per container.
- (e) Storage areas for all liquid fuel, regardless of amount, and not exceeding 110 gallons, must include a secondary containment system that can hold a liquid volume equal to or greater than 110 percent of the largest container being stored. Secondary containment measures must comply with the following:
  - (i) The secondary containment system must be free of cracks or gaps and constructed of materials impermeable to the fuel(s) being stored.
  - (ii) The secondary containment system must be designed to allow the removal of any liquids captured from leaks, spills, or precipitation.

(8) Water Discharge: The unauthorized dumping or discharge of fresh water onto the playa surface, onto city streets or other public areas, or onto camp electric systems in a manner that creates a hazard or nuisance is prohibited. This provision does not prohibit the use of water trucks contracted by the event organizer to provide dust abatement measures.
