This booklet contains statistics about the Bureau of Land Management in Oregon and Washington. Most of the figures pertain to fiscal year 1967 (July 1, 1966 to June 30, 1967). For comparison, data for the preceding year are usually listed, too. In a few cases it has been more appropriate to list data on a calendar year basis.

Resource management facts are provided for the ten BLM districts in Oregon and the one BLM district in Washington.

Created in 1849, the Department of the Interior — a Department of Conservation — is concerned with the management, conservation, and development of the Nation's water, wildlife, mineral, forest, range, and recreational resources. It also has major responsibilities for Indian and Territorial affairs.

As the Nation's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States — now and in the future.
