This booklet contains statistics about the Bureau of Land Management in Oregon and Washington. Most of the figures pertain to fiscal year 1972 (July 1, 1971 to June 30, 1972). For comparison, data for the preceding year are usually listed, too. In a few cases it has been more appropriate to list data on a calendar year basis.

As one means of conserving natural resources, this booklet is printed on recycled paper.

U.S. DEPARTMENT OF THE INTERIOR

Maintaining the quality of the environment is a big concern of the Bureau of Land Management. Aiding in the effort is Johnny Horizon, the symbolic outdoorsman who represents the thoughtful visitor to the public lands. His antilitter campaign was launched by BLM in 1968 and has since become an Interior Department-wide program.

Fiscal Year 1972 saw Johnny Horizon increasingly active in Oregon. BLM can point to an environmental concert at Bend, a successful fall "outdoor manners" campaign in cooperation with state agencies and a steady growth in public awareness of the Johnny Horizon environmental program.

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, land, mineral, fish, wildlife, forest, range, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all resources so each will make its full contribution to a better United States -- now and in the future.
