This booklet contains statistics about the Bureau of Land Management in Oregon and Washington. Most of the figures pertain to fiscal year 1974 (July 1, 1973 to June 30, 1974). For comparison, data for the preceding year are usually listed, too. In a few cases, it has been more appropriate to list data on a calendar year basis.

Let's Clean Up America For Our 200th Birthday

Maintaining the quality of the environment is a big concern of the Bureau of Land Management. Aiding in the effort is Johnny Horizon, the symbolic outdoorsman who represents the thoughtful visitor to the public lands. His antilitter campaign was launched by BLM in 1968, and has since become an Interior Department-wide program. The new Johnny Horizon involves Americans everywhere and has added a new emphasis to the program. "Johnny Horizon '76" is a nation-wide, action-oriented environmental awareness campaign to "clean up American for our 200th birthday" through citizen involvement and government and industry support.

In Fiscal Year 1974 the Bureau of Land Management in Oregon and Washington continued to distribute Johnny Horizon educational materials to groups and students planning environmental projects and to recreationists using the national resource lands. Also through BLM's cooperation with the Boy Scouts, the American Revolution Bicentennial Commission, and Stop Oregon Litter and Vandalism, Johnny Horizon has continued to spread his message to concerned citizens in the Northwest.

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, land, mineral, fish, wildlife, forest, range, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all resources so each will make its full contribution to a better United States -- now and in the future.
