Supervisor Simmons, Ms. Fox-Thomas: Just want to let you know that Kirkland Mining Co. has indicated they will provide to the BLM the mining and reclamation plan of operation (MPO) for the Skull Valley site on April 18, 2017. Soon thereafter we will be reviewing and analyzing the biological and cultural resource data for the area. Before beginning an environmental assessment (under the National Environmental Policy Act (NEPA)) of the proposal, we will have a public scoping meeting in Skull Valley. The MPO will be available for examination. I still anticipate this would occur in early Summer. As we firm this up, you will be the first to know. -- Rem
