September 19 would be outside the official extended scoping period. While that doesn't preclude informal outreach, quite frankly *there is nothing new to present* and *we would not have any of the answers they would be looking for*. I don't agree (fortunately I will be in S Africa in the bush so you couldn't call me either :)

Hi Mariela,

I received a phone call from Nettie Lamerson with the Williams Valley Community Association. She is trying to find someone to give a presentation at their next meeting on Kirkland Mining's plans for re-opening the Skull Valley mine. The meeting is scheduled for September 19. She wants the presentation to focus on the impacts the mine's re-opening would have on their community.

She said she has tried to find a number for someone at the mine who could arrange a presentation, but was unsuccessful. She would either like to see someone from the mine or the BLM give the presentation.

Please check with your sources to see if they know of someone at the mine or in the Kingman FO who could give the presentation and let Nettie know. Her numbers are: landline: (b) (6), cell: (b) (6). Also, please let me know once you call her so we can close the loop on this.

Thanks!!
