My comments on the 6/1 meeting notes:

1. MRPO Status: BLM requested clarification to "Study Area" or "Project Area." The BE uses both terms but does not define them in terms of acres or depicted on a figure. It's unclear if these terms were used interchangeably.
3. Last sentence. If significant changes are made to the project design, or additional features outside the Project Analysis Area are determined to be reasonably foreseeable after public review of the Draft EA, the BLM may determine that it would be necessary to recirculate a revised Draft EA for public input.
4. Open house materials such as posters, comment form etc. will also be added to the project website as they become available for release.
5. Action items, third bullet: provide the mailing list for a 2-mile wide buffer and also feedback on what the more extensive (400+) mailing list would look like and the logistics to make that happen.

Hi Amanda,

My only comment on the minutes add to Brian's first comment under MRPO Status, about the BE. I concur with Brian's comment and suggest adding that KMC will reach out to EPG for a revised report with consistent terms and deliver the revised BE by July 7, 2017.

Thank you.

Al

Brian,

Thank you for your comments. I have addressed them in the attached.

The attached also addresses a minor comment provided by Al Burch to indicate that KMC would request the revised BE from EPG.

Hi Amanda,

In regards to the meeting notes I have no changes except you may want to document that the deadline for the BE revision is Friday, July 7th. Under action actions we also discussed that all digital versions of the open house materials would be turned over to BLM to post on the KMC MPO EA website at the beginning of the scoping period. Since we have a conference call before that time it may be better to just to table that discussion until then. Also, just following up, have you turned over the revised scoping letter today? I may have missed it. Rem is in the office and it would be a good opportunity to get it onto letterhead and signed.

In regards to the communication plan, I have no major comments. I would like to just point out on the BLM team list that Codey Carter's name is misspelled (Cobey Carter) and we may want to mention that Paul Sitzmann is the interim biologist. Also, this may be a question for Brian, but do we need to mention in the communication plan somewhere that federal agencies cannot send or receive personal identifying information (PII) in email communications, such as SSN, tax ID numbers, and personal cell numbers?

I will comment on the MPO and comment matrix next week.

Thank you for all your prompt attention to the action items, and talk to you soon,  
-Shelby

Amanda,  
I hate to hit you with an extraneous email, and it's not a big deal, but just FYI it's legally more correct (and I do prefer... because female salutation rules in our culture are just weird) Dr. instead of Ms. when a legal salutation is needed.

Thank you,  
-Shelby

Amanda,  
I hate to hit you with an extraneous email, and it's not a big deal, but just FYI it's legally more correct (and I do prefer... because female salutation rules in our culture are just weird) Dr. instead of Ms. when a legal salutation is needed.

Thank you,  
-Shelby

Hi Amanda,  
In regards to the meeting notes I have no changes except you may want to document that the deadline for the BE revision is Friday, July 7th. Under action actions we also discussed that all digital versions of the open house materials would be turned over to BLM to post on the KMC MPO EA website at the beginning of the scoping period. Since we have a conference call before that time it may be better to just to table that discussion until then. Also, just following up, have you turned over the revised scoping letter today? I may have missed it. Rem is in the office and it would be a good opportunity to get it onto letterhead and signed.

In regards to the communication plan, I have no major comments. I would like to just point out on the BLM team list that Codey Carter's name is misspelled (Cobey Carter) and we may want to mention that Paul Sitzmann is the interim biologist. Also, this may be a question for Brian, but do we need to mention in the communication plan somewhere that federal agencies cannot send or receive personal identifying information (PII) in email communications, such as SSN, tax ID numbers, and personal cell numbers?

I will comment on the MPO and comment matrix next week.

Thank you for all your prompt attention to the action items, and talk to you soon,  
-Shelby

Brian,

Thank you for your comments. I have addressed them in the attached.

The attached also addresses a minor comment provided by Al Burch to indicate that KMC would request the revised BE from EPG.

**Subject:** Re: Meeting Notes 060117 Conference Call

My comments on the 6/1 meeting notes:

1. MRPO Status: BLM requested clarification to "Study Area" or "Project Area." The BE uses both terms but does not define them in terms of acres or depicted on a figure. It's unclear if these terms were used interchangeably.
3. Last sentence. If significant changes are made to the project design, or additional features outside the Project Analysis Area are determined to be reasonably foreseeable after public review of the Draft EA, the BLM may determine that it would be necessary to recirculate a revised Draft EA for public input.
4. Open house materials such as posters, comment form etc. will also be added to the project website as they become available for release.
5. Action items, third bullet: provide the mailing list for a 2-mile wide buffer and also feedback on what the more extensive (400+) mailing list would look like and the logistics to make that happen.

Shelby-

Regarding your comments on the Conference Call meeting notes, I believe these comments have been addressed with my revisions to address Brian's comments. Please let me know if you have any further comments.

Thanks!  
Amanda
