Jeff: What do you think regarding your timeframe?

Hi Jeff & Rem,

Hope all is well. I was hoping you could give me some indication as to when we could expect to hear back on the Uncommon Variety report KMC submitted.

We know from Jeff; he included is memo and sent for review with mineral examiner Matt Shumaker as of March 8th. We have a scheduled date on April 18th with Rem and Shelby to submit our Biological & Cultural resource report, with our MPO and baselines for NEPA.

It would be great if we could give our team clear direction, and have a decision prior. We want to put our best foot forward while developing the MPO, and present a complete plan in April.

If you could please follow up and let us know where we are in the process we would appreciate it. We look forward to hearing from you. Thank you for your time and consideration.

Best Regards,

Areta: FYI, BLM Arizona State Office Geologist (and Certified Mineral Examiner) Jeff Garrett has completed his review and passed the document on to Matt Shumaker for technical review on March 8th. Matt is aware of your time frames and Jeff will keep in contact with him about it. We'll let you know if anything changes. Thanks.
