Hi Areta,

As much as I would like to, I don't think I would be able to get over to your office for the report revisions. I'll be in this week and Monday and Friday of next week or just touch base with me and see if I am in. I'm just in the field a lot right now, the rains delayed a bunch of property inspections and now I'm scrambling :)

I just wanted to touch base when would be a good time to schedule the EA field reconnaissance? Do you think Tuesday, March 28th would work?

Thank you and talk to you soon!

Hi Shelby,

No problem, I will drop off the revisions for you. March 28th will not work for a site visit. We would prefer to wait until after April 20th to schedule something. We plan to submit the cultural, biological, MPO and baseline work to BLM by Mid April. We would like to do the kick off site meeting right after.

Please let me know if that works. Thank you.

Best Regards,

Areta Zouvas, President

Ok, thank you! I don't see any problem with April 20, but I'll touch base with Brian just to be sure.

Talk to you soon!

So Brian's advice was that the kickoff meeting and field visit would be scheduled after the Plan of Operation was determined to be complete, and I have 30 days to go over that. I've got some training today but I should be able to touch base with Al and the consultants on guidance on the Plan, and if we need to do any informal field visits to support the Plan development just let me know and I will be available. I can also reach out to any other BLM resource specialists that might be helpful. I will pencil April 20th in a tentative date/goal but I won't send out any official invites until we get a little closer.

Talk to you soon!
