Time Outside Together (TOTs): Autumn

Resources to explore the natural world with children under five.

Leaf Necklace

Celebrate the changing season with this autumn nature art activity!

- **Go for a walk** somewhere with trees.
- As you walk, **gather leaves** that have fallen to the ground.
- After your walk, lay the leaves out on a flat surface. **Compare their colors, sizes, and shapes.**
- To **assemble the leaf necklace**, make a small hole in each leaf and thread it onto a long piece of string.

Photo: CCSC Staff

- **Count** as you place leaves onto the string. How many are there?
- **Tie a knot** and put it on. Enjoy your leaf necklace!
