

River Flow on Image Date:  
3670 CFS

### Demons Drop III

Large, curling waves appear here at some flows. Avoid the center area turbulence - it indicates a hole.

River Mile 44.4

### Green Canyon Camp

45° 52' 7.65" N, 116° 18' 37.59" W

### Wright-Way III

This sharp drop with big waves takes you into the left wall at the bottom. Long, Class II rapids await you about 100 yards below. At high water, the eddy on river-right can be very powerful. Look for two small camp spots after the rapids.

### Wright-Way

River Mile 45.5

Mile 45

### Green Canyon

### Green Canyon II

Tricky in lower water, with numerous rocks and holes.

### Pictographs

A short trail on river-right just before Green Canyon leads to some well-preserved pictographs.

### Schwartz Eddy

45° 51' 9.73" N, 116° 17' 58.51" W

### Schwartz Bar

Remnants of past mining activity are visible on the left. The two camps spots here are the last large camps before Green Canyon.
