

River Flow on Image Date:  
3310 CFS

**Bodacious Bounce III**  
The big, fun waves here get very tricky in low water. Scouting is recommended at flows below 4,000 cfs.

**Harms Hole II**  
A short drop with a big hole on the right.

**Snowhole Canyon**  
This long, precipitous canyon continues for 10 miles with few camp spots.

**White House Bar**  
These large camp spots have room for multiple groups and are some of the biggest beaches on the river. They are the last large camp spots before Snowhole Canyon. Much evidence of historic mining remains, including a large reservoir. The white-washed cabin for which the bar is named has given in to the ravages of time.
