BLM Alaska Mining Reclamation Bonding Guide

Prepared by

U.S. Department of the Interior
Bureau of Land Management
Alaska State Office
Branch of Energy and Minerals

September
2014

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

A. General

- 1. Notices and Plans of Operations.** In accordance with the 43 CFR 3809 regulations, reclamation bonds are required for both Plans of Operations and Notices. Notice level operations include only exploration activities in which five or fewer acres of disturbance are proposed. Plans of Operations include all mining and processing activities (regardless of the size of proposed disturbance), plus all other activities exceeding five acres of proposed public land disturbance. A Plan of Operations is also needed for any bulk sampling in which 1,000 tons or more of presumed ore for testing is proposed for removal.

If a notice was submitted to the Bureau of Land Management (BLM) prior to January 20, 2001, and includes mining and/or processing activities, that Notice may continue as proposed, provided the Notice has been extended without a significant modification.

- 2. Reclamation Cost Estimates (RCE).** After submitting a Notice to a BLM Field Office, either by using the State of Alaska's Application for Permits to Mine in Alaska (APMA) or some other application, you may be requested by the BLM to submit a detailed Reclamation Cost Estimate (RCE) according to BLM Regulations. In the case of a Plan of Operations an applicant may be required to submit an RCE after their plan has received an environmental review so the RCE can then incorporate any stipulations or reclamation standards.

Reclamation Cost Estimates under 43 CFR 3809.552 for both Notices and Plan of Operations must be sufficient to cover 100% of the cost of reclaiming the proposed disturbance. All reclamation costs are to be calculated as if third party contractors were performing the reclamation after the site has been vacated by the operator.

The approved reclamation plan should be broken down into individual tasks and the cost to complete each task should be further broken into Labor, Equipment, and Materials categories. Labor costs must be based on federally mandated (Davis-Bacon Act) wage rates. Off-site equipment must be used in the estimation of reclamation costs (typically rental and transportation costs). The source of costs such as vendor quotes for materials, rental company rates, and local equipment hauling costs should accompany any submitted RCE.

The Reclamation Cost Estimation Summary Sheet may be used to show how reclamation costs were calculated - see Attachment 1. The summary sheet also lists the administrative costs that would occur should a third party contract be issued to reclaim a site. The administrative cost calculations must be included when estimating total reclamation costs.

- 3. BLM Field Office Review.** The BLM reviews the Reclamation Cost Estimate and determines the bond amount needed for each submitted Notice or Plan. The Field Manager notifies the operator of the needed bond amount. For Alaska, bond instruments (other than Bond Pool) along with the appropriate bond form are

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

submitted to the Alaska State Office (Branch of Energy and Minerals, AK-932) in Anchorage for adjudication and acceptance (see Attachment 2 for Surety Bonds and Attachment 3 for Personal Bonds). The bonds are held and maintained by the BLM Alaska State Office.

4. **Periodic Review.** The BLM must provide a periodic review of reclamation cost estimates and financial guarantees for ongoing operations (see Instruction Memorandum No. WO-2009-153, (June 19, 2009)). The BLM authorizing officer has the authority to require a more frequent review of the Reclamation Cost Estimate and financial guarantee.
5. **Plan or Notice Modification:** Where a Notice or Plan of Operations is modified, a review must be conducted **at the time of modification**. The reclamation cost estimate and financial guarantee review must be for the entire operation, not just the modification (See 43 CFR 3809.580 for bond increases and filing a request for bond decrease.)
6. **Part of the Operations:** Where the financial guarantee is for a part or phase of each operation, as provided under 43 CFR 3809.553, BLM must review the amount and terms of the financial guarantee **annually** (For Phased Bonding guidelines, see section E. of this document).

Where the BLM identifies any deficiency in the amount of the required financial guarantee, the Field Office must immediately issue a decision requiring the operator provide the BLM with the revised amount.

7. **Bond Forms.** Form 3809-1 (Attachment 2), is the required form for a bond which is underwritten by a surety company. Form 3809-2 (Attachment 3) is the required form for a bond which is pledged by a guaranteed remittance, a time deposit, a letter of credit, or a U.S. Treasury security. Form 3809-4 (Attachment 6) is required when the bond is supplied by an entity other than the operator.
8. **State Requirements.** Through a cooperative agreement with Alaska Department of Natural Resources (ADNR), BLM allows the use of the State of Alaska - Mining Reclamation Bonding Pool as an acceptable financial guarantee, for eligible operations. The cooperative agreement places restrictions on the use of the bond-pool but the BLM, at its sole discretion, may limit or prohibit the use of the statewide pool if the bond pool would not be a sufficient guarantee of reclamation. Although an operator can request an exception, the BLM **may** commonly require an RCE, completed according to 43 CFR 552 and 554, for the following situations:
 - Operations proposing mining (other than suction dredging) or within 100 feet of a perennial stream channel,
 - Operations on uplands with slopes greater than 33% or with the potential for significant slope failure related to mining activities,
 - Operations at a site where demobilization can only be completed by air or during frozen conditions (winter months),

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

- Operators with greater than 25 acres of unreclaimed disturbance, or
- Operations that have an unresolved enforcement order at the time of bond payment or operators that have a history of noncompliance with BLM regulations.

For operations outside the statewide bond pool the BLM – Alaska and ADNR may enter into a Cooperative Agreement for joint reclamation cost determinations and the submittal of one bond by an operator to satisfy the reclamation bond requirement of both agencies.

B. Financial Guarantee Instructions

BLM Alaska accepts the following instruments as financial guarantees for reclamation bonds:

- 1. Surety Bond.** Surety bonds are accepted from companies authorized to do business with the United States and listed in the U.S. Treasury Department's Circular 570. A current list of authorized companies is available by calling 202-874-6850 or through the Internet at <http://www.fms.treas.gov/c570/c570.html>. *Attachment 2 (Form 3809-1)* is the required bond form for a surety bond.
- 2. Personal Bond.** Must be secured by one of the financial instruments listed in "a" through "d" below. *Attachment 3 (Form 3809-2)* is the personal bond form, which is required in addition to the financial instrument.
 - a. Guaranteed Remittance ("Cash bond")** (Cashier's check, certified check, or official bank draft, cash, US postal money order, wire transfer) – Drawn on a U.S. bank in an amount equal to the required dollar amount of the financial guarantee, to be deposited and maintained in a Federal depository account of the U.S. Treasury by the BLM. Checks bearing a 9-digit American Banking Association (ABA) routing number will pass timely through BLM's regular depository. However, if the remittance is drawn on a **foreign bank** (i.e., no 9- digit ABA routing number), or if it is a **personal check** (which includes a company check), or otherwise not guaranteed funds, there will be a delay in processing the bond by as much as 30-45 days. This time period is required for the BLM to be notified by its bank that the personal or foreign check has been returned as not payable. The BLM is required to send checks without a 9-digit ABA routing number to Citibank, Wilmington, DE, for processing, which may take 45 days or more. The bond cannot be adjudicated, nor can a refund be authorized, before the check processing occurs.

If the BLM receives another instrument which is in accordance with the requirements for a "cash bond," a refund of the original payment will be authorized by the BLM after the processing time (30-45 days), as long as, the original payment was not returned as not payable by the U.S. Treasury. The BLM can authorize a refund of a foreign/personal check only after 30-45 days.

- b. Irrevocable Letter of Credit** – Obtained through a bank or financial institution

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

located in the United States. See Attachment 4 for further information.

- c. Certificates of Deposit (Time Deposits) - Obtained from a bank whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC), or a bank that is a Federal Reserve Branch Bank, and the deposit is not in excess of the maximum insurable amount, which is currently \$250,000. The time deposit must be pledged to the BLM. See Attachment 4 for further information.
- d. Negotiable Securities of the United States (U.S. Treasury bill, note, or bond) – Having a par value at the time of purchase of not less than the dollar amount required for bonding. See *Attachment 5* for further information.
- e. Investment-Grade Rated Securities - having a Standard and Poor’s rating of AAA or AA or an equivalent rating from a nationally recognized securities rating service.

The BLM in Alaska will not accept corporate guarantees as financial guarantee of reclamation.

- f. Insurance - when its form and function is such that the funding or enforceable pledges of funding are used to guarantee performance of regulatory obligations in the event of default on such obligations. Insurance must have an A.M. Best rating of “superior” or an equivalent rating from a nationally recognized insurance rating service.
- 3. State of Alaska Mining Reclamation Bond Pool** – when applied for through an APMA, approved by a BLM Field Office and the ADNR, and maintained through payment of annual fees.
- 4. Surface Management Bond Rider.** BLM Alaska will accept a personal or surety bond from a third party, that is, a party other than the operator, with the use of the appropriate bond and bond rider form; *Form 3809-4* is the Third-Party Rider form (Attachment 6). The BLM in Alaska will also accept a personal bond from the operator which is secured by a time deposit, letter of credit, or U.S. Treasury security from a third party with the use of a Personal Bond Rider, *Form 3809-4a* (Attachment 7). Other changes to a personal bond, such as an increase or decrease of the amount, a change to the bond coverage (individual, statewide, nationwide), the addition of a coprincipal(s) under the bond, etc. may be made also using *Form 3809-4a* (Attachment 7).

C. Statewide and Nationwide Bonds

The surface management regulations at 43 CFR 3809 provide for statewide and nationwide bonds. These bonds can be used to cover all of an operator's Notices and Plans of Operations in one state (statewide bond) or in all states in which the BLM administers lands that are open to the General Mining Laws (nationwide bond).

When Notices and Plans of Operations are to be covered by a statewide or nationwide bond, an operator must submit the surety bond or personal bond and financial instrument to the BLM for

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

processing and acceptance. In Alaska, the BLM Alaska State Office (AK-932) will receive, adjudicate and maintain statewide bonds as well as nationwide bonds it receives. The BLM State Office to which a nationwide bond is submitted will be the maintenance office of that nationwide bond for the BLM.

D. Phased or Incremental Bonding

Upon request by the operator, BLM Alaska may allow phased or incremental bonding for plans of operations. Some plans may be designed so that operations will occur in discrete "blocks" or operational phases. Bond coverage will be established to cover each phase of an operation as it progresses. In all cases, bond coverage will be required prior to disturbance.

Likewise, reclamation may be designed to occur in discrete blocks or phases. An entire site may be reclaimed in phases or an operation may be designed so that reclamation is completed in one area, while new disturbance is beginning elsewhere in the same operation. In the latter case, a fixed amount of bond coverage may be "rolled over" from one part of the operation to another with approval by the appropriate BLM field office.

E. Financial Guarantee Reduction and Release

The 43 CFR 3809 regulations require that all Plans and Notices submitted after January 20, 2001 be covered by a financial guarantee before conducting operations. The financial guarantee must be sufficient to cover 100% of the cost to stabilize and reclaim the site, including the cost of any action needed to prevent unnecessary or undue degradation of the Federal lands should premature cessation or abandonment of the operation occur. The following guidelines provide for the reduction and final release of financial guarantees held for Plan of Operations and Notice-level activities:

1. Up to 60% of the total financial guarantee for an operational area within a designated project area, or an entire project area, may be released when all contouring, water runoff and slope stabilization is complete(see 43 CFR 3809.591(b)). Requirements include: drill hole plugging; backfilling; recontouring; grading; establishment of surface and subsurface drainage controls; and stabilization of process/settling ponds and other similar facilities.
2. The remaining portion (at least 40%) of the financial guarantee may be released when all structures and other facilities have been removed and the area has been revegetated to establish a diverse, effective and permanent vegetative cover, all monitoring and maintenance requirements have been met, and when discharged effluent has met, without violations and without the necessity for additional treatment, applicable effluent limitations and water quality standards for at least one full year (see 43 CFR 3809.591(c)).

For operations where a portion of the surface disturbance has been fully reclaimed, meeting both the 60 and 40 percent criteria above, the operator may request and may

BLM - Alaska Bonding Guidelines for Notices and Plans of Operations Authorized Under 43 CFR 3809

receive credit for 100 percent reduction of the financial guarantee for that portion of the operation.

3. Use of the Bond Pool is incompatible with partial financial guarantee release. Following 43 CFR 3809.591(b), any acre covered by the Bond Pool must be fully reclaimed before the refundable portion is released to the operator – release of any funds for partial reclamation is prohibited.
4. For those operations that may require long-term (more than five years) post-closure monitoring and maintenance activities, operators may choose to acquire separate financial instruments to address and cover those identified long-term post-closure obligations. This would allow for release of the original financial guarantee upon completion of all reclamation and closure activities. [See 43 CFR 3809.552(c)].

Each Notice and Plan of Operations must include a section addressing site-specific financial guarantee release criteria which includes requirements in the approved BLM authorization.

Annual or interim adjustments (increases and decreases) to a financial guarantee covered by the Bond Pool may be requested using the following year's Bond Pool submittal form following review by the field office of appropriate jurisdiction. Requests for final release of financial guarantees covering operations on public lands must be made in writing to the appropriate BLM field office. Also, for all Plans of Operations, final release of a financial guarantee cannot be completed until BLM posts the final release proposal in the appropriate BLM Field Office or publishes a notice of the proposed final release in a local newspaper of general circulation and accepts public comments for 30 calendar days. Such a notification is not required for the final release of a financial guarantee held for Notice-level operations.

G. Transfer or Change of Operator

Any change of operator must be promptly reported to the appropriate BLM field office. In the event of a change of operator involving an existing Notice or approved Plan of Operations, the BLM will not transfer reclamation responsibility to the new operator until it is assured that the new operator or the subject operation has satisfied the requirements of the 43 CFR 3809 regulations as they relate to bonding. Reclamation responsibility remains with the existing bond until satisfactory replacement bonding is accepted for the operation. To expedite approval of operator transfer or change, *Form 3809-5 (Attachment 9)* or an acceptable transfer form from ADNR may be submitted to DNR with concurrence with the appropriate BLM field office (ADNR Transfer of Responsibility for Bonding and Reclamation Form: http://dnr.alaska.gov/mlw/forms/14apma/amend/bondpool_xfer.pdf)

Reclamation Cost Estimation Summary Sheet

Reclamation Cost Estimation Summary Sheet Endnotes

¹ Federal construction contracts require Davis-Bacon wage rates for contracts over \$2,000. Wage rate estimates may include base pay, Federal Insurance Corporation of America (FICA) and other required workforce coverage and benefits, overhead and profit. To avoid double counting of any of the identified administrative costs the operator must itemize the components of their labor cost estimates or provide BLM with a signed statement, under penalty of USC 1001, that identifies what specific administrative costs are included in the quoted hourly rate.

² Miscellaneous items should be itemized on accompanying worksheets.

³ Handling of hazardous materials and chemicals/other reagents includes the cost of decontaminating, neutralizing, disposing, treating and/or isolating all hazardous materials/chemicals/reagents used, produced, or stored on the site.

⁴ **For Mining and Processing Projects Only.** Engineering, design and construction (ED&C) plans are often necessary to provide details on the reclamation needed to contract for the required work. To estimate the cost to develop an ED&C plan use 4-8% of the O&M cost (Line E). Calculate the ED&C cost as a percentage of the O&M cost as follows: up to and including \$1 million, use 8%; over \$1 million to \$25 million, use 6%; and over \$25 million, use 4%. Itemized ED&C costs should be applied when appropriate such as for stream restoration tasks.

⁵ A contingency cost is included in the reclamation cost estimation to cover unforeseen cost elements. Calculate the contingency cost as 15 percent of the O&M cost (Line E).

As with the ED&C cost, inclusion of a contingency cost may not be necessary for small operations, such as road-accessible Notice-level exploration.

⁶ Insurance premiums are calculated at 1.5% of the total labor costs. Enter the premium amount if liability insurance is not included in the itemized unit costs.

⁷ Federal construction contracts exceeding \$100,000 require both a performance and a payment bond (Miller Act, 40 USC 270 *et seq.*). Calculate the total performance bond and the payment bond premiums at 3% of the O&M cost (Line E). Each bond premium is figured at 1.5% of the O&M cost.

⁸ For Federal construction contracts, use 10% of estimated O&M cost (Line E) for the contractor's profit.

⁹ Calculate the contract administration cost as a percentage of the O&M cost as follows: up to and including \$1 million, use 10%; over \$1 million to \$25 million, use 8%; and greater than \$25 million use 6%.

¹⁰ Estimate BLM's indirect cost rate at 21% of the contract administration costs (Line F6). This cost requirement may vary year to year so for larger projects request the current year's rate from the BLM's State Budget Office.

Reclamation Cost Estimation Summary Sheet

Reclamation Check List

This checklist is provided to assist the operator and BLM in calculating the engineering and environmental costs required to properly stabilize and reclaim the area disturbed by mineral exploration and/or mining operations. The checklist is designed to accompany the Reclamation Cost Estimation Summary Sheet. It is not all inclusive nor is it required, but is intended to serve as a reminder of issues that should be considered.

Access Roads and Drill Pads

1. Mobilization and demobilization.
2. Recontouring or regrading to approximate the original topography as closely as possible.
3. Removal of culverts.
4. Ripping or scarifying the surface.
5. Water diversion construction.
6. Restoration or stabilization of drainage areas or stream beds.
7. Revegetation.

Drill Hole and Well Abandonment

1. Mobilization and demobilization.
2. Drill hole and well (water, monitoring and piezometer) abandonment must meet all applicable Federal and State standards.
3. Drill holes that will be “mined through” within six months of drilling completion by the proposed mining operation do not have to be considered for bonding.

Trenches, Pits, Shafts, and Adits

1. Mobilization and demobilization.
2. Recontouring or regrading to approximate the original topography as closely as possible.
3. Revegetation.

Waste Dumps, Overburden, and Interburden Storage Areas

1. Encapsulation, mixing or other engineered placement methods.

Reclamation Cost Estimation Summary Sheet

Reclamation Check List

2. Recontouring and regrading to approximate the surrounding topography as closely as possible to enhance stability, reduce susceptibility to erosion, and facilitate efforts to establish vegetation.
3. Diversion of run-on.
4. Covering with rock, clay, topsoil, other growth medium or other cover material.
5. Revegetation.

Dams for Settling Ponds

1. Covering with rock, clay, topsoil, other growth medium or other cover material.
2. Revegetation.
3. Rendering the dam incapable of storing any mobile fluid in a quantity which could pose a threat to the stability of the dam, or to public safety.

Impoundment for Tailings

1. Regrading to promote run-off and reduce infiltration.
2. Covering with waste rock, clay, topsoil, other growth medium or other cover material.
3. Revegetation.
4. Diversion of run-on.
5. Temporary containment basins and water treatment facilities for leakage or outflow of effluent.

Reclamation Cost Estimation Summary Sheet

Reclamation Check List

Settling Ponds, and Other Non-Tailings Impoundments

1. Backfilling and grading as approved in the Notice or Plan of Operations.
2. Restoration of the pre-disturbance surface water regime, if appropriate.

Building Foundations, Facilities, Structures and Other Equipment

1. Demolition and burial costs of the demolition debris on site, in conformance with applicable solid waste and hazmat disposal requirements.
2. Off-site disposal costs of "1" above, in conformance with applicable solid waste disposal and hazmat requirements.
3. Equipment, miscellaneous facility (pipelines, power lines, etc.), trash and scrap removal.
4. Costs of continued use in a manner that is consistent with the proposed post mining land use.
5. No provision for salvage value or credit is to be considered.

Underground Mines

1. Sealing shafts, adits, portals, and tunnels to prevent access.
2. Construction and maintenance of berms, fences, or other means of restricting access.

Revegetation

1. Mobilization/demobilization of equipment.
2. Application of top soil or other growth medium.
3. Seed bed preparation.
4. Selection of appropriate species of seeds or plants (consult BLM staff specialist).
5. Addition of soil amendments such as fertilizers, mulches, or other compounds to assist in plant growth. Consult the BLM Field Office Staff to discuss options for seeding, planting, and fertilizing.
6. Planting or seeding (equipment, personnel, cost of seeds/plants).

Site Maintenance, Monitoring, and Evaluation

1. Any site monitoring costs as required by the BLM.
2. Evaluation to determine whether the revegetation and slope stability meet the criteria established for bond release or project closeout if work is done by BLM

Form 3809-1, Surface Management Surety Bond

A fillable PDF of this form is available on the BLM National Operations Center eForms webpage: <http://www.blm.gov/noc/st/en/business/eForms/mc.html>

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

FORM APPROVED
OMB NO. 1004-0194
Expires: August 31, 2016

SURFACE MANAGEMENT SURETY BOND

Act of May 10, 1872, as amended (30 U.S.C. 22-54)
Act of December 29, 1916, as amended (39 Stat. 862)
Act of October 21, 1976, as amended (43 U.S.C. 1732-35, 1782)
Act of September, 13, 1982 (31 U.S.C. 9301 et seq.)
Act of September 27, 1988 (102 Stat. 1776)
Act of April 16, 1993 (43 U.S.C. 299)

Surety Bond Number _____

Individual _____ ; or Statewide _____ ; or Nationwide _____
(Enter BLM Serial No.) (Enter Name of State, if applicable) (Enter "Yes," if applicable)

KNOW ALL BY THESE PRESENTS, THAT: _____
(name)

of _____
(address)

as principal; and _____ of _____
(name) (address)

_____ as surety; are held firmly bound unto the United States of America in the
sum of _____

_____ U.S. dollars (\$ _____),

lawful money of the United States, which may be increased or decreased by a rider hereto executed in the same manner as this bond, for the payment of
which sum the principal and surety bind themselves successors, and assigns, jointly and severally, by these presents.

The principal/surety will apply this bond for the faithful performance of any and all of the conditions and stipulations as set forth in this bond, the plan of
operations/notice cited above, and the regulations cited at CFR 3802 and 43 CFR 3809. In the case of any default in the performance of the conditions and
stipulations of such undertaking, it is agreed that the surety/principal will apply the bond or any portion thereof, to the satisfaction of any damages,
reclamation, assessments, penalties, or deficiencies arising by reason of such default.

BOND CONDITIONS

1. WHEREAS, the principal has an interest in a mining claim(s), mill site(s), or tunnel site(s) and/or responsibility for operations on those mining claim(s),
mill site(s), tunnel site(s) or public lands under the Acts cited in this bond; and
2. WHEREAS, the principal has filed an acceptable notice with the United States Department of the Interior, Bureau of Land Management (BLM) and/or
received approval from the BLM of the plan of operations cited above, and said plan of operations/notice contains certain stipulations and conditions;
and
3. WHEREAS, the principal has promised to deliver to the United States a bond substantially in the form hereof upon the approval and/or acceptance of
the above referenced plan of operations and/or notice by the BLM to secure the performance of the terms and conditions contained in said plan of
operations/notice and/or associated reclamation plan.
4. WHEREAS, the principal and surety agree that, with notice to the surety, the coverage of this bond, in addition to the present holdings of and/or
authorization(s) granted to the principal, shall extend to and include:
 - a. Any transfer of operating rights under the plan of operations and/or notice hereafter entered into or acquired by the principal affecting mining
claim(s), mill site(s), tunnel site(s), or public lands; and
 - b. Any activity subsequent hereto of the principal as operator under a plan of operations and/or notice issued pursuant to the Acts cited in this bond;
 Provided, that for Statewide and Nationwide bonds only, the surety may elect to terminate the additional coverage authorized under this paragraph.
Such termination will become effective 30 days after the BLM receives notice of the election to terminate. After the termination becomes effective,
the additional interests identified in this paragraph will not be covered by this bond; and
5. WHEREAS, the principal and surety agree that with notice to the surety this bond shall remain in full force and effect notwithstanding: Any
assignment(s) of an undivided interest in any part or all of the mining claim(s) mill site(s), tunnel site(s), or public lands covered by the plan of
operations/notice in which event the assignee(s) shall be considered to be coprincipal(s) on this bond as fully and to the same extent as though their
duly authenticated signatures appeared thereon; and
6. WHEREAS, the principal/surety hereby waives any right to notice of, and agrees that this bond will remain in full force and effect notwithstanding:
 - a. Any transfer(s) in whole or in part, of any or all of the land covered by the plan of operations and/or notice and further agrees to remain bound
under this bond as to the interests in the plan of operations and/or notice retained by the principal; and
 - b. Any modification of the plan of operations/notice or obligations thereunder as provided in paragraph 4 herein; and
7. WHEREAS, the principal and surety hereby agree that notwithstanding the nullity, relinquishment, abandonment or forfeiture of any mining claim(s),
mill site(s), or tunnel site(s) covered by this plan of operations and/or notice, whether by operation of law or otherwise, the bond will remain in full
force and effect as to the terms and conditions of the plan of operations and/or notice and obligations covered by this bond; and

BOND CONDITIONS (Continued)

8. WHEREAS, should the surety elect to cancel this bond, the surety agrees to give the principal and the BLM 90 days written notice by certified mail, return receipt requested, at their respective addresses as stated herein. The address for service to BLM concerning this bond

is the BLM _____ State Office located at _____

The surety further agrees that in the event of such cancellation this bond will remain in full force and effect as to all areas within the plan of operations/notice disturbed prior to the effective date of such cancellation, unless and until the principal should file a substitute bond or other acceptable instrument to protect the interests of the BLM and such bond or instrument is accepted by the BLM; and

9. WHEREAS, the principal and surety agree that in the event of any default under the plan of operations and/or notice, the bond may be forfeited and, the United States, through the BLM, may commence and prosecute any claim, suit, or other proceeding against the surety and principal, or either of them, without the necessity of joining the owner(s) of the mining claim(s), mill site(s), or tunnel site(s) covered by the plan of operations and/or notice; and

10. WHEREAS, if the principal fails to comply with the provisions of 43 CFR 3802 and 43 CFR 3809, the principal will be subject to the applicable provisions and penalties of Sections 303 and 305 of the Federal Land Policy and Management Act of 1976, *as amended*, (43 U.S.C. 1733 and 1735). This provision should not be construed to prevent the exercise by the United States of any other legal and equitable remedy, including waiver of the default; and

11. WHEREAS, on the faith of the foregoing promises, representations, and appointments and in consideration of this bond, the United States has received a notice or approved the plan of operations referenced herein.

12. NOW, THEREFORE, the condition of this obligation is that if said principal, heirs, executors, administrators, successors, or assignees will, in all respects, faithfully comply with all of the provisions of the plan of operations and/or notice, and any amendments thereto, and the regulations at 43 CFR 3802 and 43 CFR 3809, then this obligation will be null and void; otherwise it will remain in full force and effect.

Act of September 27, 1988 (102 Stat. 1776)
Act of April 16, 1993 (43 U.S.C. 299)

FORM APPROVED
OMB NO. 1004-0194
Expires: August 31, 2016

Individual _____; or Statewide _____; or Nationwide _____
(Enter Bureau of Land Management (BLM) Serial No.) (Enter Name of State, if applicable) ("Yes", if applicable)

KNOW ALL MEN BY THESE PRESENTS, THAT _____
(name)

of _____
(address)

as principal; is held firmly bound unto the United States of America in the sum of _____

_____ U.S. dollars (\$ _____)

lawful money of the United States, which may be increased or decreased by a rider hereto executed in the same manner as this bond.

The principal, pursuant to the authority conferred by Section 1 of the Act of September 13, 1982 (31 U.S.C. 9303), does hereby constitute and appoint the Secretary of the Interior to act as his attorney-in-fact for the purpose of negotiating the cash, letters of credit, savings accounts, certificates of deposit, or securities. The interest accruing on the United States securities, cash, or other instruments given above, in the absence of any default in the performance of any of the conditions, or stipulations set forth in this bond, the plan of operations/notice, must be paid to the principal. The principal hereby, for any heirs, executors, administrators, successors, and assignees, jointly and severally, ratifies and confirms whatever the Secretary will do by virtue of these presents.

The Secretary will transfer this deposit for the faithful performance of any and all of the conditions and stipulations as set forth in this bond, the plan of operations/notice cited above, and the regulations at 43 CFR 3802 and 43 CFR 3809. In the case of any default in the performance of the conditions and stipulations of such undertaking, it is agreed that the Secretary will have full power to assign, appropriate, apply, or transfer the deposit, or any portion thereof, to the satisfaction of any damages, reclamation, assessments, penalties, or deficiencies arising by reason of such default.

BOND CONDITONS

1. WHEREAS, the principal has an interest in a mining claim(s), mill site(s), or tunnel site(s) and/or responsibility for operations and/or reclamation on the mining claim(s), mill site(s), or tunnel site(s) or public lands under the Acts cited in this bond; and
2. WHEREAS, the principal has filed an acceptable notice with the United States Department of the Interior, BLM and/or received approval from the BLM of the plan of operations cited above and said plan of operations/notice contains certain stipulations and conditions; and
3. WHEREAS, the principal hereby waives any right to notice of, and agrees that this bond will remain in full force and effect notwithstanding:
 - a. Any transfer(s) in whole or in part, of any or all of the land covered by the plan of operations/notice further agrees to remain bound under this bond as to the interests in the plan of operations/notice retained by the principal; and
 - b. Any modification of the plan of operations/notice retained by the principal; and
4. WHEREAS, the principal hereby agrees that notwithstanding the cancellation or relinquishment of any mining claim(s), mill site(s), or tunnel site(s) covered by this plan of operations/notice, whether by operation of law or otherwise, the bond will remain in full force and effect as to the terms and conditions of the plan of operations/notice, and obligations covered by this bond; and
5. WHEREAS, the principal agrees that in the event of any default under the plan of operations/notice and/or reclamation plan the bond may be forfeited and, the United States, through the BLM, may commence and prosecute any claim, suit, or other proceeding against the principal without the necessity of joining the owner(s) of the mining claim(s), mill site(s), or tunnel site(s) covered by the plan of operations/notice; and
6. WHEREAS, if the principal fails to comply with the provisions of 43 CFR 3802 and 43 CFR 3809, the principal will also be subject to the applicable provisions and penalties of Sections 303 and 305 of the Federal Land Policy and Management Act of 1976, *as amended* (43 U.S.C. 1733 and 1735). This provision will not be construed to prevent the exercise by the United States of any other legal and equitable remedy, including waiver of the default; and
7. WHEREAS, on the faith of the foregoing promises, representations, and appointments and in consideration of this bond, the United States has accepted the notice or approved the plan of operations referenced herein.
8. NOW, THEREFORE, the condition of this obligation is such that if said principal(s), heirs, executors, administrators, successors, or assignees will, in all respects, faithfully comply with all of the provisions of the plan of operations/notice referenced herein, and any amendments thereto, and the regulations at 43 CFR 3802 or 43 CFR 3809, then this obligation will be null and void; otherwise it will remain in full force and effect.

ATTACHMENT 4

Information on Time Deposits and Letters of Credit for
Reclamation Bonding of Notices and Plans of Operations

U.S. Department of the Interior
Bureau of Land Management
Alaska State Office

**Information on Time Deposits and Letters of Credit
For Reclamation Bonding of Plans of Operations**

The following information is provided to assist an entity in obtaining a Time Deposit or an Irrevocable Letter of Credit to be used as security for Bureau of Land Management (BLM) surface reclamation bond (Form 3809-2, Attachment 3). It is suggested that you take these guidelines with you to the bank when you go to inquire about obtaining a time deposit or letter of credit. If you, or the financial institution, have questions, please call the BLM Alaska State Office at 907-271-4402, Branch of Minerals Adjudication.

Certificates of Deposit and other Time Deposit Instruments

The Certificate of Deposit or other time deposit (TD) must be issued by a financial institution, the deposits of which are federally insured, explicitly granting the Secretary of the Interior full authority to demand immediate payment in case of default in the performance of the terms and conditions of the 3809 Notice or Plan of Operations. The TD shall explicitly indicate on its face that Secretarial approval is required prior to redemption of the TD by any party.

If the bond is secured by a certificate of deposit or other fixed time deposit, the TD must be presented to the BLM Alaska State Office with the following conditions:

1. The financial institution issuing the TD must be insured by the Federal Deposit Insurance Corporation (FDIC), the Federal Savings and Loan Insurance Corporation (FSLIC), the National Credit Union Association (NCUA), or otherwise federally insured.
2. A TD cannot exceed the insured amount from any one financial institution for any one depositor.
3. The BLM must hold sole right to redeem the TD. Bank records must be provided showing that only the BLM may collect the amount of the TD. The TD should be made in the name of the U.S. Department of the Interior - BLM. If the TD is not directly issued in the name of the Department of the Interior - BLM, then the TD must explicitly state on its face that **"The Secretary of the Interior must approve the redemption of the TD by any party."** Any earned interest will be paid to the obligor, not to BLM.
4. The TD should be provided in the amount required for surface reclamation and include an additional amount sufficient to cover any penalties for early withdrawal. If the TD is submitted for only the amount determined for surface reclamation, any penalties for early redemption will be paid from the obligor's interest earned and not from the principal amount of the TD.

Irrevocable Letters of Credit

An Irrevocable Letter of Credit must be issued by a financial institution organized or authorized to do business in the United States and identify the Department of the Interior, Bureau of Land Management as the sole payee with full authority to demand immediate payment in the case of default in the performance of the terms the notice and/or plan of operations or of default with replacement when required.

A Letter of Credit (LC) must be presented to the BLM Alaska State Office as follows:

1. The LC must be payable to the Department of the Interior - BLM.
2. The initial expiration date must not be less than one year from the effective date of the LC. The LC must contain a provision for automatic renewal for periods of not less than one-year in the absence of notice from the bank to the BLM Alaska State Office at least 90 days prior to the originally stated or any extended expiration date of bank's election not to renew.
3. The LC must contain provisions allowing collection by BLM for failure of the obligor to replace the bond when 90-day notice is given by the bank that the LC will not be renewed and the LC is not replaced by other suitable bond or LC at least 30 days before its expiration date.
4. The LC shall be payable to the BLM upon demand, in part or in full, upon receipt from the authorized officer (BLM Alaska State Office) of a notice of attachment stating the basis therefor, e.g., default in compliance with the notice or plan of operations or the failure to file a replacement for an expiring LC as described in Item 3 above.
5. The LC must be subject to the Uniform Customs and Practice for Documentary Credits. The current version is the 1993 revision, ICC Publication No. 500.

The following page is sample language to be used when securing an Irrevocable Letter of Credit.

Irrevocable Letter of Credit No.: _____

Date Issued: _____

Beneficiary:

DOI, Bureau of Land Management
Alaska State Office
222 W. 7th Avenue #13
Anchorage, AK 99513-7504

Ladies and Gentlemen:

On behalf of (operator or other entity) _____ of _____ (address) _____, as obligor, we (bank) _____ of _____ (address) _____ hereby establish an Irrevocable Letter of Credit in favor of the U.S. Department of Interior, Bureau of Land Management (BLM) and agree to pay upon demand by BLM, up to an aggregate amount of U.S.\$ _____ upon receipt of your sight draft(s) on us and your written notification signed by a purported authorized officer of the BLM to the effect the obligor has been determined to be in default and the amount drawn represents the reasonable amount, as determined by the BLM, of such default.

This Letter of Credit is available with _____ (bank or financial institution) at _____ (address) by sight payment. Partial drawings are permitted.

This Letter of Credit is effective _____ (date) _____, and will expire at our offices in _____ (address) _____ on (minimum of 1 year from effective date), and shall thereafter be automatically renewed for a one year period upon such date and upon each anniversary of such date, unless at least ninety (90) days prior to the then current expiration date we notify you at the above address by courier service, that we elect not to renew this letter of credit for such additional period.

Upon receipt by the BLM of such a notice from us not to renew this Letter, the BLM may draw on us at sight for up to the amount of the Letter of Credit, prior to the expiration thereof, provided that such a draft is accompanied by a statement signed by a purported authorized officer of the BLM that no satisfactory replacement bond has been provided by the obligor prior to 30 days before this Letter of Credit expires.

It shall not be required for the BLM, in order to draw on this Letter of Credit, to furnish the original Letter; however, it is understood, as a condition of any payment thereunder, that the face amount of the Letter shall automatically be reduced by any payment made by the bank and that the BLM will promptly surrender the original Letter of Credit when and if the bank shall tender to the BLM the full amount of funds represented by this Letter; such surrender to occur as soon as reasonably practical after full payment is made. The original Letter of Credit shall also be surrendered promptly following its expiration.

We promise that the amount of credit herein established will not be reduced for any reason during the effectiveness of this Letter of Credit without the prior written approval of the BLM.
Optional: We are informed that this Letter of Credit is issued per the requirements of Title 43 Code of Federal Regulations, Subpart 3809.

This credit is subject to the Uniform Customs and Practice for Documentary Credits, 1993 revision, ICC Publication No. 500.

ATTACHMENT 5

Information on Negotiable Securities of the United States

U.S. Department of the Interior
Bureau of Land Management
Alaska State Office

**INFORMATION ON NEGOTIABLE SECURITIES
OF THE UNITED STATES**

General information on pledging U.S. Treasury securities as collateral to the U.S. Government is found at 31 U.S.C. 9303 *et seq.* and U.S. Treasury Circular 154, which was incorporated into the Code of Federal Regulations at 31 CFR 225 (Acceptance of Bonds, Notes, or Other Obligations Issued or Guaranteed by the United States as Security in Lieu of Surety or Sureties on Penal Bonds).

The following is to assist the applicant in obtaining a U.S. Treasury Bill, Note, or Bond to be used as security for bond coverage required by the Bureau of Land Management (BLM), the Department of the Interior. Instead of being transferred to BLM's book-entry account through the Federal Reserve Bank (FRB) as in the past, securities are now held in a Circular 154, U.S. Government Account Number 11, under the depository financial institution's American Bankers Association (ABA) number with the FRB. Once a security is transferred into Circular 154 Account Number 11, neither the obligor nor the bank will be able to access the security without the BLM providing authorization to the FRB to do so.

Therefore, when you contact your bank to purchase a negotiable U.S. Treasury security, you need to send the following to the BLM Alaska State Office as soon as possible:

1. Your name and mailing address. (If this is not the operator according to the plan or notice filed with the BLM, include the operator's name and address.)
2. The BLM serial number of the operations being bonded or a statement that the security is being pledged for a statewide or nationwide bond.
3. The type of Treasury security purchased (bill, bond, or note).
4. The par amount of the security, the interest rate, and the maturity date of the security.
5. The Committee on Uniform Securities Identification Procedures (CUSIP) number of the security.
6. The name and mailing address of your bank, along with the name and telephone number of a contact person at your bank.
7. The bank's nine-digit American Bankers Association number.
8. The name of the FRB or FRB Branch servicing the depository financial institution.
9. A copy of your written authorization to the bank to establish a Treasury security.

Upon receipt of the above information, the BLM will telefax a copy of that information to the BLM Business Center, Accounting Operations Division, Negotiable Securities Manager. The Negotiable Securities Manager will then contact the FRB and the obligor's bank to authorize the transfer of the Treasury security to the Circular 154, Account Number 11.

THE OBLIGOR'S BANK MUST NOT TRANSFER THE SECURITY TO THE CIRCULAR 154, ACCOUNT NUMBER 11 UNTIL AUTHORIZATION IS GIVEN BY THE BLM NEGOTIABLE SECURITIES MANAGER.

When the security is transferred to the Circular 154, Account Number 11, the bank must include the following information in the electronic transfer message: "Security pledged to DOI- BLM Alaska State Office by [name of obligor] for [BLM bond number _____]." The following is an example of an acceptable transfer message: "Security pledged to DOI- BLM, Alaska State Office by (Zephyry Mining Company) for BLM Bond Number AK 003489.

The obligor is to provide the following to the BLM office as soon as possible:

1. A fully-completed BLM personal bond form (Form 3809-2). See Attachment 3.
2. A transaction document from your bank to verify the amount that you paid for the security, excluding any commission fee and accrued interest, equals or exceeds the bond amount required by BLM. A discounted value less than the full amount is NOT acceptable. If a Treasury security, purchased at a discount, is submitted for less than the required bond amount, the bonded party must make up the difference (certified check, etc.) otherwise the bond will be returned unaccepted.

Once the security is transferred to the Circular 154, Account Number 11, the FRB will send the Negotiable Securities Manager a confirmation of the transfer, including the date of transfer, titled, "Acknowledgment of Book Entry Deposit, Release of Account Transfer" and/or "Statement of Pledged Activity." The BLM National Business Center will send a copy of the Statement or Acknowledgment will be sent to the BLM office to document the transfer.

Upon receipt of the items from the obligor and the Negotiable Securities Manager, the BLM office will notify the entity by written decision that the personal bond has been accepted, the BLM Bond Number assigned to the bond, and the date bond coverage is effective. A copy of the bond acceptance decision is sent to the Negotiable Securities Manager. The BLM will notify the obligor in its decision that (1) the personal bond has been accepted, (2) the BLM bond number assigned to the bond, and (3) the date the bond coverage is effective.

The BLM Negotiable Securities Manager will notify BLM about a maturing Treasury security about 90 days before the maturity date, and the BLM in turn will notify the obligor by letter that the security is maturing.

If bonding continues to be required and a satisfactory replacement financial instrument has not been accepted by BLM **before** the maturity date of the security, the security will be reinvested automatically upon maturity.

If a satisfactory replacement financial instrument has been accepted by BLM or a determination has been made by the appropriate BLM office(s) that bonding is no longer required, **after** the maturity date of the security, the BLM adjudication will send a memorandum requesting the Business Center to direct the FRB to transfer the security from the Circular 154, Account Number 11 to the obligor's bank.

If the entity is in default with the terms and conditions of the plan of operations or notice for which bonding was required, and collection under the bond is warranted, the BLM office will send the Negotiable Securities Manager a memorandum requesting that at maturity, the cash proceeds be transferred to BLM.

If your bank has any questions about the information provided, a bank representative should contact the servicing FRB. Any questions regarding BLM's procedures may be directed to the BLM National Business Center, Accounting Operations Division, Collections and Billings Branch at P.O. Box 25047, Denver, CO 80225-0047 (telephone number 303-236-6321). For information regarding BLM bond requirements in general, the entity may contact the BLM Alaska State Office at 907-271-4402.

BLM Bond Number
Surety Bond Number

Form for Bond Rider Extending Coverage of Bond to Assume Liabilities for Operations Conducted by Parties Other Than the Principal (Consent of Surety) RIDER

The principal and surety (or principal/obligor, if a personal bond) hereby agree to extend the coverage of the bond referenced above to include liabilities for operations conducted by _____ on _____ (Name of Mine/Operation).
plan/notice serial number _____ in which the principal holds interest or in the
State of _____ (Statewide bond) or Nationwide (Nationwide bond).

Coverage includes the faithful performance of all plan of operations or notice level operations, both past and future, including the responsibility for all surface reclamation, as filed or approved by the Bureau of Land Management (BLM).

This coverage of plan of operations or notice level operations, will continue whether or not the plan(s) and/or notice(s) subsequently expire, terminate, are abandoned, suspended or revoked; provided however, that this rider will not act to increase the actual cumulative or potential liability for the surety above the face amount of the bond (penal sum).

ATTACHMENT 8

Alaska Department of Natural Resources form for return of state-wide bond pool deposits.

An operator may request a release of bond pool coverage and return of bond pool deposits through the use of DNR forms only **after** receiving approval by the BLM Authorized Officer. The Form is available at the ADNR's website:
http://dnr.alaska.gov/mlw/forms/14apma/amend/bondpool_refund.pdf

**APPLICATION FOR RELEASE OF RECLAMATION BOND
OR
REFUND OF RECLAMATION BOND POOL DEPOSIT**

APMA NUMBER: _____

Name of Applicant: _____

This form may be used to request release of a reclamation bond or a refund of the refundable portion of the bond pool deposit. **If the bond is for operations on federal claims, reclamation approval is required by the federal land manager before DNR will make the bond deposit refund.** If DNR has not inspected reclamation on state claims, photographs of the completed reclamation work may be required before the bond is released.

I hereby swear or affirm, under oath, that I have examined Alaska Statute 27.19 (Reclamation Act), 11 AAC 97 (Reclamation Regulations) and my approved reclamation plan and believe myself to have completed the reclamation to the required standards and in accordance with my approved reclamation plan. The mining reclamation took place on claims: _____

_____ and consists of a total of _____ acres. In accordance with the above referenced Annual Placer Mining Application (APMA) and approved reclamation plan, the number of acres to be mined was _____ and a total of _____ acres remain to be reclaimed. I request a release of the bonding obligation and a refund of the refundable bond pool deposit for the _____ acres that have been reclaimed. I understand bond monies are refundable only to those individuals or businesses originally submitting such, unless proper documentation is enclosed indicating refunds should be issued otherwise.

Photographs of the completed reclamation work are attached: [] Yes [] No

I understand if the commissioner determines reclamation was not done in accordance with the approved plan of operations and this sworn statement, I remain liable under AS 27.19 to complete the reclamation.

I certify under penalty of perjury the foregoing is true and accurate.

Form 3809-5, Notification of Change of Operator and Assumption of Past Liability

A fillable PDF of this form is available on the BLM National Operations Center eForms webpage: <http://www.blm.gov/noc/st/en/business/eForms/mc.html>

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

FORM APPROVED
OMB No. 1004-0194
Expires: August 31, 2016

NOTIFICATION OF CHANGE OF OPERATOR AND ASSUMPTION OF PAST LIABILITY

The mining law surface management regulations at 43 CFR 3809 require that obligations accrued or conditions created under an operation remain with that operator until (1) Bureau of Land Management (BLM) accepts a satisfactory replacement financial guarantee adequate to cover the previously accrued obligations and (2) BLM receives documentation that a transferee accepts responsibility for the transferor's previously accrued obligations. Therefore, the undersigned transferee hereby assumes all liabilities that may be outstanding on the plan of operations or notice shown below, including, but not limited to, the obligation to properly reclaim and restore the land disturbed on said plan or notice within the approved reclamation plan or notice filed with the BLM; provided that the obligation will not act to increase the potential or cumulative liability above the face amount of the replacement bond to which this notification attaches in the amount stated below as required from the transferee.

1. BLM Notice or Plan of Operations Number(s): _____

2. Date BLM Accepted Notice or Approved the Plan of Operations: _____

3. Change of operator on the Notice(s) or Plan(s) shown is proposed on _____ as follows:

Change of Operator Approved Pending Acceptance of Satisfactory Bond:

(Field Manager)

(Date)

cc: State Office
Surety, if applicable

NOTICES

THE PRIVACY ACT OF 1974 and the regulation in 43 CFR 2.48(d) require that you be furnished the following information in connection with information required by this application.

AUTHORITY: 30 U.S.C. 22 et seq.; 43 U.S.C. 1732(b) and 1782(c); 31 U.S.C. 9301 et seq.; 43 CFR 3802 and 43 CFR 3809.

PRINCIPAL PURPOSE: Information is being used to establish financial responsibility for surface disturbance on public lands.

ROUTINE USES: BLM will only disclose the information according to the regulations at 43 CFR 2.56(d).

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of the information is necessary to obtain or retain a benefit. Failure to disclose this information may result in BLM's rejection of your application.

THE PAPERWORK REDUCTION ACT OF 1995 requires us to inform you that:

The BLM collects this information to grant the right to conduct exploration and mining activities on public lands.

Response to this request is required to obtain or retain a benefit.

The BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

BURDEN HOURS STATEMENT: Public reporting burden for this form is estimated to average 8 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to U.S. Department of the Interior, Bureau of Land Management (1004-0194), Bureau Information Collection Clearance Officer (WO-630), 1849 C Street, N.W., Room 2134LM, Washington, D.C. 20240.
