Maps-GSENM

We provided multiple maps in the Google Drive. It depends what they need the map for....just overview/general....then 2 of the maps in the google drive will work ( attached below). . More detail....we have many maps available, from the transportation map/ various resource maps etc. The google drive has the cultural maps, paleo maps and wsa map.

Just let us know if there is something else that will meet the need.

Only five questions for Utah- please see suggested POCs, attached. I can handle all the WSA/lwc/wilderness info.

Is everyone available at 9 am tomorrow to discuss? I am flexible, but Aaron, Nate and I are all on standby still for a drop-everything leg. affairs request tonight and may not be in the office until after 8 tomorrow morning.

Hi All:

We received a few additional questions from DOI that we need some assistance from Utah. Please see the attached list of questions and provide responses to the questions I've noted for Utah. There are a few that we (WO410) will take the lead on addressing. Please don't upload this document to the google drive folder. Just insert your responses in the attachment, one for Bears Ears and one for GSENM, and email back to me to coordinate in the WO and transmit to DOI. If at all possible, please provide the responses to these questions tomorrow (5/19).

Please let me know if you have any questions.

Thanks so much, Sally
