Brian,

Thanks for providing the clarifications where you can. This helps immensely.

I haven't been given approval by the Dept / WO to share the data, even internally. But I can tell you that everything south of Highway 89 is no longer in the Monument boundary, so Corridor 68 116 would be outside.

Corridor 116 206 is close, but is not located within the new Monument boundary.

No corridors appear to be in the Bears Ears area, so that should not be an issue.

Hi, Tim,

I'm cc'ing Brian Mueller, my counterpart in the UTSO GIS shop, who is the keeper of the new monument boundary GIS data. I am not aware of anyone else who has access to this GIS data, nor am I aware of Brian's discretion to share it with anyone. Good luck!

AJC

Hi Aaron -

I usually would bounce this off Allison, but I know she is not in today. Can you provide assistance with USO GIS staff to help with the mapping question of the new boundaries for Grand Staircase-Escalante and the proposed ROW.

I appreciate your assistance.

Tim,

Can you work with BLM-Utah to provide input to Georgeann regarding GSENM? They have a tight deadline of Dec. 19.

Thanks so much, Sally

Sally,

Can you assist with the request below? We need input as soon as possible as we are working toward a Dec 19 deadline and I see that Britta is out-of -the-office until Monday.

For the West-wide energy corridor reviews, we have an online mapper available at <https://bogi.evs.anl.gov/section368/portal/>. We need some assistance on how to depict boundary changes for Grand Staircase Escalante.

See the email below for further and please let me know if you have any questions.

To: Georgeann Smale <gsmale@blm.gov>

We need to get our heads-wrapped around this one.

With the recent Executive Action by the President (Dec. 4th) to shrink Grand Staircase Escalante National Monument, I'm wondering if we need to revise the map and analysis? Is the boundary-change considered complete? There was at least one lawsuit filed.

The corridor 68-116_AZ_UT appears that it will be outside of the Monument now. (see map below)

Changes to declared national monuments in Utah

● Original boundary ● New delineation

Who in DC do you think would know more? I would think WO-400

I've attached abstract 68-116 AZ UT.
