Subject: Monument review comment training
Received: 2017-05-30T16:54:23-04:00

At our last meeting I offered an opportunity for those who were interested to view the training that will be offered on using the DiscoverText system to analyze public comments, so you could see what the analysis team members would be doing.

Unfortunately, the DepSec conference room is booked and I could not find another room, so I will instead offer everyone a chance to review the training individually later, as it will be recorded for those unable to participate tomorrow.

I have worked over the weekend and today and gotten the number of Bears Ears comments that need to be reviewed down to a manageable level, and the Bears Ears review should be good training for the comments on the larger group of monuments that will follow.
