Richard,

Thanks for your email. I'm not trying to change your mind on this, just inform you of how I have been instructed to compile these reports. The articles that I post are intended to inform BLM employees of what is being said about our policies and programs, whether favorable or not. The articles in no way reflect my opinion.

If you look at my previous reports, there is a balance of positive news coverage as well as negative news coverage. For example, In today's daily news report, I will include an Op-ed written by Bruce Adams, Rebecca Benally, Phil Lyman, and Stan Summers, who oppose the Bears Ears Monument designation; I will also include an article from the Huffington Post that was written in support of the monument designation.

Again, I appreciate your email and thank you for voicing your concern.

Ryan

Okay, normal I would just delete but 2 of your articles call for a comment. We have been directed to ride the brand and your posting of articles that go against the President of the United States and our boss is wrong. If you insist on posting derogatory articles then please keep them to yourself and not push your opinion out to everyone else.
