[Monthly Hot Topic Snapshot for week of August 7.docx](#)
[FY2017 Tracking Spreadsheet.xlsx](#)

Hi Folks, the Monthly Hot Topic Snapshot for the week of August 7 and the WO410 tracking spreadsheet are attached. Please let me know if you have any questions.

Thanks.

Britta Nelson, M.P.A., Program Analyst

Monthly Hot Topic Snapshot
WO-410 RMP and EIS Review
Updated 08/07/17**

Chris McAlear
Acting Assistant Director
Assistant Director (WO-400)

RMPS AND PROJECTS WITH ISSUES TO ELEVATE/DIRECTORS PRIORITIES

- **DTS# 1663. NOI to Prepare a Project EIS with a Proposed Plan Amendment to the 1998 Las Vegas RMP and Notice of Segregation for the Crescent Peak Wind project. Nevada.**
 - Surnamed by WO410 on July 20. **NOA package has not reached WO400.**
 - **Update:** Noted in DTS that communications with WO-210 and Nevada indicate that Nevada will incorporate information in the NOI documents about lands with wilderness characteristics and NLCS components that are located in the project area.
- **DTS# 1545. NOA of the DRMP and DEIS for the BLM Carlsbad Field Office, New Mexico.**
 - Surnamed by WO410 on June 8. **NOA package has not reached WO400.**
- **DTS# 1527. NOA of the DRMP and DEIS for the Cedar City Field Office Planning Area. Utah.**
 - Surnamed by WO410 on May 2. **NOA package has not reached WO400.**
- **DTS# 1471. NOA for the Grand Staircase-Escalante National Monument administrative draft MMP-A/DEIS. Utah.**
 - Surnamed by WO410 on April 14. **NOA package has not reached WO400.**
- **DTS# 1542. NOI to Amend the RMP for the Ukiah Field Office, California and Prepare an Associated Environmental Assessment for the Berryessa Snow Mountain National Monument. California.**
 - Surnamed by WO410 on May 2. **NOI package has not reached WO400.**
 - **Update:** the BLM Federal Register Notices update indicates the NOA is on hold at California's request.
- **WO Review of Eastern Washington DRMP/DEIS. Oregon/Washington.**
 - **Update:** This WO review has been postponed until after the Sage-Grouse review under Secretarial Order 3353 has been completed. The postponement will help ensure that the RMP is consistent with the results of the review before commencing WO review. The Sage-Grouse report under SO 3353 is due August 4 and the WO review will be rescheduled shortly thereafter. **Per WO210, review is anticipated to be kicked off the week of August 14.**
 - There are lands with wilderness characteristics, WSR, and NSHT in the planning area.
- **WO Review of Carson City PRMP/FEIS. Nevada.**
 - **Review period runs from July 26-August 16.**
 - There are lands with wilderness characteristics, WSA, WSR, and NSHT in the planning area.
- **Challis, Salmon, Upper Snake RMP Prep Plan. Idaho.**
 - **Update:** WO410 provided follow up comments to the responses to WO feedback (May 19), requesting data and GIS funding needs for National Trails be identified in the prep plan and following up on a WSR comment that

was not responded to re: if USFS and BLM coordination on joint WSR studies would be considered. **WO410 has not received the response to comments.**

- **Appalachian Basin RMP Prep Plan.** Eastern States.
 - **Update:** WO410 provided feedback on the prep plan on March 10, 2017 (NSHT and WSR should be addressed if located in the planning area). **WO410 has not received the response to comments.**
- **Mancos Shale RMP-A, Farmington, New Mexico.**
 - **Issues: Unknown** but WO410 is tracking because the RMP-A proposes to amend four decision types including lands with wilderness characteristics and will analyze potential impacts from oil and gas decisions to the Old Spanish NHT (RMP decisions for the NHT will not be made).
 - **As the RMP-A/EIS moves forward (alts development, impact analysis, etc.). WO410 will participate to ensure that the National Conservation Lands units are adequately considered.**
 - **Update:** Draft alternatives will be completed this summer. Public release of the DRMP/DEIS is not anticipated until late summer 2018. NMFS will coordinate with WO410 on WO review.
- **Boardman to Hemmingway ROD.** Oregon, Idaho.
 - **Update:** The last update was provided for the Renewable Energy and Transmission dashboard on June 28, 2017 and indicates that coordination is continuing with the WO on the NOA for the ROD and incorporating compliance discussions with the Executive Order of March 28, 2017 and Secretarial Order 3349 of March 29th, as it relates to mitigation. **It is unknown if WO410 will participate in the process.**
- **Environmental Assessment to Reconsider the ROD Approving Segments 8 and 9 for the Gateway West Transmission Line Project.** Idaho.
 - **Update:** The BLM is directed, through the Morley Nelson Snake River Birds of Prey NCA Boundary Modification Act, 2017, to issue a ROW for the lands described in Sec. (b)(2) of the Modification Act for portions of Gateway West segments 8 and 9. The Modification Act moved the lands for this ROW from NCA status, stipulated that the mitigation framework presented in the Final Supplemental EIS will apply to the authorized segments, and stipulated a timeframe for issuance of the ROW. **It is unknown if WO410 will participate in the process.**
- **Section 368 Energy Corridor Region 1 draft review report.** Southern California, southern Nevada, and western Arizona.
 - **Issues:** Outdated policy that categorized National Trails as 'medium potential for conflict' was used in the original draft review report. Updated solar and wind policy now categories National Trails as 'high potential for conflict'. This was addressed with WO301. WO301 indicated no further follow up needed at this time.
 - **Update:** Revised draft Region 1 Report sent to WO100 for review prior to release for 30-day stakeholder input.
- **Section 368 Energy Corridor Region 2 review.** Eastern Arizona, southern Utah, and New Mexico.
 - **Update:** A schedule is being developed for the Region 2 review.
- **Lake Powell Water Project.** Arizona, Utah.
 - **Issues:** Potential hydro-power station located in and plan amendment for the GSENM.

- **Update:** WO410 has reached out to BLM Utah and the project manager regarding this project. This is a water removal and transportation project including a proposed hydro-power station located on GSENM. The BLM is working with Utah to perfect the License Application to FERC and to discuss the need for one or two plan amendments in the Arizona Strip FO and GSENM. This would be a new license for a proposed pipeline and is a discretionary authorization.
- **Donlin Natural Gas Pipeline PFEIS.** Alaska.
 - **Issues:** Iditarod NHT is located on some State Patent lands which are proposed for the project.
 - **Update:** The PFEIS is under review by the Alaska State Office with the review period ending August 25. It is unknown if the WO will review the PFEIS. A meeting with BLM Alaska was held on February 27 to discuss State Patent lands of concern within the Donlin project, specific to the Iditarod National Historic Trail. Although it is not feasible to get a ROW reservation for affected townships, BLM Alaska is working to get comments into NEPA for the project, including mitigation for impacts to the NHT.
- **Verde Transmission ADEIS.** New Mexico.
 - **Issues:** Potential impacts to WSR and National Trails.
 - Proposed route crosses Rio Grande River. Eligible and suitable WSR streams in area including additional segments of the Rio Grande WSR.
 - Project would cross the Camino Real de Tierra Adentro NHT and Old Spanish NHT.
 - **Next milestone is review of ADEIS (TBD). Any review is to be coordinated through New Mexico as amendment is not on WO210 priority list for WO review.**
 - **Update:** The schedule is being revised because the public scoping period was extended. Approval of the revised project schedule is pending.

UPCOMING BRIEFINGS (NEXT 30 DAYS)
--

- **Kick-off Briefing for WO Review of Eastern Washington DRMP/DEIS.** Oregon/Washington.
 - Review kick-off briefing is anticipated to be held the week of August 14.
- **Grand Staircase-Escalante National Monument administrative draft MMP-A/DEIS.** Utah.
 - **AD Brief TBD.** Staff pre-brief was held April 25.
 - **No issues.** 471,700 acres contain wilderness characteristics. The draft MMP did not specifically address management of lands with wilderness characteristics, however these lands receive incidental management in the following zones:
 - The primitive zone (281,800 acres) allows for an undeveloped, primitive, and self-directed visitor experience without mechanized or motorized access.
 - The outback zone (149,600 acres) is intended for an undeveloped, primitive, and self-directed visitor experience, while allowing motorized and mechanized access on designated routes. Facilities are rare and are provided only when needed for resource protection.
 - The remaining lands with wilderness characteristics (40,300 acres) are in the front country and passage zones which contain more facilities and are the focal points for visitation.
- **Lewistown DRMP/DEIS.** Montana.
 - **TBD.**

- **No issues.** 202,730 acres contain wilderness characteristics.
 - Prioritize other uses on 70,000 acres while not protecting wilderness characteristics. Underlying prescriptions include open to mineral material sales, non-energy leasables, cross-country mechanized travel, fluid minerals with minor constraints (CSU), and livestock; limited to designated routes yearlong; 400 acres of ERMA prescription (potentially); and mostly VRM III.
 - 30,000 acres would be managed to minimize impacts to wilderness characteristics while managing for other uses (13,000 acres of ACECs and approximately 15,000-20,000 acres where actions are in place to protect GRSG).
 - 100,410 acres (49%) would be managed to protect wilderness characteristics as a priority over other multiple uses.
- **Carlsbad Field Office DRMP/DEIS.** New Mexico.
 - **TBD.**
 - **U** **Carlsbad FO is revisiting the alternatives.**

_____ wilderness characteristics was found in DRMP/DEIS and range from 24,072 to 41,772 acres.
 - **W** **Rationale:** The Delaware River segment was not included in the Preferred Alternative because this area _____ has been identified as an area with high oil/gas development potential. Portions of the Delaware River segment are currently leased for oil and gas development and are surrounded by state lands. Much of the Delaware River segment carries protective allocations associated with the proposed Gypsum Soils ACEC _____ which is included in the Preferred Alternative C.
- **Rio Puerco PRMP/FEIS.** New Mexico.
 - **TBD.**
 - **No iss** _____ There are seven areas totaling 37,524 acres of wilderness characteristics.
 - Prioritize other uses on 1,663 acres (4%) while not protecting wilderness characteristics.
 - 6,920 acres (18%) would be managed to minimize impacts to wilderness characteristics while managing for other uses. Travel limited to designated routes, closed to leasable minerals, avoid for saleable minerals and ROW, minimizing impacts and requiring use of existing routes for forest product removal, and VRM III.
 - 28,941 acres (77%) would be managed to protect wilderness characteristics as a priority over other multiple uses. Travel would be closed except as authorized, closed to leasable and saleable minerals, no new ROWs, closed to forest product removal, and VRM II.

Hi Ryan, I hope you are well. WFO 10 has the NDA for the Southwestern States PMRP/FIS in DTS. There are remaining issues that were to be worked out by Eastern States, WFO20, and WFO22 but those discussions have not occurred yet. Should we set something up to discuss or is that something TIA will handle

Thanks,

to Shiva, Heather, Ryan, Nikki, Carol [REDACTED]
Thanks for the update!
Is Nikki included in the meeting with Eastern States? Since [REDACTED] is a riparian Lands unit, Nikki should be included in discussions re: the ACSC overlap.

Thanks,

Britta Nelson

WD comments were addressed and Pro-life FOI was done. So, AD briefing took place. There were some issues regarding over-lapping designations between exemption and AGC. Additionally making sure that the purpose and need statement captures the spirit and content is also essential. I think Eastern States is working internally irrespective of where the Federal Register package is, SO and we will ensure that the issues raised at the AD briefings are addressed. We will need help and support from AGC as well. We will keep you in the loop regarding any further developments.

I will keep you up to date.

Hi Shiva, I was hoping you could provide some information on the Southeastern States PMAP/FEIS. W0430 has the NOA for the Southeastern States PMAP/FEIS in OIS. There are remaining issues that were to be worked out by Eastern States, W0230, and W0430 but I am not sure if those discussions have not occurred yet.

tin.gao, Robert Wick , Nikki Moore

Hi Maria and Rob, attached is a package for the Notice of Proposed Comment Period for Carcans of the Ancients National Monument (proposed NMA). Please provide feedback using the "suggestions" made in google drive or let me know you don't have feedback by Oct 20.

The proposed supplementary rules would result in changes to some existing activities related to collecting geological and biological materials, commercial filming and photography, recreational shooting activities, geocaching, climbing, camping in archaeological sites, and travel management.

Thanks,

Hi Bill! The short answer to your followup question is "no". We are currently drafting alternatives for our RMP revision, in which we will make these decisions on LWFCs. But decisions on LWFCs have not been made for this area at this point because our RMP is old (1985) for the area of the Ambler Road proposal.

Tim La Maer
Central Yukon Field Office Manager
Fairbanks BLM District Office
222 University Avenue

re up, your updates to the NCR briefing paper state that a wilderness characteristics inventory has been completed for the project area. Have wilderness characteristics decisions been made in this area through the RMPP? Thanks. Anita

With reference to the Ambler Mining District Industrial Access Project for surname and has some follow up questions. I am reaching out to you because your name is listed as the point of contact for the project in the DITS system.

The Amblar N(0) (P) (attached) indicates that wilderness characteristics are a key issue. Can more information be provided about this including if the wilderness characteristics inventory is current, if the current RMP addresses lands with wilderness characteristics, and if the project is consistent with the plan?

on lands with such as wild and scenic rivers or N/As in the project area?

Please let me know if we need to discuss.

Hi Doug,

Tim's in DC this week and is looking at this. We also got input of the exchange recently. We should be able to coordinate tomorrow I expect.

Written or Tim, anything else I missed?

Sally

Hi Mike and Sally!

I hope this finds you both doing well. I just realized that I had to change the subject line I thought I'd check out and ask if you had any questions about it or if there's anything building it up. It's an exchange between BLM and the Agave Culture Board of Colorado Indians right here in Pikes Springs.

For also of the Agave, our SRS&M monument manager, and basic, our project manager.

Thanks!

Doug

Douglas L. Holmes, D.D.

On 10/10/2018, your review of DFO 13-27, NCA of the Cedar City UMOP/UNO, is requested. Please provide feedback by April 21 in the documents shared with you in google drive using the "suggestions" mode. For reference, the W001224P for Cedar has also been shared with you.

I reviewed the NCA package and added a comment to the NCA BP (item # 11), asking the BP to identify the units of the National Conservation Lands located in the planning area and to specify that lands with wilderness characteristics are in the planning area. Also, the NCA specifically addresses lands with wilderness characteristics.

Thanks,

Thanks to the editor!
I have included in the meeting with Eastern States? Since the OMA & National Conservation Lands unit, NINA should be included in discussion re: the ACEE overlap.

Thanks,

Hello Britta,

We've currently were addressed and the brief was done. As far as, NE, AC briefing took place. There were some issues regarding overlapping designations between incinerator and ACEC. Additionally making sure that the purpose and need statement captures the right and correct is also essential. I think Eastern States is working internally on inspection of where the Federal Register package is, so we will see what the outcome is about the AC briefing are addressed. We will help and support from BLM is well be keep you in the loop regarding any further developments.

I will be happy you updated.

All the best,

Shira

Hi Ryan, I hope you are well. WFOHSD has the NEPA for the Southeastern States PRMP/FIS in DTS. There are remaining issues that were to be worked out by Eastern States, WFOHSD, and WFOHSD but those decisions have not occurred yet. Should we not something up to discuss or is that something EIS will consider.

Thanks,

Hi Ryan, I hope you are well. WFOHSD has the NEPA for the Southeastern States PRMP/FIS in DTS. There are remaining issues that were to be worked out by Eastern States, WFOHSD, and WFOHSD but those decisions have not occurred yet. Should we not something up to discuss or is that something EIS will consider.

Thanks,

National Conservation Lands, a WO admin review of the GSNM DRMP A/DES is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 11. After receiving the review files from WO210 I will share them along with a WO430 comment form on google drive. WO430 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSNM DRMP A/DES to help guide WO430's review?

General

Are all National Conservation Lands (NCLs) and other related areas within the planning area identified and the management addressed in the RMP? Alternatively, if not, is there a stand alone plan for that area?

Any NCLs designated identified future land uses that impact National Conservation Lands, and other related special designations?

Are all NCLs and other related areas identified in the RMP? Are all NCLs and other related areas within the management of National Conservation Lands and other related special designations?

Has the State Director been satisfied of RMP Alternatives and decisions regarding National Conservation Lands, both with wilderness characteristics, eligible and suitable designations? Will the State Director Review, report, and track under study or recommended as suitable for designation?

National Wilderness Monuments, National Antiquities, and Similar Designations

Is this a combined RMP? Is there a unique set of decisions specific to this area?

Does the RMP identify the resources, objects, and values (OECV) for the NWS/ANL designated, and how the RMP will be managed?

Are all valid planning decisions, the RMP consistent with the purposes and objectives of the Congress that established the NWS/ANL?

Are NCLs, corridors, or ROWs, if any, identified in section or otherwise?

Lands with wilderness characteristics

Does the EO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is rationale included for decisions to (a) emphasize other multiple uses; (b) emphasize other multiple uses while applying management restrictions to reduce impacts to wilderness characteristics; and/or (c) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fall with in each of the categories identified in BLM Manual §320, which include: (a) protection of lands with wilderness characteristics as a priority over other uses; (b) emphasizing other uses to reduce impacts to wilderness characteristics; will occur and wilderness planning will be maintained?

Eligible and Suitable Work

Did the FO complete WSR eligibility inventories consistent with current policy requirements (MS 640C)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from MS640D?

Are suitable/unsuitable decisions made for all WSR-eligible streams in the planning area?

Is the WSR Study Report included as an Appendix and is it consistent with current policy?

For segments determined not suitable, do other resource allocations protect the river values; and/or is rationale provided for not protecting the river values especially if implementation of the BMP will degrade or eliminate those river values?

National Scenic and Historic Trails

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Other R&D Issues

Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives? Summarize how the unique issues or background affect the alternatives.

Please let me know if you would like to discuss. Thanks, Britta

After receiving the review file from WO1230 I will share them along with a WO1230 comment form on google drive. WO130 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DRMP A-DEIS to help guide WO1230's review?

General

Are all National Conservation Lands and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that link or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been consulted on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (per designations) WMA and Scenic River segments, and trails under study or recommended as suitable for designations?

National Monuments/National Conservation Areas and Similar Designations
 If this is a combined RMP, is there a unique set of decisions specific to the NM/NCA?
 Does the RMP identify the resources, objects, and values (ROV) for which the NM/NCA was designated, and how these ROV will be managed?
 Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM/NCA?
 Are new utility corridors or ROV in the NM/NCA identified as exclusion or avoidance areas?

Lands with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

An decision made for all lands with wilderness characteristics within the planning area?

Is state used to identify (a) eligible areas for multiple-use, while applying management restrictions to reduce impacts to wilderness characteristics; and/or (b) protect wilderness characteristics over other multiple uses?

Is a table identified that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fall with each of the categories identified in BLM Manual §20, which include: (1) protection of lands with wilderness characteristics as a priority over other uses; (2) emphasizing other uses;

Are impacts to wilderness characteristics will occur and wilderness will be maintained?

Did the FO complete WSA eligibility inventories consistent with current policy requirements (361.6400)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M4403?

Are suitable/nonsuitable decisions made for all WSA-eligible streams in the planning area?

Is the WSA study report included as an Appendix and is it consistent with current policy?

For segments determined not suitable, do other resource evaluations protect the river values, and/or is reforestation provided for not protecting the river values specifically if implementation of the TRAP will degrade or eliminate those river values?

National Scenic and Historic Trails
Is the national trail management corridor allocation included in the alternatives?
Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Other RMP Issues
Does the RMP include any unique issues (e.g., associated settlement agreements) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?

Please let me know if you would like to discuss. Thanks, Britta

WFO Review Kick-off Briefing: GSENM Grazing DRMP Amendment

The WFO admin review period for the Grand Staircase-Escalante National Monument (GSENM) Grazing Draft RMP Amendment (DRMPA) will run from January 30 – February 28, 2017. To help inform your WFO admin review, please attend this briefing for an overview of the GSENM Grazing DRMPA. I will send the DRMPA and presenters to you by January 27, 2017.

Please let me know if you have any questions.

Malcolm, Shana, Anne, Sally, Peter, Robert, Deborah
 Malby, Shana, and Anne - I thought I'd check into the Metrics/Shape RMP as to see if there are any updates, since we last communicated about the NCI back in September 2016. We have in our records that the RMP-A proposes to amend four decision topics including bonds with wilderness characteristics and water.

Thanks!

Comments: W0125 Nelson:

National Conservation Lands, a WO admin review of the GSENM DRMP a/DES is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 11. After receiving the review files from W0120 I will share them along with a W0430 comment form on google drive. W010 commented previously Allison and Rob, cat you provide answers to each of the following questions from your review of the GSENM DRMP a/DES to help guide W0432's review?

General

Are migration standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Has the State Director been briefed on BLM alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study?

National Monuments/National Conservation Areas and Similar Designations

Does the RMP identify the resources, objects, and values (ROVs) for which the NM/NCA was designated, and how those ROVs will be managed?

Are raw utility corridors or ROWs in the NIM/NCA identified as exclusion or avoidance areas?

Land with wilderness characteristics

Is this report included in an inventory?

is rationale included for decisions to (1) emphasize other multiple uses; (2) emphasize other

reduce impacts to wilderness characteristics⁶ will occur and wilderness character will be maintained.

Eligible and Suitable Work

Did the FO complete cultability evaluations and determinations for all eligible streams within a reasonable period of time, as required for all WQIA eligible streams in the riparian zone?

Is the WSR Study Report included as an Appendix and is it consistent with current policy?
For economies determined not suitable, do other economic allocations remain the same?

Is the national trail management corridor allocation included in the alternatives?

© 2000 Blackwell Science Ltd

Does the RMP include any unique issues (e.g., associated settlement agreements) or background information that the unique issues or background affect the objectives?

Please let me know if you would like to discuss. Thanks, Britta

Subject: NWA-E, Comment-MMPA Comment on Grazing
To: Eric Johnson [mailto:erimoo@blm.gov]; NWA-E [mailto:nwa-e@blm.gov]
Cc: Leah Quenberry [mailto:lquenberry@blm.gov]

Hi, Andy and Eric,
I rearranged our [redacted] question on the EIS comments document. I don't know if this helps anyone understand our response, but I just felt the need to do it after the briefing today. I haven't sent it to Andrew or NWA.

[redacted] understood how over 50% of the soil can be damaged by wildfire and at a level to reduce the breeding habitat for sage grouse by 30%, but grazing is only being reduced in the preferred alternative by a few hundred AUMs. We would like to see stronger rationale on how this is possible?

Response: This EIS does not take into account "the existing wildlife resource threat" and "current rates of restoration efforts." These were goals in the original 2007 Plan and the National Fire Health Plan, and these are still in effect. But they are outside the scope of this currently focused plan amendment. Restoration efforts are usually more AUMs, reduction in livestock grazing is required to free [redacted] AUMs. Grazing management after a fire is a site-specific decision, and is not appropriate for a broad-scale LUP decision. This work is done under the guidelines of Emergency Rehabilitation and Restoration Plans and is outside the grazing strategy presented after the rehabilitation work and is not allowed on a broad area until desirable grasses and/or forbs have been re-established, typically less or more grazing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once livestock is out, while many of the plant communities of this document do lack signposts, livestock grazing is not the causal factor for this. Removing livestock would not have the effect of restoring signposts. Please see the discussion on Vegetation Condition in Chapter 3 of the EIS.

While many of the plant communities of this document do lack signposts, livestock grazing is not the causal factor for this. Removing livestock would not have the effect of restoring signposts. Please see the discussion on Vegetation Condition in Chapter 3 of the EIS.

Restoring effects to [redacted] habitat funding. There is never any guarantee of funding, but there is an understanding there will be significant effort to implement any plan the BLM selects and publishes.

Ch. 3 Special Status Species, § 115-116

Midland Fox is nested in a lack of sheep cover, and is largely responsible for sites not meeting the seasonal requirements for age-structure in many areas of the Monaroney. Specifically the areas identified as a suitable (% of unsuitable) for breeding habitat in the Monaroney, 79.8% of the sites were found to be unsuitable solely because sheep cover was lacking, and a lack of sheep cover was a contributing factor within the Monaroney identified as unsuitable for breeding habitat, 2.6% of the sites were found to be unsuitable due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 27% of unsuitable sites, including the dismountment 24%. Seasonal grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, has significantly impacted sheep cover (Streck et al., 2008). Long-term effects from this overgrazing, including change in plant composition and soil, persist today (Streck et al., 2008). Degradation controls establishment and spread of noxious and invasive plants (Jure & Smith, 2004).

livestock grazing "future anticipated trends" in Ch. 4, p. 288-289. Future changes to livestock grazing in the Monument are likely, as both the BLM's and operators' management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, i.e. temperatures and wet springs, or changes that may need to occur due to monitoring and data collection.

Within the Monument, vegetation communities are influenced by livestock grazing management, wildfire, rehabilitation efforts, fuel break projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to affect changes in the vegetation communities, and thus the forage base for livestock grazing.

Below is an excerpt from Chapter 2 of Attachment 1 of the Idaho and Southwestern Montana
 ARMA for reference purposes. The language in this document is common to all Estates of the Moon National Monument and the Amendment alterations.

To: Eric [mailto:eric@lin-gov], Niki [mailto:niki@lin-gov]
Cc: Josh [mailto:josh@lin-gov]

1. We have revised the response to NAB's question on the ECU comments document. I don't know if this helps anyone understand our response, but I just felt the need to do so after the briefing today. I haven't sent it to Andrew or NAB.

2. We would be better satisfied how over 50% of the unit is covered by damage and if a unit that covers the breeding habitat for songbirds by 30%, but grazing is being reduced in the preferred habitat by a herbivore NAB. We would be more concerned on how the unit is being better handled?

Response: This does not seem like a question of "increasing wildlife habitat" and "success rates of restoration efforts." Those were among the original 2007 Plan and the Natural Fire Incident Plan, and these are still our efforts. But they are outside the scope of this currently focused plan discussion. Restoration efforts are usually successful.

Also, reduction in herbivore grazing is not a goal and is not a plan. Grazing management efforts are a specific management, and the 2007 Plan and the Natural Fire Incident Plan. This is not a goal under the guidance of NAB's comments and NAB's efforts to include the

to Timothy
I dug through the amendment and

Recent fires from 2014 burned approximately 66,800 acres of the Monument, including areas identified as providing suitable components of seasonal sage-grouse habitat. Adjustments to habitat delineations as a consequence of these fires has not been completed.

Additional factors that may be involved in the lack of eggshells, and a likely impairment of the habitat used for the nesting success requirements for egg-cases in many areas of the Monument. Specifically, the areas identified as a suitable (2% of unsuitable) for breeding habitat in the Monument, 73.3% of the sites were found to be unsuitable solely because eggshells were being lacking, and a lack of eggshells was a contributing factor on an within the Monument identified as unsuitable for breeding habitat, 2.6% of the sites were likely due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 27% of unsuitable sites, including the aforementioned 24%. Grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, has significantly impacted sagebrush ecosystems (Jenks et al., 2002). Long-term effects from this overgrazing, including changes in plant community and soils, persist today (Jenks et al., 2002). Degradation continues and spread of invasive and non-native plants (Jenks and Smith, 2004).

Within the Monument, vegetation communities are influenced by livestock grazing management, wildlife, rehabilitation efforts, fuel-burn projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to effect changes in the vegetation communities, and thus the forage base for livestock grazing.

Below is an excerpt from Chapter 2 of Attachment 1 of the Idaho and Southwestern Montana ABMR for reference purposes. The guidance in this document is common to all Craters of the Moon National Monument Final Plan Amendment alternatives.

Comment: Britta Nelson

Nelson, Britta (brikenw@blm.gov)
Apr 22 (1 day ago)

To: Timothy

Using Timothy for pseudonym and don't see a direct relationship between fire and AUMs (per Sally's question), but there was a few places where an association is described.

On 3 Special Review Species: R 1.15-1.16

Recent fires from 2014 burned approximately 60,000 acres of the monument, including areas

identified as potential suitable components of riparian sage-grouse habitat. Adjustments to habitat determinations as a consequence of these fires has not been completed. Adjustments to habitat determinations were not completed because BLM lacks the site-specific data assessments to substantiate changes in herbaceous communities.

Wildfire fire resulted in a lack of riparian cover, and is largely responsible for habitat not meeting the essential requirements for sage-grouse in many areas of the monument. Specifically, the areas identified as a suitability (5% of unsuitable) for breeding habitat in the Monument, 73.5% of the sites were found to be unsuitable only because riparian cover was lacking, and a lack of riparian cover is a confounding factor on 57% of unsuitable sites, including the aforementioned 50%. Riparian grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, has significantly impacted riparian ecosystems (Jenks et al., 2002). Long-term effects from this overgrazing, including changes in plant composition and soil, persist today (Jenks et al., 2004). Degradation limits establishment and spread of riparian and riparian plants (Jenks & Smith, 2002).

Unintended grazing "Toxic Antelope-Grazing model"

In O.S. p. 288-289: Current changes to livestock grazing in the Monument are likely, as both the BLM's and operators' management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, temperatures and wet/dry, or changes that may result in lower forage availability and forage collection.

Within the Monument, vegetation communities are influenced by livestock grazing management, wildfire, rehabilitation efforts, fuel break projects, and climate. All activities that affect vegetation communities indirectly affect livestock grazing. These influences all interact to affect changes in the vegetation communities, and thus the long-term for livestock grazing.

Appendix C: Idaho and Southwestern Montana Greater Sage-Grouse Regional Resource Management Plan Amendment Attachment 3 – Chapter 2, and Regional Design Features p. 353

Reference to recent forest Chapter 2 of Attachment 3 of the Idaho and Southwestern Montana

AMMP for reference purposes. The guidance in this document is common to all Centers of the Mount National Monument Final Plan Amendment alternatives.

For:

vegetation and successful establishment of riparian species within burned/US areas. All new seedlings of grass and herbaceous forage and soil at the end of the second growing season, and longer as needed to allow plants to mature and develop robust root systems which will stabilize the site, compete effectively against shrubs and other invasive species, and remain sustainable under long-term grazing management. Adjust other management activities, as appropriate, to meet OSR objectives.

and 100-15-1 (b)(1), in riparian sites, livestock management on adjacent watershed areas to mitigate the effect of the burn on local USR populations.

and 100-15-1 (b)(1) following existing conditions, modify grazing management practices if needed to achieve long-term vegetation and habitat objectives.

and 100-15-1 (b)(1) following existing conditions, modify grazing management practices if needed to achieve long-term vegetation and habitat objectives.

Existing active AUMs for livestock grazing within the planning area will not be changed.

In the final rule, through the number of AUMs available on an allotment may be adjusted based on the specific conditions to meet management objectives during temporary events, AUM development, or other vegetation management planning. Additionally, temporary adjustments can be made annually to livestock numbers, the number of AUMs, and amount of use in accordance with applicable regulations.

Hi Folks, just a quick check to see if you have feedback on the responses from Idaho to WFO comments on the Challis, Salmon, and Upper Snake BHP gray plan.

1. I didn't see in the updated p

After reviewing the responses and looking at the updated prep plan, questions I had are:

1. I didn't use in the updated prep plan the potential connection with USFS as WSR studies had been incorporated. Does this need to be specifically included in the prep plan?
2. The total budget for Data and GIS Needs (App B) shows \$100K to complete WSR inventories. Is this a reasonable amount to cover costs?
3. The total budget for Data and GIS Needs (App B) shows \$64K to complete lands with wilderness characteristics inventories. Is this a reasonable amount to cover costs?
4. National Trails are identified as a special designation in the planning area but the Data and GIS Needs (App B) does not include funding needs for National Trail inventories. Should National Trails be added to the Data and GIS needs table?
- Please provide feedback by May 18. Thanks.

Please provide feedback by May 18. Thanks.

On Fri, Sep 20, 2014 at 11:09 AM, Nelson, Brett **bbrnelson@lin.gov.ar**:
Hi Molly, Maile, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/IS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOE10 as the draft is being prepared.

19 The project shows the following project issues:

20 The project would include eligible and suitable WSH streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the Wild and Scenic Rivers Act requires looking at "extremes" projects that are upstream, downstream or on a tributary of a designated river. Based

21 The project would cross two National Historical Trails the Camino Real de Tierra Adentro & Old Spanish NHTV. The project needs to be considered per 80CM 06280.

j) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tax Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible SIS for this project.

Additional project information follows:

Subject: Here are the Translational Project draft final RCD, R02W and R02A package for review in 2 emails

hello everyone this is the first of 3 emails providing the draft/final package described above. We are pleased to provide the revised final draft ROD for the TransWest Transmission Project and the NOA package for review. The body of the ROD is attached, along with the Mitigation and Monitoring Appendix, which is a grant, Appendix F: Mitigation and Monitoring with the exceptions explained above, Appendix D: Responses to governor's consistency and FEIS comments, Appendix G: Alternatives Eliminated from further analysis and Appendix I: NPS requirements for access to Dewbridge Road. Appendix B is the Plan of Development with

Our Wyoming External Affairs Office will be working directly with other states and the WQ to finalize the NGA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WD provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix,

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final RO and the PA

Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent emails will contain a courtesy copy of the TWS Plan of Development in 2 parts due to size limitation.

Regards,
Sharon

I was provided the e-mail below from Malle Adler here at the BLM NM State Office. I wanted to let you know that I have been assigned as the Project Manager for the Verde Transmission Project. I'm also stationed here at the BLM NM State Office as well. Please ensure that you include me in all future e-mails regarding the preparation of the Draft EIS.

Thank you

²Sanity is not freedom from the storm, but peace with

Revised final draft RCD for the TransWest Transmission Project and the NDA package sent for review by Shariin Knowlton on 05-13-16. Comments requested by CDB, 5-24-16. National Trails comments on RCD provided on 05-24-16, 05-26-17. Followed up on the Mitigation and Monitoring appendix which is missing details regarding it. It will most likely contain several options including the purchase of land in nearby designated wilderness. The WFO has drafted a plan and it is now waiting our Director's approval. Once ready, it can be shared internally with the larger BLM group.

Comments: [REDACTED]
[REDACTED] is an draft EIS/IGL, ROW, and NDA package 05-26-04.
[REDACTED] language. The issue was resolved and H04133 agreed to the mitigation language which was not ideal (just may mitigate and not would mitigate). The compensatory mitigation package language, as modified by W03308, was incorporated into an addendum to the FEIS on 05-01-05.

Common [REDACTED] forkan, bittis dikketkonfblm.gov-arabi:

Mr. Mullen, Mr. [REDACTED], and I hope you are well and looking forward to your return back to you on the Verde Transmission project RFP amendment. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WCRH as the draft is being prepared.

[REDACTED]

WCRH hopes to include additional comments of the Rio Grande. The proposed route crosses the Rio Grande near Section 7 of the Wild and Scenic Rivers Act remains unclear at "increased" projects that are upstream, downstream or on a tributary of a designated river. Please

§ 87(2)(b) [REDACTED]

Bella,

Multi time. Can [REDACTED] as well?

Will work with our local management team here in New Mexico and our NECA Coordinator and ask back to you on that as well.

Subject: BJH ROD - Comments

Tamara, Steve, and Georgiane - thank you for sending us the transcript for a quick review. We did notice that the RCO language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands NHT section on

What the permit will include all identified NHP-related avoidance, minimization, and compensatory mitigation measures, which may include applicable proposed mitigation measures (e.g. design features), including the associated monitoring, adaptive management, and reporting requirement

Thank you

to me, Maile, Debo [redacted], Carl, Robert
Quinn,

At this time, I'm not sure what our plans are relative to a WD review of the draft DS. I'll consult with our local management team here in New Mexico and our NEPA Coordinator and get back to you on that question.

To: Tanya, Stephen, Lily, Deborah, Christopher, Georgios, me

Tanya, Tom, and Georgios - thank you for sending us the R20 R2D for a quick review. We note that the R20 language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands R20 text version:

To meet the policy of the National Conservation Lands System (NCLS), to permit a project which will not substantially interfere with the nature and purposes of the National System (NCLS), to be authorized the nature and purposes of the National System and National Trust (NSMT) (see 43 CFR 1.61, 43 CFR 1.62, 43 CFR 1.63, 43 CFR 1.64, 43 CFR 1.65, 43 CFR 1.66, 43 CFR 1.67, 43 CFR 1.68, 43 CFR 1.69, 43 CFR 1.70, 43 CFR 1.71, 43 CFR 1.72, 43 CFR 1.73, 43 CFR 1.74, 43 CFR 1.75, 43 CFR 1.76, 43 CFR 1.77, 43 CFR 1.78, 43 CFR 1.79, 43 CFR 1.80, 43 CFR 1.81, 43 CFR 1.82, 43 CFR 1.83, 43 CFR 1.84, Oops, sent before I

Hi Terry, Mike, and Peter - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project BWP amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WSD as the draft is being prep.

Our records show the following project issues:

1) The project area includes eligible and suitable WMA resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WMA and Section 10 of the Act requires looking at "incremental" projects that are upstream, downstream or on a tributary of a designated river. Based

2) The project would cross two National Historical Trails (the Camino Real on Terra Antiqua & Old Spanish NHTs). The project needs to be considered per BLM NAC200.

3) There are no per existing inventories. Inventories may have been conducted as part of the BLM's Tule Creek EIS/BWP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible EIS for this project.

Hi Mark, Maria, and Tony. I hope you are all well and have had a great week. I wanted to check in with you on the New Transmission project RMP amendment/OS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WSO as the draft is being prep.

Our records show the following project items:

- 1) The project area includes eligible and suitable WSO lands within the boundaries of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WSA and basic Rivers Act requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based on the project would cross two National Historical Trails (the Camino Real in Tierra Adentro & Old Spanish NHT). The project needs to be considered per BLM NAC200.
- 2) There are no lands with wilderness characteristics per existing inventories. Inventory may have been conducted as part of the BLM's Two-Step OPLA/RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible OS for this project.

Follow up to 2013.216.0139 - Rio Grande Corridor Region 1 Recommendation Report

2013.216.0139

2013.216.0139

To: Kelly, Peter, Timothy, Robert, Celia, Deborah

National Conservation Lands Program, another design update on the Section 308 Energy Corridor Region 1 Recommendation Report follows. First, the 308 Corridor Team has indicated we can expect to see the draft report for review in March 2013.

Next, in response to a BLM question about GIS layers, the 308 Corridor Lands units have been mapped on the on the 308 map found at: <http://dhs.gov/arcgis/section308/arcSW/>, or we can request the GIS layers. If you would like the layers, please let me know and we'll follow up.

Call: 202-703-1234

Comment: Krista Nelson,

I updated W001's review of the Section 108 Energy Corridor Region's Draft Review Report. I addressed questions raised by the National Tools, which were addressed in the draft review report (medium potential for conflict). Clarification was provided that the draft review report uses BLM pre-application screening criteria from W0 2013-04-04. The screening criteria is used to assess the potential for conflict. The draft review report does not address the National Tools. The National Tools and W001's review of the Section 108 Energy Corridor Region's Draft Review Report are separate documents. The National Tools are not specifically related to the National Tools, which are not specifically related to the National Tools.

is this a pre-existing or a new source for CASH?

THIS WOULD BE A NEW SOURCE FOR THE PROPOSED 66" PIPELINE IN AZ

AND HYDRO-POWER.

is this a legislated or discretionary authorization?

THIS IS A DISCRETIONARY AUTHORIZATION, TO RE-
S ROW APPLICATION VIA AN EIS. FERC IS THE LEAD
COORDINATING AGENCY BUT WITH A ROD TO DO.

Please contact me further as needed...

801-660-7125

Hi Joe, I work in the National Conservation Lands division. [REDACTED] renewable energy and transmission project calls for the division. The dashboard (attached) identifies the Lake Power Water Project which would include a proposed Hydro-power station and plan amendment for GSENM. I am reaching out to

Is this a pre-existing or a new license for FERC?
Is this a legislated or discretionary authorization?

Thank you for your help.

Hi Britta,

In mid-December we briefed the Director's brief on the 9/27 response and we are making a few adjustments to the memo response. We are also close to completing the BLM and user estimate.

The briefing has been scheduled for December 15th. We are high on the priority list.

Thanks again for keeping this on your radar.

We are still in our response. I appreciate you keeping it on your radar.

We have been working on the Caribou Drafting and will include the end user greenhouse gas emissions (GHG) estimates into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast all-gas production in our field office. We are close to having the production estimate sent to us.

Thanks,

Chad

The holiday hour has been taken into account. Submitting this response to your office promptly remains high on the priority list.

Thanks again for your patience.

Chad

Hi Chad and Molly, I hope January is off to a great start for you both. I hope to hear from you if there is an update on the Caribbead information you have been working on.

On Fri, Nov 18, 2016 at 12:19 PM, Young, Richard <ryoung@blm.gov> wrote:

Hi Britta,

No bother at all on adding about the status of our response to your table.

We have decided to go ahead and include the end user greenhouse gas emission (GHG) estimate into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast all-gas production in our field office. We are close to having the production estimate sent to us.

With the upcoming holiday break by a few weeks before we are able to have this done.

If you have any other questions, please let me know to assist them.

Thank you

Hi Britta,

We are getting close to having our response ready to send back to the BLM. We are meeting today to further discuss the greenhouse gas end user estimate. We are anticipating having responses ready to send back to your office by December 1.

Thanks for keeping me posted.

Chad

Q34

Follow up from Director's Mtg. met with MM502, MM0210, RM0210 on Oct 4 to discuss bonds with wilderness characteristics issues. Thanks again for meeting to discuss the Caribbaa briefing. As follow up, Chad will work with Sally and Melanie on updating the briefing information related to bonds with wilderness characteristics information related to WSA suitability will also be included either verbally or in the powerpoint presentation. New Mexico to provide information in January for RM0210 review. Checked with MM on 01-20-17 re: status.

I just spoke with Dan Bruckhorst, lead for the Lewistown Draft WRP. He indicated the contractor is in the process of inserting all the recommended changes for the WISs. He hopes to send the final draft version back to us for another review in approximately 2 to 3 weeks.

Let me know if you have questions.

Here's an email about the status of the WGA known that WGA had received in the transaction (DRAFT). Field Office staff have directed the contractor to make the changes that WGA had (and Lane Tompkins of the MTCO) had recommended.

Let me know if you need anything else.

Peter

Hi Ryan, I hope you are well. WOD 10 has the following suggestions for the Cedar City DMBP/DEIS briefing presentation.

[illegible]

If you have any other questions I would be glad to answer them.

Thank,

166 BULLA,

We are still working on some of these questions. Some of this requires fact analysis. Annual leave and attending meetings with cooperating agencies has slowed us down but we are getting close to having a response to several of the questions raised during the 9/27 briefing sent to your office. We are hoping to have a response to the remaining questions by the end of the month.

Thanks for your patience and I look forward to hearing your officer's thoughts once we provide these responses.

Wesley Britta Nelson

Follow-up from (b)(7)(C) and (b)(7)(D) with NMSS, WGSN, and (b)(7)(C) with wilderness characteristics issues. Thanks again for meeting to discuss the Carlsbad briefing. As follow-up, Chad will work with Sally and Melanie on updating the briefing information related to lands with wilderness characteristics. This information will also be included either verbally or in the powerpoint presentation. New Mexico to provide information in January for BLM10 review. Cleared with NM on 01-05-17 re: status.

Comment: Britta Nelson:

NMP/DIG has been cleared with you and shows no remaining issues. I will be on leave so won't be attending the pre-brief. Please let me know if there are follow up items from the pre-brief. Thanks

Hi Betty, I hope you are well. I added up the following suggestions for the Cedar City DMAP (DMS) briefing presentation.

Slide 9: I don't think what "The AGES" means. Does this mean they were not evaluated or not designated?

Slide 7: I don't see what "The AGES" means. Does this mean they were not evaluated or not designated?

Slide 8: The slide says "The AGES" means. Does this mean they were not evaluated or not designated?

Slide 9: I don't think what "The AGES" means. Does this mean they were not evaluated or not designated?

Slide 10: I don't think what "The AGES" means. Does this mean they were not evaluated or not designated?

Please let me know if we need to discuss. Thanks.

Nelson

Here's an email about the status of the WSA issues that WDC-402 had raised in the (unpublished) DMAP. Field Office staff have directed the contractor to make the changes that WDC-402 had (and I believe Tompkins of the MTG) had recommended.

Let me know if you need anything else.

To: Tim, me, Sally, Molly, Christopher
in BTRC

In mid-December we drafted some Director for Land [REDACTED] and [REDACTED] for the adjustments to the status response. We are also close to completing the GDS and user estimate.

The highlights have started to appear in the GDS but submitting the response to your office promptly remains high on the priority list.

We are still working on the response. The response is ready to send back to your office by December 7. Annual review and attending meetings with cooperating agencies has slowed us down but we are getting close to having a response to several of the questions raised during the EIS/IS briefing sent to your office. We are hoping to have the response ready to send back to your office by December 7.

Comment: Britta Nelson

National Conservation Lands, Utah is holding a public hearing on the proposed rule for the 2017 for WQ Program Reviewers to review the Cedar City DBMP presentation. Per BLM's note that follows, this is the final opportunity to make adjustments to the presentation (not the plan document), make sure key points are added.

The WQDBP for the Cedar City DBMP (DOI-20458P) has been [REDACTED] for the public hearing. I will be on hand so won't be attending the public hearing. Please let me know if there are follow up items from the public hearing. Thanks.

Cedar City DBMP (DOI-20458P) (2016)

Let me know if you have any questions.

Thank you,

Jane Tompkins

To: Mr. Kelly, Mr. Kelly, Mr. Kelly

In mid-December we drafted State Director Amy Landon's letter regarding a few adjustments to the memo response. We are also close to completing the GDS and user estimates.

The holidays have closed at about a 50% but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year

Hi Britta,

No further at all on adding about the status of our response to your radar.

We have decided to go ahead and include the end user government response (GDS) estimate into the BAP and this effort is taking some time due to the complexity involved in generating current and forecast oil/gas production in our field office. We are close to having the production estimate sent to it.

With the upcoming holidays it may take a few weeks before we are able to have this done.

If you have any questions, please let me know.

Thank you,

Chad

Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:
"BLM's 22 million-acre National Conservation Lands System."

With this:
"BLM's 35 million-acre National Conservation Lands."

Thank you,

[REDACTED]

Nikki, Britta:

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no [REDACTED] in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National [REDACTED] System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.
