Could you please provide me with the status of the management plans for these monuments as soon as possible:

Bears Ears, Cascade-Siskiyou, Gold Butte, Grand Staircase-Escalante, Organ Mountains-Desert Peaks, and Rio Grande Del Norte

"Status" need not be in any detail; examples include - completed [date], issued for public comment [date]; still being developed - anticipated date of issuance for comment if known; in scoping stage; just begun; not yet started. If I've overlooked a stage, feel free to use whatever term is applicable; key point is that only the status is needed for this request, not details.

Thank you in advance.
