The group Utah Dine Bikeyah filed video comments on Bears Ears via [regs.gov](#), which a follow-on review found. The link to the video and their comment is attached.

Could you please find someone who speaks Navajo to view these comments and make note of how many people spoke. I presume all are against any changes or their comments wouldn't have been included, but if there are any divergent views or particularly compelling comments those should be noted also.

Thank you in advance for your help on this.

Dear Secretary Zinkie

Please find a link below that will take you to videos of the public comment event held in Monument Valley on Wednesday, May 24th, 2017. Many of the Bears Ears national monument supporters who live in Utah and hold the most significant traditional knowledge for the region do not speak English. These videos are in Navajo and represent just a few of the many Native Americans in Utah who want the monument to be left alone. More than 100 monument supporters attended this event and everyone would like to walk the land with you and explain the importance of Bears ears to you in person. Please do not shrink or eliminate bears ears national monument. Listen to the elders and please let our organization know if DOI needs translation services to include this in the record.
