MEMORANDUM FOR THE WHITE HOUSE STAFF SECRETARY AND CABINET SECRETARY
June 6, 2017

FROM: Scott Hommel, Chief of Staff, U.S. Department of the Interior

SUBJECT: Interior Department Weekly Update for the Week of June 5, 2017

DOI 30-Day Policy Look Ahead

Presidential Initiatives and Awareness

1. **SAGE GROUSE:** On Wednesday, June 6, the Secretary will announce in a Secretarial Order a multi-faceted strategy on sage grouse that includes partnership with the eleven affected western states, a review of 2015 land use plans to identify provisions that require modification or recession, and an analysis of the efficacy of target populations on a state-by-state basis. The Secretary will announce the SO during a call with Western Governors followed by a media and stakeholder call.
Timing: June 7
Contact: Kathy Benedetto, Bureau of Land Management
2. **BEARS EARS NATIONAL MONUMENT:** Executive Order 13792 entitled “Review of Designations under the Antiquities Act” requires an interim report to the President on recommendations on the Bears Ears National Monument (BENM) due on June 10. The Secretary wishes to brief White House senior staff on the path forward on Monday, June 12 on the contents of the report after submission.
Timing: June 10
Contact: Downey Magallanes, Senior Advisor and Counselor
3. **POTUS PARTICIPATION: ENERGY WEEK PROPOSAL:** Energy Week is the last week of June. We submitted a proposal for the President’s participation in an event in Whitefish, MT during the Western Governors’ Association annual meeting to highlight onshore energy production, which plays an integral role in domestic energy production and is a major economic driver for rural communities throughout the West. This event would be a great opportunity to showcase the President’s America-First Energy Policy and the impact it will have on western states and rural communities. If the President cannot attend, we are requesting that the Secretary attend as his representative.
Timing: June 27
Contact: Scott Hommel, Chief of Staff
4. **NEW FIVE-YEAR OFFSHORE ENERGY PROGRAM.** In response to President Trump’s Executive Order on Offshore Energy, Secretary Zinke will announce a request for information for a new five-year offshore program that considers opening new areas of the Outer Continental Shelf for offshore exploration. Since the Administration took office, Bureau of Labor Statistics reporting shows that the number of workers in oil and gas extraction has steadily risen as Administration policies and rebounding of energy prices has driven employment higher. This is

potentially a significant announcement that could highlight the President's vision for American Energy production.

Timing: Target Last Week of June 2017

Contact: Kate MacGregor, Acting Assistant Secretary for Land and Minerals

5. **USGS CRITICAL MINERALS:** USGS will release a new report presenting resource and geologic information for 23 critical mineral commodities important to our national economy and national security, many of which are sourced entirely outside of the United States. This is the first update since the last assessment undertaken in 1973. The report provides an in-depth look at each commodity's use, distribution of deposit types, and status of production, resources, and reserves. The Department will be developing a rollout event likely in July that will potentially be pitched for White House participation.

Timing: July 2017

Contact: Scott Cameron, Acting Assistant Secretary for Water and Science

6. **NAVAJO GENERATING STATION.** The Department is working to facilitate a path forward to maintain operation of the Navajo Generating Station, which provides baseload electricity for much of the Southwest and directly supports more than 800 local jobs. The Department's Bureau of Reclamation is a part owner of the power generated by the plant and thus the Administration have a role in the ultimate decision associated with the plant. Interior has hosted a series of public listening sessions and meetings on this issue. The current focus is extending the expiring lease between the main operator, Salt River Project, and the Navajo Nation which owns the land. After facilitation by Interior, an agreement in principle was reached on a two-year extension of the lease for the operating life of the power plant through 2019. It should be signed in July. Interior is helping to identify a possible future owner to keep the plant generating power indefinitely.

Timing: July 2017

Contact: Jim Cason, Associate Deputy Secretary

7. **CALIFORNIA WATER FIX RECORD OF DECISION.** The Bureau of Reclamation, U.S. Fish and Wildlife Service, and the Department of Commerce's National Marine Fisheries Service are working with the State of California to achieve federal and state environmental compliance on the \$15 billion California Water Fix water infrastructure project. The project would construct tunnels to divert water from the Sacramento River to provide water supplies to California residents, businesses and farmers. The federal and state environmental reviews are expected to be successfully completed about June 9, and the Secretary of the Interior will be asked to sign off on the associated federal Record of Decision about June 23. There is no direct federal cost-share necessary for the project to proceed.

Timing: June 23 2017

Contact: Scott Cameron, Acting Assistant Secretary for Water and Science

ammunition, tackle et al and distributed to states for state conservation and outdoor recreation projects. **The grants will be announced during an event on June 13 at the Bass Pro Shop in Hooksett, New Hampshire.**

9. **HALLMARK CHANNEL FOURTH OF JULY SPECIAL.** The Hallmark Channel in conjunction with the National Park Foundation would like to produce a one-hour TV program that will air in primetime on July 4th to showcase federal lands across the nation - including parks that have an independence and freedom theme. Through the National Park Foundation, the Hallmark Channel is hoping that the President and/or Vice President would consider a pre-taped interview for the show – their participation would ensure the Hallmark Channel proceeds with the program. Timing is sensitive given logistics and Cabinet Communications has been alerted of this request.
