MEMORANDUM FOR THE WHITE HOUSE STAFF SECRETARY AND CABINET SECRETARY  
May 29, 2017

FROM: Scott Hommel, Chief of Staff, U.S. Department of the Interior

SUBJECT: Interior Department Weekly Update for the Week of May 22, 2017

**DOI 30-Day Policy Look Ahead**

**Presidential Initiatives and Awareness**

*Antiquities Act*

1. **BEARS EARS NATIONAL MONUMENT:** Executive Order 13792 entitled “Review of Designations under the Antiquities Act” requires an interim report to the President on the Bears Ears National Monument (BENM) within 45 days, which we estimate to be June 10. The report may include recommendations for Presidential actions, legislative proposals, or other actions related to the monument. Note this is only a report, and there will be a separate Presidential action.

**Timing:** June 10

**Contact:** Downey Magallanes, Senior Advisor and Counselor

*Energy*

1. **NEW FIVE-YEAR OFFSHORE ENERGY PROGRAM.** In response to President Trump’s Executive Order on Offshore Energy, Secretary Zinke will announce a request for information for a new five-year offshore program that considers opening new areas of the Outer Continental Shelf for offshore exploration. Since the Administration took office, Bureau of Labor Statistics reporting shows that the number of workers in oil and gas extraction has steadily risen as Administration policies and rebounding of energy prices has driven employment higher. **This is potentially a significant announcement that could highlight the President’s vision for American Energy production.**

**Timing:** June 2017

**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals

2. **NATIONAL PETROLEUM RESERVE-ALASKA (NPR-A):** In response to President Trump’s Energy Executive Order. The NPR-A is the largest block of federally managed land in the US, and contains approximately 895 million barrels of oil and 52.8 trillion cubic feet of natural gas. The 2013 BLM management plan for the NPR-A made approximately 11 million of the NPR-A’s 22.8 million acres unavailable for leasing, potentially precluding development of up to 350 million barrels of oil and 45 trillion cubic feet of natural gas. While in Alaska, the Secretary will sign a Secretarial Order requesting the Assistant Secretary for Land and Minerals to submit a plan to reconsider the 2013 management plan.

**Timing:** May 31, 2017

**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals

3. **NAVAJO GENERATING STATION.** The Department met in Phoenix, AZ with tribal nations, owners and stakeholders of the Navajo Generating Station on May 16 to discuss a path forward to maintain operations of the large coal power plant and associated mine, which directly support more than 800 local jobs. Interior also hosted a series of public listening sessions in Arizona that week to allow citizens to express their views on the future of the plant. The May 16 meeting focused on progress to-date on the action items identified at the March 1, 2017, and April 12, 2017. An agreement in principle was reached on a two year extension for the operating life of the power plant through 2019, which will allow time to identify a possible future owner to keep the plant generating power indefinitely. The agreement is scheduled to go to the tribal Council of the Navajo Nation on May 24 for consideration and approval by the end of June. The non-Indian owners of the facility also will seek the approval of their respective governing boards during June.

**Timing:** June 2017

**Contact:** Jim Cason, Associate Deputy Secretary

#### *Infrastructure*

1. **CALIFORNIA WATER FIX RECORD OF DECISION.** The Bureau of Reclamation, U.S. Fish and Wildlife Service, and the Department of Commerce's National Marine Fisheries Service are working with the State of California to achieve federal and state environmental compliance on the \$15 billion California Water Fix water infrastructure project. The project would construct tunnels to divert water from the Sacramento River to provide water supplies to California residents, businesses and farmers. The federal and state environmental reviews are expected to be successfully completed about June 9, and the Secretary of the Interior will be asked to sign off on the associated federal Record of Decision about June 23. There is no direct federal cost-share necessary for the project to proceed. **This is potentially a Major Infrastructure Announcement.**

**Timing:** June 23 2017

**Contact:** Scott Cameron, Principal Deputy Assistant Secretary, Policy Management and Budget

#### *Other Significant Items of Interest*

1. **\$1.1 BILLION IN PITTMAN-ROBERTSON SPORTSMAN GRANTS TO STATES FROM HUNTING AND FISHING FEES.** The Department will announce \$1.1 billion in funding derived from fees paid for hunting and fishing licenses and firearms, bows and ammunition, tackle et al and distributed to states for state conservation and outdoor recreation projects. **The grants will be announced during an event on June 13 at the Bass Pro Shop in Hooksett, New Hampshire.**

**Timing:** June 13 2017

**Contact:** Doug Domenech, Senior Advisor

2. **HALLMARK CHANNEL FOURTH OF JULY SPECIAL.** The Hallmark Channel in conjunction with the National Park Foundation would like to produce a one-hour TV program

that will air in primetime on July 4<sup>th</sup> to showcase federal lands across the nation - including parks that have an independence and freedom theme. Through the National Park Foundation, the Hallmark Channel is hoping that the President and/or Vice President would consider a pre-taped interview for the show – their participation would ensure the Hallmark Channel proceeds with the program. Timing is sensitive given logistics and Cabinet Communications has been alerted of this request.

**Timing:** Decision required ASAP if interested due to logistics.

DOI's technical experts, working with EPA and the Corps, have prepared an analysis of facts relevant to SFWMD's arguments, and we are currently reviewing a draft.
