---

The mill is on the east side of the monument and the mine is on the West side of the monument. I have maps if that would be helpful. KB

Hi Randy,

Please find attached the additional information requested along with 3 map attachments on showing where grazing occurs, along with a big game hunting report (attach 4) from the Utah DNR. Please let me know if you would like us to send this directly to Downey or if you would prefer to forward it.

Downey called from her vacation and asked for 3 things -

information on a uranium mill in or near the Monument, including economic data to the extent available;

a map showing where grazing occurs; and

a map showing hunting areas and/or information on numbers of hunters using the area/numbers of permits issued
