Hi,

I've started looking through some of the documents the BLM folks have been uploading for GSE and BENM (there's a lot). They shared a paper by Headwaters that there is also a web page for that may have some helpful info, here: <https://headwaterseconomics.org/public-lands/protected-lands/national-monuments/>

Included on that page was a document they put together of all the permitted activities at each monument - I saved a copy of that in the PPA folder in the Nat'l Monuments drive folder.

Thanks
Ann
