Christian said he was reviewing Sand to Snow yesterday - I'll check in with him when he gets in. We could probably also send Vermilion Cliffs now that it has been reviewed by Josh.

Hi Ann,

Ok, thanks for getting these together.

I have an email to Randy set up. I also included Grand Staircase. Are there any others we could send? Sand to Snow? I will be out of the office for most of the morning, but I'm hoping we can send these around noon.

FYI - GCP, SD, and IF are ready to go. So, the ones I think could be sent to Randy at this point are:

- Grand Canyon Parashant
- Sonoma
- Ironwood
- Canyons of the Ancients (despite lack of econ impacts/questions on oil and gas production)
- San Gabriel
- Giant Sequoia
- Carrizo
- Mojave

My edits were already incorporated into the 7 10 version of GCPNM and SDNM. I made a few edits to the 7 10 version of Ironwood.

Thanks,  
Sarah

Ok great, there are "xx 7 10 17" versions of all of those papers which would be the latest version.

OK, I'll take a look at Ironwood.  
I had saved a version of each of those on the O: drive with a file name that said SC comments at the end. It should have been the most recently saved.  
If you have a final version for each, I could compare and see if the edits made it through. There weren't too many, but there were a few typos that should be corrected in the final version.

Sure, that would be great. Do you know if your edits to GDP and SD have been incorporated into the latest drafts?

Hi Ann,  
I was supposed to review Josh's analyses. I had edits on Grand Canyon-Parashant and Sonoran Desert but haven't looked at Ironwood Forest yet. Should I take a quick look at that one too?

Thanks,  
Sarah

The following monuments have drafts that I think could be sent to Randy today for dispersal to Bureaus for comment (let me know if I have listed any that are not ready):

- Grand Canyon-Parashant
- Ironwood Forest
- Vermilion Cliffs
- Carrizo Plain
- San Gabriel
- Giant Sequoia
- Grand Staircase-Escalante
- Canyons of the Ancients
- Sonoran Desert
- Mojave Trails (looks like the visitation table may need to be updated under recreation)
- Sand to Snow
- Craters of the Moon (is there an outstanding issue with the grazing data?)

Are there any others?
