Other Significant Rulemakings and Actions

1. **IMPORTS OF AFRICAN ELEPHANT TROPHIES FROM ZIMBABWE:** The Fish and Wildlife Service (FWS) plans to publish in the Federal Register a change to the permitting status for imports of African elephant trophies from Zimbabwe. Negotiations have been underway for a 9-year agreement with Mexico to provide operation certainty regarding deliveries to Mexico, referred to as "Minute 323," to include reductions and water savings at specific Lake Mead elevations, investment to conserve Colorado River water supplies, and enhancement of environmental and riparian resources. The U.S. State Department is proceeding with their clearance process so that DOI can proceed with review and clearance of the domestic agreements, to finalize and adopt the domestic agreements that are necessary to implement Minute 323 by the end of September 2017.

3. **NAVAJO GENERATING STATION:** On July 2nd, the Navajo government approved a two-year lease extension for continuing operation of the Navajo Generating Station through 2019. Interior is helping to identify a possible future owner to keep the plant generating power indefinitely, since the current owners will exit the plant at the end of 2019. On July 19th, Navajo representatives met with the Bureau of Reclamation and requested another stakeholder meeting.

A multiple stakeholder meeting is being discussed for September. On July 28th, Peabody Energy and Lazard (investment banking) met with representatives from DOI to discuss potential of investors. Initial discussions sound positive and Lazard hopes to have initial bid proposals by mid-September.
