Hi Nils, I was hoping you could provide some information on the location near station PRMP FEIS W0410 has the NECA or the San Jacinto Site as PRMP FEIS W0410 states. There are remaining issues that were to be worked out by station NECA and W0410 but I am not sure if these issues have not occurred yet.

Hi Ryan, I hope you are well. WOM10 has the NDA for the Southern team States PMP-P FGS in QTS. There are remaining issues that were to be worked out by Eastern States, WOM10, and WOM10 but the additional issues have not occurred yet. Should we set some thing up to discuss or is that something 210 will coordinate.

Thank you for your question and recommendation on the Draft Revised NEPA Package. I will send the document you cited with the information that is in the draft NEPA instead of a draft NEPA as we have the information on the draft NEPA. And thank you for the information.

If you have any other questions, please let me know and I will be happy to help you.

Thank you

We are also evaluating the greater age group and may also implement a tiered technical advisory group (etc.) task in the Fall or February. We will take them up on this. When WD provides the analysis we will determine what is to do about our inclusion in the meeting and monitoring reported.

In order to make better use of time and allow for robust review and comment we are providing this page link out now for review and comment. Still pending comment on whether to hold the PA.

Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent to that will constitute a courtesy copy of the TWS Plan of Development is 2 pages due to the fact that it is a long document.

Regards  
Sharon

Hi Adrián, thanks for the note. I will make sure and include you on communications on the Ye de project. Thank for keeping me updated and letting me know what W410 support might be needed as you move forward. I do have a question - is earth science related to the project or are you attending to it separately?

## Thanks
