[Monthly Hot Topic Snapshot for week of September 25.docx](#)

Hi Folks, the Monthly Hot Topic Snapshot for the week of September 25 and the WO410 tracking spreadsheet are attached.

Please let me know if you have any questions.

Britta Nelson, M.P.A., Program Analyst
National Conservation Lands (WO-410)
Bureau of Land Management

**September 2017
Monthly Hot Topic Snapshot
WO-410 RMP and EIS Review**
Updated 09/25/17

Chris McAlear
Acting Assistant Director (WO-400)
Nik Williams
Acting Assistant Director (WO-400)

RMPS AND PROJECTS WITH ISSUES TO ELEVATE/DIRECTORS PRIORITIES

- **Carson City PRMP/FEIS. Nevada.**
 - **DTS# 1710. NOA of the Carson City District PRMP/FEIS is currently with WO210. WO410 is next stop in DTS.**
 - **Update:** Continuing to working with Nevada on the lands with wilderness characteristics issue. WO410 will get updated rationale from the contractor per the September 22 discussion with the NVSO.
 - **Issues:**
 1. **ISSUE:** For some lands that would be protected, the NEPA does not demonstrate that the allocations adequately protect wilderness values.
 - Options discussed include 1) updating the PRMP/FEIS's rationale as to why the management provisions/stipulations do protect and are consistent with manual; or 2) updating the category of protection from full protection of wilderness characteristics to "managing for other uses while reducing impacts to wilderness characteristics" and adjusting the explanation accordingly. We also discussed the need to bolster the discussion re: potential and lack of potential impacts.
 - Carson City indicated they would update the PRMP/FEIS's rationale as to why the management provisions/stipulations do protect and are consistent with policy and bolster the discussion regarding potential and lack of potential impacts in chapter 4 analysis and based on other resource allocations that may minimize surface disturbance in these areas.
 - Comments were provided for lands with wilderness characteristics, WSA, WSR, and NSHT on August 16. Response to WO comment received on September 6. Programs reviewed and have no further feedback.
- **Mancos Shale RMP-A, Farmington, New Mexico.**
 - **Issues:** Unknown. The planning area includes lands with wilderness characteristics and the Old Spanish NHT, and WO410 has not reviewed the draft alternatives.
 - **Update:** Nevada is seeking approval from the ASLM to move forward with the draft alternatives.
- **DTS# 1545. NOA of the DRMP and DEIS for the BLM Carlsbad Field Office, New Mexico.**
 - Surnamed by WO410 on June 8. **NOA package has not reached WO400.**
 - **Update:** Carlsbad FO revised Alternative C (agency preferred), briefed the Director on the revisions on September 20, and is seeking approval from the ASLM to move forward with the draft.
- **DTS# 1722. NOI to Prepare an EIS with Minerals Segregation for the Proposed Yellow Pine Solar Project, Clark County, Nevada.**
 - DTS surnamed by WO410 on September 21. **Package has not reached WO400.**
 - **Update:** The weekly Federal Register Notice update (September 22) states that the NOI package has been returned to Nevada with WO410 comments.

- The NOI documents state that visual impacts to the Old Spanish NHT will need to be analyzed in the EIS. WO410 additions to the NOI documents include adding that the congressionally designated Old Spanish NHT crosses the area and listing the Old Spanish Trail Association under “interested stakeholder groups”.
 - Nevada has indicated there are lands with wilderness characteristics in the project area. WO410 asked for the NOI BP to identify that lands with wilderness characteristics are in the project area and the EIS will consider impacts to those values.
- **DTS# 1471. NOA for the Grand Staircase-Escalante National Monument administrative draft MMP-A/DEIS.** Utah.
 - Surnamed by WO410 on April 14. **NOA package has not reached WO400.**
 - **Issues.** None at time of WO410 surname.
- **DTS# 1542. NOI to Amend the RMP for the Ukiah Field Office, California and Prepare an Associated Environmental Assessment for the Berryessa Snow Mountain National Monument.** California.
 - Surnamed by WO410 on May 2. **NOI package has not reached WO400.**
 - [REDACTED] the NOA is on hold at California’s request.
 - **Issues.** None at time of WO410 surname.
- **W [REDACTED] view of Eastern Washington DRMP/DEIS.** Oregon/Washington.
 - **Update:** This WO review has been postponed until after the Sage-Grouse review under Secretarial Order 3353 has been completed to ensure the RMP is consistent with review results.
 - [REDACTED] there are lands with wilderness characteristics, WSR, and NSHT in the planning area.
- **Challis, Salmon, Upper Snake RMP Prep Plan.** Idaho.
 - **Update:** WO410 provided follow up comments to the responses to WO feedback (May 19), requesting data and GIS funding needs for National Trails be identified in the prep plan and following up on a WSR comment that [REDACTED] was not responded to re: if USFS and BLM coordination on joint WSR studies would be considered. **WO410 has not received the response to comments.**
- **Appalachian Basin RMP Prep Plan.** Eastern States.
 - **Update:** WO410 provided feedback on the prep plan on March 10, 2017 (NSHT and WSR should be addressed if [REDACTED] located in the planning area). **WO410 has not received the response to comments.**
- **Lake Powell Water Project.** Arizona, Utah.
 - **Issues:** Potential hydro-power station located in and plan amendment for the GSENM.
 - **Update:** WO410 has reached out to BLM Utah and the project manager regarding this project. This is a water removal and transportation project including a proposed hydro-power station located on GSENM. The BLM is working with Utah to perfect the License Application to FERC and to discuss the need for one or two plan amendments in the Arizona Strip FO and GSENM. This would be a new license for a proposed pipeline and is a discretionary authorization.
- **Donlin Natural Gas Pipeline PFEIS.** Alaska.
 - **Issues:** Iditarod NHT is located on some State Patent lands which are proposed for the project.

- **Update:** The PFEIS is under review by the Alaska State Office with the review period ending August 25. It is unknown if the WO will review the PFEIS. A meeting with BLM Alaska was held on February 27 to discuss State Patent lands of concern within the Donlin project, specific to the Iditarod National Historic Trail. Although it is not feasible to get a ROW reservation for affected townships, BLM Alaska is working to get comments into NEPA for the project, including mitigation for impacts to the NHT.
- **Verde Transmission ADEIS.** New Mexico.
 - **Issues:** Potential impacts to WSR and National Trails.
 - Proposed route crosses Rio Grande River. Eligible and suitable WSR streams in area including additional segments of the Rio Grande WSR.
 - Project would cross the Camino Real de Tierra Adentro NHT and Old Spanish NHT.
 - **Next milestone is review of ADEIS (TBD). Any review is to be coordinated through New Mexico as amendment [REDACTED] is not on WO210 priority list for WO review.**
 - **Update:** [REDACTED] schedule is being revised because the public scoping period was extended. Approval of the revised [REDACTED]
- **Boardman to Hemmingway ROD.** Oregon, Idaho.
 - **Update:** The last update was provided for the Renewable Energy and Transmission dashboard on June 28, 2017 [REDACTED] and indicates that coordination is continuing with the WO on the NOA for the ROD and incorporating compliance discussions with the Executive Order of March 28, 2017 and Secretarial Order 3349 of March 29th, [REDACTED] as it relates to mitigation. **It is unknown if WO410 will participate in the process.**
- **Environmental Assessment to Reconsider the ROD Approving Segments 8 and 9 for the Gateway West Transmission Line Project.** Idaho.
 - **Update:** The NOI for the EA was published on August 28. The BLM is directed, through the Morley Nelson Snake River Birds of Prey NCA Boundary Modification Act, 2017, to issue a ROW for the lands described in Sec. (b)(2) of the Modification Act for portions of Gateway West segments 8 and 9. The Modification Act moved the lands for this ROW from NCA status, stipulated that the mitigation framework presented in the Final Supplemental EIS will apply to the authorized segments, and stipulated a timeframe for issuance of the ROW. **It is unknown if WO410 will participate in the process.**
- **Section 368 Energy Corridor Region 1 draft review report.** Southern California, southern Nevada, and western Arizona.
 - **Issues:** Outdated policy that categorized National Trails as 'medium potential for conflict' was used in the original draft review report. Updated solar and wind policy now categories National Trails as 'high potential for conflict'. This was addressed with WO301. WO301 indicated no further follow up needed at this time.
 - **Update:** Revised draft Region 1 Report sent to WO100 for review prior to release for 30-day stakeholder input.
- **Section 368 Energy Corridor Region 2 review.** Eastern Arizona, southern Utah, and New Mexico.
 - **Update:** A schedule is being developed for the Region 2 review.

UPCOMING BRIEFINGS (NEXT 30 DAYS)
--

- **Kick-off Briefing for WO Review of Eastern Washington DRMP/DEIS.** Oregon/Washington.
 - TBD.
- **Grand Staircase-Escalante National Monument administrative draft MMP-A/DEIS.** Utah.
 - **AD Brief TBD.** Staff pre-brief was held April 25.
 - **No issues.** 471,700 acres contain wilderness characteristics. The draft MMP did not specifically address management of lands with wilderness characteristics, however these lands receive incidental management in the following zones:
 - The primitive zone (281,800 acres) allows for an undeveloped, primitive, and self-directed visitor experience without mechanized or motorized access.
 - The outback zone (149,600 acres) is intended for an undeveloped, primitive, and self-directed visitor experience, while allowing motorized and mechanized access on designated routes. Facilities are rare and are provided only when needed for resource protection.
 - The remaining lands with wilderness characteristics (40,300 acres) are in the front country and passage zones which contain more facilities and are the focal points for visitation.
- **Lewistown DRMP/DEIS.** Montana.
 - **TBD.**
 - **No issues.** 202,730 acres contain wilderness characteristics.
 - Prioritize other uses on 70,000 acres while not protecting wilderness characteristics. Underlying prescriptions include open to mineral material sales, non-energy leasables, cross-country mechanized travel, fluid minerals with minor constraints (CSU), and livestock; limited to designated routes yearlong; 400 acres of ERMA prescription (potentially); and mostly VRM III.
 - 30,000 acres would be managed to minimize impacts to wilderness characteristics while managing for other uses (13,000 acres of ACECs and approximately 15,000-20,000 acres where actions are in place to protect GRSG).
 - 100,410 acres (49%) would be managed to protect wilderness characteristics as a priority over other multiple uses.
- **Rio Puerco PRMP/FEIS.** New Mexico.
 - **TBD.**
 - **No issues.** There are seven areas totaling 37,524 acres of wilderness characteristics.
 - Prioritize other uses on 1,663 acres (4%) while not protecting wilderness characteristics.
 - 6,920 acres (18%) would be managed to minimize impacts to wilderness characteristics while managing for other uses. Travel limited to designated routes, closed to leasable minerals, avoid for saleable minerals and ROW, minimizing impacts and requiring use of existing routes for forest product removal, and VRM III.
 - 28,941 acres (77%) would be managed to protect wilderness characteristics as a priority over other multiple uses. Travel would be closed except as authorized, closed to leasable and saleable minerals, no new ROWs, closed to forest product removal, and VRM II.

Hi Shawn, I was hoping you could provide some information on the Southwestern States PMRP/FIS. WFO 10 has the NDA for the Southwestern States PMRP/FIS in DTS. There are remaining issues that were to be worked out by Eastern States, WFO20, and WFO10 but I am not sure if these discussions have not occurred y

Thank!

Hi Ryan, I hope you are well. WFO10 has the NDA for the Southwestern States PMRP/FIS in DTS. There are remaining issues that were to be worked out by Eastern States, WFO20, and WFO10 but those discussions have not occurred yet. Should we set something up to discuss or is that something TIA will handle

Thanks,

Assigned By Office: W0250 REC DIVISION User: Andy Terney

File Size: [REDACTED]

Comments: [REDACTED]

Hi Nina and Peter, Suzanne is recommended for DTE Lark NMA for the Southeastern States PRMVFES. W0250 reviewed the RMP and there are no outstanding issues. The planning area contains the higher order Lighthouse (NANJSC, W04, and W05). The W0250 SP can be found at: <https://doi.gov/efg>. Comments provided on the Federal Register Notice in [REDACTED] establish National Tool Management Considerations for segments of the Potomac National Heritage Scenic Trail and the Washington-Rochester Revolutionary Route National Historic Trail, and suggested adding to the notice that it will not be a package comment.

Hi NANJSC program reviewed and doesn't have comments on the notice package. The RMP program concurs with the RMA comments. Can't say if we haven't heard on the W04 program but it should be fine with the language reflects the W04 on the discussion described above. No worries that the W04 is [REDACTED]

Comments: [REDACTED]

Hi [REDACTED]

To Steve, Heather, Ryan, Nina, Carol
Thanks for the update!
Is Nina included in the meeting with Eastern States? [REDACTED] and Linda will, Nina should be included in discussions in the W02 meeting.

Thanks,

Erin Nelson

Management and Program Analyst
National Conservation Lands/NCA/BLM

W02 comments were addressed and the RMP was done. So, all meeting was done. There were some issues regarding one-fitting designations between recreation and NCA. Additionally making sure that the program and need statement captures the spirit and content is also essential. I think Eastern States is working internally to bring that of which the Federal Register package, 10 and not address that the issues raised at the AD briefings are addressed. We will need help and support from W04 to get the ball rolling regarding any further developments.

With best regards,

Steve

NEI Draft - Notice of Intent to Prepare an Environmental Impact Statement for the Andrus Mining District Industrial Access Project for review and to you because your name is listed as the point of contact for the project in the NEI system.

NEI Draft - Notice of Intent to Prepare an Environmental Impact Statement for the Andrus Mining District Industrial Access Project indicates that wilderness characteristics are a key issue. Can you ensure information is provided about this including if the wilderness characteristics inventory is current, if the current MAP addresses lands with wilderness characteristics, and if the project is consistent with the plan?

Also are there National Conservation Lands units such as wildland scenic land or NCLs in the project area?

Please let me know if we need to discuss.

Thanks,

Subject: Question re. D058 1232 - Notice of Intent to Prepare an Environmental Impact Statement for the Amber Mining District Industrial Access Project
 To: Timothy LAMAR tlamar@blm.gov
 Cc: Nikki Moore nmoore@blm.gov, Sally Kettis skettis@blm.gov, [REDACTED] [\[REDACTED\]@blm.gov](mailto:[REDACTED]@blm.gov), Peter Mak cmak@blm.gov

Hi Tim, WORLD received the NOI to prepare an EIS for the Ambler Mining District Industrial Access Project for surname and has some follow-up questions. I am reaching out to you because your name is listed as the point of contact for the project in the DITS system.

The Amherst NCI # [REDACTED] wilderness characteristics are a key issue. Can more information be provided about this including if the wilderness characteristics inventory is current, if the current BMP addresses lands with wilderness characteristics, and if the project is consistent with the plan?

Please let me know if we need to discuss.

Thanks,

Britta Nelson, M.P.A., Program Analyst

[REDACTED] and I got it from [REDACTED] on 8/7, but otherwise the package is good – We'll need to keep in touch with AG as they move forward to see how they are addressing wilderness characteristics.

On 6/1, Dec 8, 2016, at 11:44 AM, Nelson, Britta (BIA) wrote:
Hi Peter and Ed, we received BLM 210-3 NDI for an [REDACTED] Project. There are no NCE units but there are lands with wilderness characteristics in the project area. The FO has indicated a lands with wilderness characteristics inventory has been completed but this has not been added.
Thanks,

Cam

Hi Doug,

Tim's in DC this week and is looking at this. We also got a lot of feedback from the public and should be able to coordinate tomorrow's report.

Write or Tim, anything else relevant?

Sally

On your review of [REDACTED], NOLA of the Cedar City (2007) (2008), is requested. Please provide feedback by April 21 to the documents shared with you on Google drive using the "suggestions" mode. For reference, the WFO3010 for Cedar has also been shared with you.

I reviewed the NOLA package and added a comment to the NOLA SP (item 11), asking the SP to identify the units of the National Conservation Lands located in the planning area and to specify that lands with wilderness characteristics are in the planning area, also, the NOLA specifically addresses lands with wilderness.

Thanks,

[REDACTED]

Hi Sally, I am sorry to hear that you were unable to attend the meeting. I did not make the notice package to the program but can if necessary.

The notice was sent to the public on Tuesday May 24th prior to allow for Pueblo de Cofre cultural observance and BLM scheduled maintenance activities. The closure will remain in effect annually until further notice is posted in the Federal Register. The do

not have any questions. Thanks.

Document Subject: Notice of Intent to Progress on Development of the Proposed Yellow Pine Sales Project, Clark County, Nevada
Appendix A: Notice of Intent to Submit for Environmental Impact Statement (EIS) with Mineral Segregation for the Proposed Yellow Pine Sales Project, Clark County, Nevada
Action Required: EIS
Assigned by: [REDACTED] - Senior Task Leader

Task completed
[REDACTED]

(b) (5) DPP, (b) (7)(F), (b) (7)(G)

[REDACTED] other NQ packages in Nevada will be built. As far as the current Yellow Pine Solar project there is a segment of the Old Spanish Trail about 4 or so miles southeast of the proposed project site. Also there is a BLM designated wilderness [REDACTED] (Chaco Canyon) about 4 miles north of the proposed project site. [REDACTED]

[REDACTED] I am not sure if you are referring to the project area - but I do not believe that the site will be managed for wilderness character in the forthcoming BWP revision so any analysis should only have to avoid the impacts and effects to the characteristics.

 Thanks for the update!
 I will be included in the meeting with Eastern States* Since the ONS is a National Conservation Lands unit, NINA should be included in discussions re the ACEC overlap.

Thanks,

 Hello Brett,

We currently were addressed and the BIA will be done. As to, AC Bidding took place. There were some issues regarding overlapping designations between incineration and ACEC. Additionally making sure that the purpose and need statement captures the spirit and content is also essential. I think Eastern States is working internally to inspect one of where the Federal Register package is. I'd and we will ensure that the issues raised at the AC Bidding are addressed. We will be happy and support team. BIA will be happy you in the loop regarding any further developments.

I will be happy updated.

All the best,

Shira

 Hi Shira, I am hoping you could provide consultation on the Southeastern States PMRAFF (2015). There are remaining issues that we're to be worked out by Eastern States, WICID, and WICID (2015) but I can't see if these discussions have not occurred yet.

Thanks

 To: Ryan Nelson
 Cc: NINA Nelson

Hi Ryan, I hope you are well. WICID is has the BIA for the Southeastern States PMRAFF (2015). There are remaining issues that we're to be worked out by Eastern States, WICID, and WICID (2015) but these discussions have not occurred yet. Should we set something up to discuss it so that something I'd be could be done.

Thanks,

Hi Ryan, I hope you are well. WICID is has the BIA for the Southeastern States PMRAFF (2015). There are remaining issues that we're to be worked out by Eastern States, WICID, and WICID (2015) but these discussions have not occurred yet. Should we set something up to discuss it so that something I'd be could be done.

Eligible and Suitable WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (MFS 6400)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M440?

Are suitable/unsuitable decisions made for all WSR-eligible streams in the planning area?

Is the WSR Study Report included as an Appendix and is it consistent with current policy?

For segments determined not suitable, do other resource allocations protect the river values, and/or is rationale provided for not protecting the river values especially if implementation of the RMP will degrade or eliminate those river values?

CELESTE INC.

National Conservation Lands, a WO admin review of the Cedar City DRMP/DGS is scheduled for January 30 through February 4 with a kick-off briefing scheduled for January 18. After receiving the review file from WO210 I will share them along with a WO450 comment form on google drive. The WO450 Briefing Paper

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

1. **Link** with wilderness characteristics
 Does the FO have a complete, updated inventory of lands with wilderness characteristics?
 Is an inventory report included as an Appendix?
 Are decisions made for all lands with wilderness characteristics within the planning area?
 Is a table included for decisions to (1) emphasize other multiple uses, (2) manage other multiple uses, (3) protect wilderness characteristics, or (4) manage other uses?
 Is a table included that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fall with each of the categories included in BLM Manual 420, which include: (1) protection of lands with wilderness characteristics is a priority over other uses, (2) emphasizing other uses that wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Suitable WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (BFI4500)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M6402?

Are suitable/unsuitable decisions made for all WSR eligible streams in the planning area?

Is the WSR Study Report including an Appendix and is it consistent with current policy?

For segments determined not suitable, do any resource allocations protect the river values; and/or is suitable provided for not protecting the river values especially? Implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Does the national trail management corridor allocation included in the alternatives?
Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Other RMP Issues
Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument preservation) that affect the alternatives?
How do the unique issues or background affect the alternatives?

Cedar City_C04MPO15_W04108P_032015_final.docx

Comment: 8/1/14 (74)

1)Since the W01212 (N07) and W018 comments were a submission that I missed. I'm sorry, but "N07" doesn't mean anything to me - I don't have a guide to all the program numbers and I've had to do one each with the associated program names for it to make sense to me and the rest of the MAP team (N07), W018). Many thanks to you for the clarification.

2) To summarize, here is the status where "T" means "continued" N01 programs (but not sure)

W01: just found the original W01 comment and have provided to Tom Richardson (Steve W01 + the Lead)

N07: just found the original N07 comment and have provided to Tom Richardson (Steve W01 + the Lead) and Kevin Fowler (David N07 lead)

W01: we are sending our comment per our Steve Director's direction. As W01s and Tom Richardson could not find the lead, it went to the SD and this W01's lead. As a result, there will be no responses to these comments.

Comment: Chris Nelson:

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMAP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on BMAP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designated) WMA and Scenic River segments, and trails under study or recommended as suitable for designation?

Does the RMP identify the resources, objects, and values (ROVs) for which the NM/NCA was designated, and how those ROVs will be managed?

Links with wilderness characteristics
 Does the FQ have a complete, updated inventory of lands with wilderness characteristics?
 Is an inventory report included in an Appendix?
 Are decisions made for all lands with wilderness characteristics within the planning area?
 Is a table included that summarizes across inventory areas, flows to lands with wilderness characteristics, areas and the percentage of lands that fall with each of the categories identified in BLM Manual 130, which include: 1) protection of lands with wilderness characteristics as a priority over other uses, 2) rough mining or other impacts to wilderness characteristics will avoid and wilderness character will be maintained?

Eligible and Excluded WSA

Did the FO complete WSA eligibility inventories consistent with current policy requirements 865.6400?

Did the FO complete suitability evaluations and determinations for eligible stream users using factors and criteria from M6400?

Are suitable/unsuitable decisions made for all WSA-eligible streams in the planning area?

Is the WSA Study Report included as an Appendix and is it consistent with current policy?

For segments determined not suitable, do any resource analysis/protective flow values; and/or is rationale provided for not protecting the river values especially if implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails
Is the national trail management corridor allocation included in the alternative?

Review kick-off briefing held on 10-13-10

Case 1:17-cv-01001 Document 1-1 Filed 07/26/17 Page 1 of 1

Are all National Conservation Lands units and other retirement areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

National Monuments/National Conservation Areas and Similar Designations:
 If this is a combined RMP, is there a unique set of decisions for which the NM/NCA was designated, and how these RCVs will be managed?
 Does the RMP identify any areas of special values (ROV) for which the NM/NCA was designated, and how these RCVs will be managed?
 Are all land use decisions consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM/NCA?
 Are rare wildlife resources or plants or animals identified as exclusion or avoidance areas?

1. **INDIA**
 a. How has the India **COMPANY** implemented/described its approach to address the following questions?
 i. Is an industry report included as an addendum?
 ii. Are decisions made for decisions to address whether character?
 iii. Is a table included that compares and contrasts the **COMPANY** with other multiple uses while applying management restrictions to address impacts to wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?
 iv. Is a table included for decisions to (a) emphasize other **COMPANY** characteristics, uses and the percentage of lands that fall within each of the categories identified in BLM Manual 520, which include: 1) protection of lands with wilderness characteristics in a priority over other uses, 2) emphasizing other uses to wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Suitable Work

Did the FO requestor's [REDACTED] are consistent with current policy requirements (M14600)?

Did the FO requestor's [REDACTED] and information for all eligible drawings using factors and criteria from M6600?

Did the FO requestor's [REDACTED] drawings made for or with eligible drawings the planning and?

Did the FO requestor's [REDACTED] stated as an Appendix and is consistent with current policy?

Did the FO requestor's [REDACTED] submit to other resource allocation and/or the (over) view, and is it rational to avoid for not to submit the view views especially if implementation of the DWP will benefit or eliminate those view views?

National Scenic and Historic Trails
Is the national trail management corridor allocation included in the plan?
Does the plan include objectives and associated management actions and restrictions to safeguard the nature and purposes of the trail?

Other RMP issues
Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?
Summarize how [redacted] would affect the alternatives.

Please let me know if you would like to discuss. Thanks, Britta

The WO admin review period for the Grand Challenge for Science (GCS) Gracing Draft RMP Amendment (DRMPA) will run from January 30 – February 28, 2017. To help inform your WO admin review, please attend this briefing for an overview of the GCS/NM Gracing DRMPA. I will send the DRMPA and present the review of it and how you have a transition.

National Conservation Lands, a WDO interim review of the GSENM DRMP A-DEIS is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 31. After receiving the review file from W0210 I will share them along with a W0430 comment form on google drive. W0430 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DRMP A-DEIS to help guide W0430's review?

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (see designation) WMA and Scenic River segments, and trails under study or recommended as suitable for designation?

National Monuments/National Conservation Areas and Similar Designations

If this is a combined RMP, is there a unique set of decisions specific to the NM/NCA?

Does the RMP identify the resources, objects, and values (ROV) for which the NM/NCA was designated, and how those ROVs will be managed?

Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM/NCA?

Are new utility corridors or ROWs in the NM/NCA identified as exclusion or avoidance areas?

☐ Yes, with additional characteristics
 Does the FO have a complete, updated inventory of lands with wilderness characteristics?
☐ Is an inventory report included as an Appendix?
☐ Are decisions made for all lands with wilderness characteristics without the planning ones?
☐ Is rationale included for decisions to (1) emphasize other multiple uses, (2) emphasize other multiple uses while upping management restrictions to reduce impacts to wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?
☐ Is a table included that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fall within each of the categories included in BLM Manual 632, which include: (1) protection of lands with wilderness characteristics as a priority over other uses, and (2) emphasizing other reduced impacts to wilderness characteristics will occur and wilderness character will be maintained?

Did the FID complete WSR-eligibility inventories consistent with current policy requirements (BIS 4500)?

Did the FID complete liability evaluations and determinations for all eligible streams using factors and criteria from M6400?

Are suitable/non-suitable decisions made for all WSR-eligible streams in the planning areas?

Is the WSR Study Report consistent with an Appendix and it is consistent with current policy?

For arguments determined not suitable, do other measures substantially protect the river values; and/or is rationale provided for not protecting the river values especially if implementation of the BMP will degrade or eliminate those river values?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives? Summarize how the unique issues or background affect the alternatives.

Please let me know if you would like to discuss. Thanks, Britta

WFO Review Kick-off Briefing: GSENM Grazing DMAP Amendment

We invite you to attend the WFO Review Kick-off Briefing for the Grand Staircase-Escalante National Monument (GSENM) Grazing Draft RMP Amendment (DRMFA) will run from January 30 – February 20, 2017. To help inform your WFO admin review, please attend this briefing for an overview of the GSENM Grazing DMAPA. I will send the DRMFA and present at the meeting.

Please let me know if you have any questions.

[illegible]

Ch. 3 Special Status Species, § 115-116

Wetland loss has resulted in a lack of upland cover, which is largely responsible for wetlands not meeting the seasonal requirements for age-structure in many areas of the Monumnet. Specifically, the areas identified as a suitable (% of unsuitable) for breeding habitat in the Monumnet, 79.3% of the sites were found to be unsuitable solely because upland cover was lacking, and a lack of upland cover was a contributing factor within the Monumnet identified as unsuitable for breeding habitat, 2.6% of the sites were likely due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 27% of unsuitable sites, including the dismounted 24%. Wetland grazing by domestic livestock during the late 1800s and early 1900s, coupled with severe drought, has significantly impacted upland ecosystems (Jenck et al., 2008). Long-term effects from this overgrazing, including changes in plant composition and soil, persist today (Jenck et al., 2008). Degradation on cattle management and spread of noxious and invasive plants (Jure & Smith, 2004).

livestock grazing "future anticipated trends" is in Ch. 4, p. 288-289. Future changes to livestock grazing in the Missouri are likely, as both the BLM's and operators' management shift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change livestock grazing for the operators are changes in permitted use, i.e. temperatures and wet springs, or changes that may need to occur due to monitoring and data collection.

Within the Monument, vegetation communities are influenced by livestock grazing management,

Appendix C: Idaho and Southwestern Montana Greater Sage-Grouse Approved Resource Management Plan Amendment Attachment 1- Chapter 2, and Required Design Features p. 151

vegetation and successful establishment of seeded species within burned/CSR areas. All new seedings of grasses and forbs should not be grazed until at least the end of the second growing season, and longer as needed to allow plants to mature and develop robust root systems which will stabilize the site, compete effectively against cheaters and other invasive annuals, and remain sustainable under long-term rangeland management. Adjust other management activities, as appropriate, to meet CSR objectives.

NO18 **16** Following analysis of operations, most long planning practices if needed to achieve long term adaptation and better objectives.

NO19 **17** Increasing interest were designed in activities or exercises for business growth. Existing activities for business growth such as planning were also being used in the business, though the number of activities available on an ad-hoc basis may be adjusted based on the specific conditions in each company's environment during the growth periods.

NO20 **18** Management, or other appropriate implementation planning. Additionally, temporary adjustments are made annually to business functions, the number of sales, and volume of use in accordance with applicable regulations.

From: Graham, Eric erich@pallco.com

Date: Mon, 17 Jul 2017 at 04:59

Subject: RE: EDC - Ceres Market Comment on Drafting Reduction Following Fire

To: Nick Cavanagh nickcavanagh@pallco.com, Mark Crawford markcrawford@pallco.com

Cc: Scott Sauerbrunn sauerbrunn@pallco.com

1. I have read and fully understood the response to MIA's question on the EEO Comments document. I don't know if this helps anyone understand our response, but just in case we do it after the briefing today, I haven't sent it to Andrea or Nikki.

2. We said that we better understand how our 50% of the cost can be damaged by welfare at a school to avoid the funding being lost to the degree 50%, but getting it into the policy is different in a few hundred dollars. We would like to see stronger language about how this would be used and what would be done.

3. Another EEOC case not used was "Increasing student response time" and "accessing levels of education efforts." Those were part of the original 2007 Plan and the National In-Market Plan, but they are still in effect. But they are outside the scope of this hearing, focused just on education efforts, are usually used in the context of a school's response to a student's request for help, and are not appropriate for a 50-hour or 100-hour case. This work is done under the guidance of the Department of Education Policy and Research, and it is outside the scope of this hearing.

While many of the plots in the study did not have livestock grazing, the study did not include a treatment where livestock grazing was the only disturbance. The study did include a treatment where livestock grazing was the only disturbance, but it was not included in the analysis. The study did include a treatment where livestock grazing was the only disturbance, but it was not included in the analysis.

Contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be a good faith effort to implement any plan the BLM selects and publishes.

mailed if I'm inaccurate on any of this.

Thanks,

Eric Mayes

grazing is always restricted after the rehabilitation work and is not allowed on a burned area until desirable grasses and/or forbs have been re-established, typically two or more growing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once livestock is not present, do not graze. Livestock grazing is not the usual factor for this. Reseeding livestock would not have the effect of returning vegetation. Please see the discussion on Vegetation Condition in Chapter 3 of the FES.

Comments on habitat building. There is more to pasture management, but there is an understanding there will be a significant effort to implement any plan the BLM selects and publishes.

Thank you for your input.

Subject: WO 410 - Costes MMPA Comment on Grazing Reductions Following Fire
To: Lisa Costello <lcostello@fws.gov>, Holly Crawford <hcrawford@fws.gov>
Cc: Leah Ouseman <leah.ouseman@fws.gov>

2. We would like to better understand how over 50% of the unit can be damaged by wildfire and at a level to reduce the breeding habitat for sage grouse by 90%, but grazing is only being reduced in the preferred alternative by a few hundred AUMs. We would like to see stronger rationale on how it is now - how and with what funding?

Response: The GIS does not seek ways of "increasing wildlife response times" nor "success rates of restoration efforts." Those were goals in the original 2007 Plan and the Normal Fire Rehab Plan, and these are still in effect. But they are outside the scope of this narrowly focused plan amendment. Restoration efforts are usually successful, but the GIS does not track them. The GIS is not a planning tool. It is a tool for monitoring and reporting on the progress of the plan. It is not a tool for planning. It is not a tool for decision-making. It is a tool for communication. It is a tool for transparency. It is a tool for accountability. It is a tool for public participation. It is a tool for collaboration. It is a tool for partnership. It is a tool for community development. It is a tool for economic development. It is a tool for social development. It is a tool for environmental development. It is a tool for sustainable development. It is a tool for the good of the community. It is a tool for the good of the world. It is a tool for the good of all.

While many of the plant communities of the Monument do lack czechrab, livestock grazing is not the causal factor for this. Removing livestock would not have the effect of returning czechrab. Please see the discussion on Vegetative Condition in Chapter 3 of the FEIS.

Planning efforts are always contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be a good faith effort to implement any plan the BLM selects and publishes.

Thanks,
Eric

Check in re: response to WFO comment on Idaho-Challis/Salmon/Upper Snake prog plan and updated prog plan

Nelson, Britta <bnelson@bim.gov>
10:19 AM (1 hour ago)

to Robert, Cathi, Deborah, Sally

Hi Folks, just a quick check to see if you have feedback on the responses from Idaho to WFO comments on the Challis, Salmon, and Upper Snake RMPs. [ping gmail](#)

After reviewing the responses and looking at the updated prep plan, questions I had are:

3. I didn't see in the updated prep plan that potential coordination with USFS on WSR studies had been incorporated. Does this need to be specifically included in the prep plan?

2. The total budget for Data and GIS Needs (App B) shows \$100K to complete WSR inventories. Is this a reasonable amount to cover costs?

Please provide feedback by May 18. Thanks.

 Subject: Re: Check for the New Mexico Transportation Project BLM Assessment
 Hi, I'm Brett. I'm the lead on the New Mexico Transportation Project BLM Assessment. I'm
 with Chalk Creek Consulting Engineers, "brett.b@chalkcreek.com", "brett@chalkcreek.com", "Brett Newman" - chalkcreek.com, Peter Hall - p.hall@chalkcreek.com, Cathi Bailey - c.bailey@chalkcreek.com, Robert White - r.white@chalkcreek.com, Ryan Hershaw - r.hershaw@chalkcreek.com
 Okay, send before it is a warning issued.

On May 14, 2018, you and I spoke and we both had a good week. I wanted to check in with you on the Waiver Transmittal project. I am hoping you can help me update on the progress of this project and if we still need any information? I needed from WGSB as of the 15th, if being any.

Our second was the following project:

The project includes all rights of all state and local laws including additional segments of the Wa Graceland. The proposed route crosses the Wa Graceland Map. Section 7 of the WBS and Basic Waic. It requires looking at "historic" projects that are currently, downstream or in a tributary of a designated river. Based on the project will cross the National Historical Sites (the existing route) and the Wa Graceland. The project needs to be completed per NAC 16C200.

There is no need to include characteristics per the existing route, however you have been contacted by the Wa Graceland. The project needs to be completed by the Wa Graceland. The project needs to be completed by the Wa Graceland. The project needs to be completed by the Wa Graceland.

Thanks,
Britta Nelson

Subject: Here are the Transient Project draft final RSD, RSW and NSA package for review in 3 emails

All comments received on the draft RCD and ROW grant that have been addressed except those noted here or still highlighted in the document. For those who have previously reviewed documents, please verify we've adequately addressed your comments. To finalize this review is to identify those copying

We anticipate finalizing the greater cage review and mitigatory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WO provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix, in order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final BO and the PA.

Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent emails will contain a courtesy copy of the TWS Plan of Development in 2 parts due to size limitations.

Comment: Britta Nelson
Revised final draft RCD for the Transitive Transmission project. It will most likely contain several updates including:

Cells 115

Comments: Britta Nelson
a Protest received [REDACTED] by [REDACTED]
a WFOID provided [REDACTED] to [REDACTED] and [REDACTED] package 05-24-16.
a WFOID drafted compensatory mitigation language. The issue was resolved and WFOID agreed to the mitigation language which was not ideal [would may mitigate and not would mitigate]. The compensatory mitigation package language, as modified by W0308, was incorporated into an addendum to the FES on 05-05-16.

Causes

_____ was, little did she _____

Hi Morly, Maile, and Terry - I hope you are all well and happy. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOI10 as the draft is being prepared and to check in with you on the Verde Transmission project RMP amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOI10 as the draft is being prepared.

by the project area includes eligible and suitable WSH streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the Wild and Scenic Rivers Act requires looking at "increased" projects that are upstream, downstream or on a tributary of a designated river. Based

2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT's). The project needs to be considered per BLM MC280.

Hi Molly, Maile, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOH10 as the draft is being prepared.

Our records c

Our records show the following project issues:

- 1) the project area includes eligible and suitable WSH streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River, Section 7 of the Wild and Scenic Rivers Act requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based on the project description, the project is not an "increment" project.
- 2) the project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per 48CM 16C280.

At this time, I'm not sure what our plans are relative to a '80 review of the draft EIS. I'll consult with our local management team here in New Mexico and our NEPA Coordinator and get back to you on that question.

Subject: Re: Check in on the Verde Transmission Project RFP amendment/SLs

Hi Adrian, Thanks for the note. I will make sure and include you on communications on the Verde project. Thanks for keeping me updated and letting me know what WQED support might be needed as you move forward. I do have a question - I saw this project is identified on the priority project transmission document.

Thanks,

Hi Mark, Mike, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment (DS). I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WDCIS in the short & long term.

Our records show the following project history:
1) The project is currently in the planning phase, including additional segments of the Verde. The proposed route crosses the Rio Grande River. Section 7 of the WDCIS and Science Review Act requires looking at "potential" projects that are upstream, downstream or on a tributary of a designated river. Based on the project location, we have identified the following potential projects:
2) The project needs to be considered per WDCIS 100-100.

3) There are no data on whether characteristics per existing inventories. Inventories may have been conducted as part of the BLM's 2001 Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible DS for this project.

Additional project information follows:

2) The project would cross two National Historical Trails (the Carolina Red to Texas Advisory & Old Spanish NHTs). The project needs to be considered per BLM 16C260.

3) There are no known existing inventories. Inventories may have been conducted as part of the BLM's Tenth Circuit OIA/RRP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible OIS for this project.

Additional project information follows.

Comment: Britta Nelson:

Hi Bob,

Hi Adrian, I hope you are well. I thought I would check in with you on the Verde Transmission project RMP amendment that you could share. I am updating WORKAL's tracking file and wanted to make sure updates are included. Thanks!

Britta Nelson, M.P.A., Program Analyst
National Conservation Lands (NCL) Unit

At this time, I'm not sure what our plans are relative to a WIS review of this draft OIS. I'll consult with our local management teams here in New Mexico and our NHPA Coordinator and get back to you on that question.

[REDACTED] has been assigned as the Project Manager for the Verde Transmission Project BLM recommendations. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WSD as the draft is being prep.

1) The project is being prepared by the project team.

2) The project includes eligible and suitable WSD resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WSD and Section 7 of the WSD and Section 7 of the WSD requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based on the project team's findings, the project team is recommending that the project be considered per BLM 160200.

3) There are no lands with wilderness characteristics per [REDACTED] on any have been conducted as part of the BLM's 2003 Draft EIS/NEPA Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible EIS for the project.

Additional project information follows:

From: Krista Nelson <krista.nelson@blm.gov>
Sent: Monday, April 14, 2020 1:14 PM
Subject: Section 808 Energy Corridor - Region 1, 'Turned Off' Review

This email forwards for the planned BLM, USFS and

the attached DMF Section 808 Energy Corridor Region 1 Recommendations Report. This non-NEPA corridor revision recommendation report product is the result of the recent Section 808 West-wide Energy Corridor - Region 1

Please provide your review comments and suggested revisions within the attached document comment review form by COB Friday, April 18th, 2020. This provides a three (3) week review period.

Thank you!

Attached through a recent calendar event of a planned Region 1 'Turned Off' Review Webinar scheduled for this coming Wednesday, March 25th at 1:00 PM (ET) to 3:00 PM (ET) that will provide an overview of the Draft Region 1 Recommendation Report, address corridor

It is important note that the Draft Report is complete

Draft Report is Microsoft Word (attached 2-8-20 file)

Appendix A is Microsoft Word (attached 2-8-20 file)

Appendix B - Part 1 is a PDF file (808-WR to larger to attach to be attached to the BLM file)

Appendix B - Part 2 is a PDF file (808-WR to larger to attach to be attached to the BLM file)

Revised Corridor Report (without the cover) to be attached to the BLM file

For Level 2 review, please provide your review comments within the attached document comment review form by COB Friday, April 18th, 2020. This provides a three (3) week review period.

to me, Maile, Deborah, [REDACTED], Niki, Carl, Robert
Brita,

At this time, I'm not sure what our plans are relative to a WD review of the draft DIS. I'll consult with our local management team here in New Mexico and our NEPA Coordinator and get back to you on that question.

Elita and I are in agreement.

Recommendations are attached. Please let me know if you have questions or would like to meet to discuss. Thanks.

[illegible]

[illegible]

To ease your review and comment effort, please first focus your initial attention on Section 2, Section 3 and respective R&M State or USFS Candidate Recommendations. If time allows, review Section 1.0 which provides background on the 2009 Inc. 500/500 and 500, subsequent lawsuit / settlement agreement.

After you've had a chance to review the Draft Report, I believe you'll see the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 BLM / USFS land use planners in the future. We look forward to the re-

view comments using the attached comment form to the Argonne Geospatial Data, WIS Transmission / Fac. Sub Program and to CDE Friday, April 24th.

You should not be concerned or need further assistance, please contact me as provided below, or contact Geospatial Data at (202) 942-7128 or Eunice Winous, Project Manager, Argonne NS, (202) 452-5786.

Thank you in advance for your assistance with the review.

Hi Molly, Mark, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/DCE. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WISD in the short & long term.

Our records show that the project is currently in the final stages of development, including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WISD and Service Areas Act requires looking at "outstream" projects that are upstream, downstream or on a tributary of a designated river. Based

on the project's location, it is likely that the project will be considered a "downstream" project. The project needs to be considered per WISD 500/500.

As there are no state or federal characteristics per existing inventories, inventories may have been conducted as part of the BLM's Two-Step Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible DCE for this project.

Additional project information follows:

Chaps, sent before I could answer! Thanks,

Britta Nelson, Britta Nelson@blm.gov sent:

Hi Terry, I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/ES. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WFO as the draft is being prep

Our records show the following project history:

- 1) The project was initially eligible and suitable WFO. The proposed route crosses the Rio Grande River. Section 7 of the WMA and Forest Reserve Act requires looking at "technical" projects that are upstream, downstream or on a tributary of a designated river. Based on the project's location, it is not eligible for consideration.
- 2) The project would cross two National Historical Trails (the Camino Real in Texas and the Rio Grande Trail). The project needs to be considered per BLM NHP/ES.

To me, Mike, Deborah, Terrence, Molly, Peter, Niki, Cathy, Robert

Britta,

At this time, I'm not sure if we need to do a WFO review of the draft ES. I'll consult with our local management team here in New Mexico and our NHP Coordinator and get back to you on that question.

Re: BLM Energy Corridor Review Project

Is this a pre-existing or a new license for EIS?

THIS WOULD BE A NEW LICENSE BECAUSE THE PROPOSED EIS IS A NEW EIS.

AND IT IS FOR WATER QUALITY AND WILDLIFE.

Is this a license?

CONSENT, TO AGREE TO THE TERMS OF THE EIS, TO AGREE TO THE EIS, AND AGREE TO AGREE TO THE EIS.

Please contact me further as needed.

Thank, you

Subject: Re: Check in on the Final Transmission Program

To: Mark Cohen <mcc@blm.gov>, "Julie, Mike & Heather" <hewitt@blm.gov>, Peter Malt <pma@blm.gov>, Mike Moore <moo@blm.gov>, Celia Bailey <celba@blm.gov>, Robert Wick <rwick@blm.gov>, "Tad, Deborah" <td@blm.gov>, Ryan Heston <rh@blm.gov>

Hi everyone! I hope you are all well and have had a great week. I wanted to check in with you on the Final Transmission Program (FTP) amendments. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from W&S as the draft is being a step.

Our records show the following project team:

- 1) the project area includes eligible and suitable W&S lands of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the W&S and basic Rivers Act requires looking at "increment" projects that are upstream or on a tributary of a designated river. Based on the project area, the project would cross two National Historical Trails (the El Camino Real National Historical Trail and the Santa Fe National Historical Trail). The project needs to be considered per BLM 100-200.

- 2) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Two-Step OFC/RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible OFC for this project.

Case

I have you on all and have had a great week. I will be back to talk to you on the Senate Transportation project. I am interested in [REDACTED] so perhaps you can help me update on the progress of the project and let me know if support is needed from WISD so as to do the thing I am going to do.

Our records show the following project issues:

- (1) the project was included eligible and suitable under [REDACTED] of the Florida Statute. The program used to cover the Florida Statute, Section 7, of the WISD and basic. Even after looking up "Interest" projects that are optional, disbursement as a voluntary of a designed area. Based on [REDACTED] the project was not eligible for funding.
- (2) the project would cross two historical characteristics [REDACTED] under the Florida Statute. The project needs to be conducted per [REDACTED] 166.263.

(3) There is no need to have historical characteristics [REDACTED] as existing conditions, investment may have been conducted a part of the RFP. The State Office of Management and Administration of 2012. Additional investment may need to be conducted to prepare complete and defensible CDD for the project.

Hi Molly, Maile, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment. IES is hoping you can keep me updated on the progress of this project and let me know if support is needed from WOHIO as the draft is being developed.

For month the following project issues:

- 1) the project area includes publicly and privately owned streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande near Section 3 of the Wild and Scenic Rivers Act requires looking at "increased" projects that are upstream, downstream or on a tributary of a designated river. Based on the project area, the project is not considered a "significant" project.
- 2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per BLM M3620.

Additional characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tax Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible GIS for this project.

Cell: F166

Our records show the following project team:

1) The project area includes eligible and suitable WMA resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WMA and BLM's Watershed requires looking at "Treatment" projects that are upstream, downstream or on a tributary of a designated river. Based

Adrian Garcia
Call: 11/15 (see up)

To me, Mike, Cady, cressand@blm.gov, Mely, Cady, Robert
Bittera,

our plans are related to a WMA review of the BWP ES. I'll consult with our local management team here in New Mexico and our WMA Coordinator and get back to you on that question.

On 10/20/20

SOS-054-2124

From: Nelson, Britta (brittan@blm.gov)
Date: Fri, Sep 25, 2019 at 11:18 AM
Subject: For Check to on the Verde Transmission Project
To: Marka Gable (marka@blm.gov), John, State of [REDACTED] (john@blm.gov), Peter Reid (peter@blm.gov), Nikki Moore (nikki@blm.gov), Carli Bailey (carli@blm.gov), Robert Wick (robert@blm.gov), "Rob, Deborah" (robert@blm.gov), Ryan Hartshorn (rhartshorn@blm.gov)

Hi, and thank you for your response.

I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project BHP amendments/DLS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WSD as the draft is being prep.

Our records show the following project issues:

1) The project was reviewed against the National Historic Preservation Act (NHPP) of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WHA and Section 106 of the National Historic Preservation Act requires looking at "historic" projects that are significant, downstream or on a tributary of a designated river. Based on the project's location, it is likely that the project will be considered per BLM 106200.

2) The project would cross two National Historic Trails (NHTs), the Santa Fe Trail and the Santa Fe de la Piedad Trail. The project needs to be considered per BLM 106200.

3) There are no lands with wilderness characteristics per existing management. Additional study may have been conducted as part of the BLM's 2018 Draft EIS/BHP Amendment of 2012. Additional inventory may need to be conducted to complete a complete and defensible DLS for this project.

Additional project information:

Thanks,

Britta Nelson
Acting National Conservation Lands/NMFL Program Lead
BLM New Mexico State Office
SOS-054-2124

On this time, I'm not sure if the project is a WHA review of the Draft EIS. If correct with our local management team here in New Mexico and our NMFL Coordinator and get back to you on that question.

Mark Gable
Acting National Conservation Lands/NMFL Program Lead

Subject: The Check to on the Verde Transmission Project BHP amendments/DLS

Hi Marka, thanks for the info. I will make sure and include you on communications on the Verde project. Thanks for keeping me updated and letting me know what WSD support might be needed as you move forward. I do have a question - how this project is identified on the priority project transmission of the Verde project.

Britta Nelson

Hi Molly, Molly, and Terry - I hope you are all well and happy. I will check in with you on the Verde Transmission project RMP Amendment/EIS. I am hoping you can keep me updated on the progress of the project and let me know if support is needed from NMOS as the Draft EIS is being prep.

Our records show the following project issues:

1) The project will include eligible and suitable WMA resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande near Section 7 of the WMA and Section 7 requires looking at "Technical" projects that are upstream, downstream or on a tributary of a designated river. Based

2) The project will include Technical Trails (for Canyon Road on Terra Antena & Old Spanish NATL). The project needs to be considered per BLM NMOS.

3) There are no lands with wilderness characteristics gene existing inventories. Inventories may have been conducted as part of the BLM's Ten Year Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible EIS for this project.

Hi Tim, Naayv Mandanli was asked to check in to see if you can engage with Allison Ginn about the RCY compatibility analysis for the Lake Powell Water Project. The project would involve a proposed hydro-power station located in and along amendment for the GSDNM. See page 10 on the attached dashboard.

..... I left a voicemail as well. Please let me know if you'd like to discuss. Thanks.

You are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WO410 as the draft is being prepared.

See records show the following project location:
1) the project area includes eligible and suitable WSS on the [redacted] segments of the Rio Grande. The proposed route crosses the Rio Grande near Section 7 of the Wild and Scenic Rivers Act requires taking on "intrusion" projects that are upstream, downstream or on a tributary of a designated river. Based on the project location, the project is not eligible for the Wild and Scenic Rivers Act.
2) National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per 36 USC 3603.

¹⁰ If there are no lands with wilderness characteristics per existing inventories, inventories may have been conducted as part of the BLM's Tax Field Office-RMP Amendment of 2012. Additional inventories may need to be conducted to ensure a complete and defensible GIS for this analysis.

MI Botta,

We are still working on the majority of your requests. Some of this requires GIS analysis. Annual leave and attending meetings with cooperating agencies has slowed us down but we are getting close to having a response to several of the questions raised during the 9/27 briefing sent to your office. We are hoping to have a response to the remaining questions by the end of the month. I will be sure to let you know as soon as we have a response to your questions. I look forward to hearing your office's thoughts once we provide these responses.

The holiday have been observed and we are submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping Bitter on your radar.

On Fri, Jan 25, 2013 at 1:00 PM, Nelson, Britta <britta@bitter.com> wrote:

Hi Chad and Molly, I hope January is off to a great start for you both! I wanted to check in to see if there is an update on the Carlsbad information you have been working on.

On Fri, Nov 15, 2013 at 12:19 PM, Young, Richard <ryoung@bitter.com> wrote:

Hi Britta,

No bother at all on adding about the status of our response to your radar.

We have decided to go ahead and include the end user government per-ambulation (COP) indicator into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast all gas production in our field office. We are close to having the production estimate sent to us.

With the upcoming COP indicator, we will have more information to provide to you.

If you have any questions, please let me know and I will be happy to assist them.

Happy New Year!

Chad

Thanks for your patience and I look forward to hearing your office's thoughts once we provide these responses.

Q34

Based up from the meeting, Met with MMIO, WSD10, WSD10 on Oct 4 to discuss lands with wilderness characteristics issues. Thanks again for meeting to discuss the Carlsbad Briefing. At that up, Chad will work with Sally and Melanie on updating the briefing information related to lands with wilderness characteristics information related to WSR capability and also be included either verbally or in the powerpoint presentation. New Mexico to provide information in January for WSD10 review. Cleared with MM on 01-20-07 at 10:05.

To: Jay, Mrs. Kelly, Emily, Christopher
Hi Emily,
[REDACTED] and I are reviewing the RMP and we are making a few adjustments to the memo response. We are also close to completing the GIS and user estimates.
[REDACTED] sent a list but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!
Chad

Here's an email about the status of the WGA known that WGA had not received the information. Field Office staff have directed the contractor to make the changes that WGA had (and Lane Tompkins of the MTCO) had recommended.

Let me know if you need anything else.

Pat

To: Mr. Kelly, Mr. Christopher

Hi Kelly,

In mid-December we drafted State Director Amy Lander's response to your letter regarding a few adjustments to the memo response. We are also close to completing the GDS and user estimates.

The holidays have slowed us down a bit but submitting the response to your office priority remains high on the priority list.

Thanks again for your patience.

Happy New Year!

Hi Kelly,

No further at all on asking about the status of our response to your letter.

We have decided to go ahead and include the end user's response into the BAP and this effort is taking some time due to the complexity involved in generating current and forecast wildlife production in our field office. We are close to having the production estimates sent to it.

With the upcoming holidays it may take a few weeks before we are able to have this done.

If you have any questions, please let me know.

Thanks,

Chad

Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:

"BLM's 30 million-acre National Conservation Lands System."

With this:

"BLM's 35 million-acre National Conservation Lands."

Thank you,

[REDACTED] na
