[GSENM DRMPA WO410 Review Summary 032817.docx](#)

National Conservation Lands, your review is requested by April 4 of DTS# 1471, NOA of the GSENM draft Monument Management Plan amendment and DEIS. Please provide feedback using the suggestions made in the documents shared with you in google drive. The NOA package materials focus discussion on the GSENM, refer to WSAs (NOA BP), and are silent re: lands with wilderness characteristics, wilderness, WSR, and NSHT.

A few comments on the NOA BP:

- item #3 suggested identifying the benefits to permittees from the amendment including an adequate framework for future administration and improved land health.
- item #7 commented that WO410 records show 40% of the planning area is WSAs (rather than "over half of the GSENM" as described in NOA BP).
- item #11 asked for an explanation of the relationship between the Utah HB382 and the draft GSENM amendment.

WO410 follow-up comments on the GSENM draft amendment/DEIS were provided to WO210 on March 28. A summary of the WO410 GSENM review is attached. Please let me know if you have any questions. Thanks.
