Received: 2017-07-24T12:03:05-04:00

Cindy,

We have received Cynthia Hernandez's final edits for the GSENM Story Map. (b)(5) DPP [REDACTED]

[REDACTED]

[REDACTED]

We would like to finalize the Story Map and submit it for publication this week. We want to make sure you're okay with it. If you have any further edits, please let us know in the next day or so.

Thanks, Kevin

Rapid Ecoregional Assessments (REAs) are part of BLM's Landscape Approach. REAs examine ecological values, conditions, and trends within ecoregions to improve understanding of existing landscapes and likely effects of climate change and other wide spread changes in the biophysical environment and land uses.

Hi Cynthia:

We aren't expecting any further changes from Cindy (or the Nat'l Monument Staff), as we have met with them in a meeting and received feedback via email and already incorporated their "suggestions". We included them in the email to you as a courtesy to let them know we are done, and to enable them to take one last look at how we handled their feedback. Unless something appeared to be glaringly wrong we don't expect to hear back from them since what they gave us were only suggestions, we incorporated their change, and we were at the final stages in the process already. Although that being said, I don't see your suggested changes attached. Did you add them to the document Alisa sent?

Hey folks,
I have a couple of edits (attached) but I'll wait until Cindy gives approval on her level, and then I'll go ahead and take it from there. Happy to walk you folks through these changes now, but in case Cindy has any further edits it might be best to wait until she's done to proceed.

Thanks,

Cynthia

Yes, I agree we can make all the changes once we hear back from Cynthia (& Cindi) for final review/approval feedback. At this point in the process I'm anticipating only one more round of very minor changes/edits/corrections.
Looking forward to hearing from Cynthia very soon.

Best,...~Kris

Kris, Good catches. I agree we should make these corrections. I wonder whether we should wait until we hear back from Cynthia and Cindy: I'm hesitant to make any changes while they are still reviewing it, and as you say, I suspect there may be more. Thanks,
Kevin

Alisa, This is great--thanks for sending it out.
Danelle, Thanks for checking on the sensitive data questions.

Thanks to all three of you for your work on this! Glad it's back in their court--we'll see what they say.

Kevin

Thanks Alisa! Glad to see this has finally reached Cynthia Hernandez's desk! (Thanks to Danelle too, for the sensitive data and disclaimer/constraints check)

At this point I hope any additional feedback is all positive! ??

Hi Cynthia and Cindy,

Kevin, Kris, and I have finished reviewing all suggested revisions to the GSENM. We were able to incorporate almost all of the suggestions and have updated the GSENM story map accordingly.

Please review the GSENM story map via the application, as this will help in reviewing the flow and interaction of the story map:

<http://blm-egis.maps.arcgis.com/home/item.html?id=cef9f6d254d1487ab71c82cefc766975>

Once your review is complete, please reply and let us know if you approve it for publication. Let us know if you have any questions.

For reference of where updates were made, attached is the Word document I have been using to track the revisions.

Appreciative of your time.
