Steve,

We spoke briefly yesterday about pulling together information about the paleontological objects found in the Grand Staircase Escalante monument and whether (b)(5) DPP [REDACTED]

[REDACTED]. Additionally, maybe some supporting documents about the (b)(5) DPP [REDACTED]. I am focusing on the middle section of the monument which I believe is called the Kaiparowtis section and is protected by the Wahweap, Devils Garden, Burning Hills, Carcass Canyon and Death Ridge WSAs. I understand you both did a similar exercise for the Bear's Ears Monument. I am on a tight deadline to compile all of this information so whatever you can provide by the end of the week would be great. Thanks so much!
