Hi Nina and Peter, Lawrence is recommended for OTIS 1138, NCA for the Southeastern States PRMP/FEIS. WOIS2 reviewed the RMP and there are no outstanding issues. The planning area contains the higher order Lighthouse (NAN/NCSC, NWA, and NWS). The WOIS2 SP can be found at: <https://doi.google.com/>  
Comments provided on the Federal Register Notice include the notice should cite the RMP establishes National Trail Management Considerations for segments of the Potomac National Heritage Scenic Trail and the Washington-Rochester Revolutionary Route National Historic Trail, and suggested adding to the notice that it either note package contents.  
The NAW/NCSC program reviewed and doesn't have comments on the notice package. The NAW/FEIS program concurs with the FEIS comments. Call is an OTIS haven't heard on the NWA program but it should be fix with the language added to the NWA on the stipulations described above. No wayway that the NWA at  
Please let me know if additional information is needed.

To: Steve Hedder, Ryan, Nina, Carol  
Thanks for the update!  
Is NWA included in the meeting with Eastern States? Since the OMA is a National Conservation Lands unit, NWA should be included in discussions in the NCSC meeting.

Thanks,

Britta Nelson

Hello Britta,

WOI comments were addressed and the brief was done. So, all briefing took place. There were some issues regarding one-tipping designations between recreation and NWS. Additionally making sure that the purpose and need statement captures the spirit and content is also essential. I think Eastern States is working internally to  
improve that of where the Federal Register package, 10 and we address that the issues raised at the all briefings are addressed. We will need help and support from NWS in well we will keep you in the loop regarding any further developments.

I will keep you updated.

All the best,

Steve

Hi Nina, Lawrence is recommended for OTIS 1138 Notice of Proposed Supplementary Rules for Components of the Ancient National Monument. The NAW/NCSC and Wilderness programs reviewed the Notice package and responded with no comment.

The proposed supplementary rules would result in changes to some currently authorized activities related to collecting geologic and biologic information, commercial fishing and photography, recreational shooting activities, geocaching, climbing, camping in archaeological sites, and forest management.

Thanks,

Nelson, Krista (krista@blm.gov)  
Nov 03 (2 days ago)

to Farkle  
Hi Farkle, I am working on the EIS package for the NCL for St. George/Beaver Dam Wind/Had CDFW and can't tell from the notice package what the decisions are. Were there changes between the PRMP and approved plan for the NCLs, both with wilderness characteristics, or NMT?

Thanks,

Krista Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL-400)  
Bureau of Land Management  
800.226.6100

Hamedani, Farkle  
Nov 02 (2 days ago)

to Parsons, Heather, me  
We look to you with NCLs currently if there's no changes between the PRMPs and the NCL, once project resolution hasn't concluded and the Governor's Approval period hasn't ended yet (mid Dec. 15).

That said, Pam, I see you please let Krista know (and copy me) if the both NCLs as they currently stand contain any changes between the PRMPs and NCLs for the NCLs, both with wilderness characteristics, or NMT?

Thanks,  
Farkle

Hamedani, Pamela  
Nov 01 (2 days ago)

to Farkle, me, Heather  
There are no anticipated changes between PRMP and NCLs.

Hamedani, Farkle  
Nov 02 (2 days ago)

to Parsons, me, Heather  
Thanks Pam.

Krista, please review and summarize the NCL packet with this assumption that there'll be no changes between PRMP and NCLs, and I will notify you if anything changes based on project resolution or a possible Governor's Approval.

Thanks,  
Farkle

To: Kelly, NMS, Heather, Sally  
Hi Kelly, we wanted to let you know NMSI provided a comment in DTG.

Please add to the briefing paper under Item 2 that transportation management and protection of desert tortoise habitat to help meet obligations under the Washington County NCP were also identified as issues.

For the FRN, I have also noted that the final GPO/NCA Agreement BMAP includes an avoidance area that allows for the consideration of a proposed northern transportation route and that any proposed route must meet criteria specified in the Agreement BMAP and be consistent with OPAMA's conservation purpose for the NCA, and 2) 1).

Call: 124

Comment: Britta Nelson  
Hi NMS and Kelly, I am not recommending for DTG 1.007 NMS of 100 for the Proposed Gold Butte Mine Project, White Pine County, NV. Per the Notice BP, there are no lands with wilderness characteristics or units of the National Conservation Lands in the project area. I've noted this in a comment in DTG.

The Notice BP Item #12 states: "There are no natural monuments, national conservation areas, or other designations, national scenic or historic trails, wild and scenic rivers, wilderness study areas, wilderness areas or lands with wilderness characteristics located within the proposed project area. The BLM and BLM's National System of Public Lands (NSPL) are located within the proposed project area. The BLM is currently reviewing the proposed project area to determine if it is a potential candidate for designation as a National Conservation Area (NCA). The BLM is currently reviewing the proposed project area to determine if it is a potential candidate for designation as a National Conservation Area (NCA). The BLM is currently reviewing the proposed project area to determine if it is a potential candidate for designation as a National Conservation Area (NCA)."

The Notice documents are attached. Please let me know if additional information is needed.

Britta Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL) (NCL-400)

Call: 125

Comment: Britta Nelson  
Hi Kelly, this is in regard to our asking BLM to include in the FRN for the NMS for Eastern Interior that outstandingly remarkable values of the designated WBLs are being identified and suitability determinations are being made for eligible programs.

Does the language make sense to you?

Britta Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL) (NCL-400)  
Bureau of Land Management  
303.216.0149

Kelly, Kelly  
Nov 29 11:43 AM

To me, NMS  
NMS, Kelly,

I don't quite remember the specifics of our request for the FRN but provide the following as a quick response:

The Proposed BMAP Final EIS considers the lands to be eligible for potential designation as WBL and Scenic Rivers, but the NMS do not determine them to be suitable for designation as WBL and Scenic Rivers, instead protecting them through other means.

Thanks!

Call: 126

Comment: Britta Nelson

On Tue, Nov 29, 2016 at 12:33 PM, Nelson, Britta <brittan@blm.gov> wrote:  
Hi NMS and Kelly, with the following feedback, comment of DTG 1.007 NMS of 100 for the Domingue-Escalante NCA is recommended. I moved the package and found it is consistent with our latest BP on the FRN/DTG (attached). I haven't sent the package to the program for review but can if you'd like.

The Communication plan addresses WBL, NMS, wilderness, lands with wilderness characteristics and other management of the NCA.

The FRN is clear on these areas as I added a comment: "These include in the FRN that the Approved BMAP makes suitability determinations for WBL, establishes a national trail management corridor for the DNE Spanish Trail, and makes decisions on the protection of lands with wilderness characteristics."

The BP does not address the target shooting closures but I am not sure if that is required. Let me know if it should be added.

The BP identifies all items except for BMAP as I added a comment to "These include in the briefing paper that a national trail management corridor will be established for the DNE Spanish Trail."

The only other item is some of the NMS notes mention address the public utility corridor along Highway Camp/Highway 141 as well as not sure if it should not that this should be included in the notice briefing documents or FRN.

The notice documents have been shared with you. I haven't updated them into DTG yet so I can make sure to include your feedback and the programs I noted. Let me know how you would like to proceed.

\*\*\*Thank you\*\*\*

Hi Britta - The short answer to your followup question is "Yes". We are currently drafting alternatives for our RMP revision, in which we will make those decisions on (NCLs). But decisions on (NCLs) have not been made for this area at this point because our RMP is not (NCLs) for the area of the Arctic Road project.

Review of the Land Exchange and possible comments:  
  
1) The land exchange moves BLM lands to the Agua Caliente Band of Cahuilla Indians within their reservation boundary that is also within the 100,000-acre boundary. The land exchange provides key reservation lands outside the reservation boundary but within the monument boundary to the BLM providing a larger core  
  
2) The current BLM lands being exchanged are isolated and the only way to gain access is through reservation lands and Agua Caliente permits. The exchange will allow more consistent jurisdiction of the lands by the Agua Caliente, but do not change how the lands will be managed in the future. These lands are  
  
3) The new BLM acquired lands will provide a larger tract of land considered as lands having wilderness character all within the monument. These lands will also have a more consistent recreation use and improves management of these lands as identified in the 100,000-acre  
  
4) These new acquired lands will prevent any potential development within the monument boundary. There is a currently a road connecting these lands but no right of way.  
  
5) The Monument Manager over the 100 use any negative long-term impacts from this Land Exchange.  
  
Best regards, [REDACTED]

Hi all,

The Exchange Decision package was approved on October 18, 2016. Since this is an EIS land exchange, an additional review for submission of the NINA into the NINA is required. The NINA/NDZ package has been submitted into EIS and is currently being reviewed by NINA. Estimated date of publication is unknown.

Publication of the NINA/NDZ into the NINA and local newspapers will initiate a 45-day protest period. After the protest period and absent any protests, the NINA/NDZ would be completed.

No other major accomplishments or issues to report this week.

NOTE: Please let me know if there is anyone that needs to be included or removed from the list of people receiving these reports. Thanks!

WD NINA Review Process:

Below is a list of all offices, as identified in EIS, for review of the NINA/NDZ (offices that have completed their review/timeline are marked with X).

WD-400 Regulatory Affairs (Completed 1/10/2017)

WD-410 Land Tenure (Completed 1/10/2017)

WD-420 NINA Review (pending)

WD-430 Regulatory Affairs

WD-440 Public Affairs

WD-450 Regulatory Affairs

WD-460 Public Affairs

WD-470 Minerals and Energy Management

WD-480 NINA and Community Partnership

WD-490 Communications

WD-500 BLM Director Office

WD-510 Regulatory Affairs

DOI Assistant Secretary (Land/Minerals)

DOI Regulatory Affairs

WD-410 Regulatory Affairs

Next Steps:

\* NINA/NDZ published (45 protest period begins)

\* If no protest, EIS/NDZ

\* Final EIS/NDZ completed

\* Final EIS/NDZ signed (45 protest period)

Approved Values and Equilibrium: Date of Review 1/10/2017

Non-Federal Lands: \$45,000

Federal Lands: \$750,000

Costs/Equilibrium to be paid by BLM (2017) (Funds): \$25,000

Current Plan for the Month:

\* Next Steps: Coordinate with EIS/NDZ on NINA/NDZ Package

Exchange Overview:

- This exchange involves disposing of 1,540 acres of Federal land to the Agua Caliente Band of Cahuilla Indians in exchange of 1,471.39 acres of non-Federal lands.
- All of the lands involved in the exchange are located within the Santa Rosa and San Jacinto Mountains National Monument, Southern California Desert District.
- The Agua Caliente serial number is CA-6262P(30).

Exchange Decision Phase Accomplishments:

Final Finding Draft EA (completed Mar 2014)  
EIS Review Draft EA (completed April 2014)  
Final Finding Draft EA/NEPA for AG review (completed April 2014)

Quinta -

#### Review of the Land Exchange and possible concerns

3. The two exchange tracts being exchanged by the Ogishwa Cattle Brand and its future assignees have been surveyed by the USFS under the USFS/BLM boundary. The BLM exchange parcels were inventoried under the Ogishwa Cattle Brand, but with the monument boundary to the BLM providing a larger context.
4. The new exchange lands being exchanged to include the two-way gas leases from the three mountain boundaries and Ogishwa Cattle Company's. The exchange will also encompass jurisdiction of the lands outside the monument boundary, but not change the lands that are managed in the future. These lands are:
- a. The new BLM acquired lands will provide a larger tract of land considered as lands having wilderness character of within the monument. These lands will also have a more consistent recreation use and resource management of these lands as identified in the USFS/BLM FMP.
- b. These new acquired lands will present any potential development within the monument boundary. There is currently a state transiting these lands, but no sight right of way.
- c. The Mountaineer Manager uses the FID use any negative long term impacts from this Land Exchange.

Sent maps yesterday - let me know if you require any additional information or questions for the briefing

Please review DFL 1347-NEI for Supplement to the Draft NEI for the Southern Nevada District (Las Vegas) and Palomero Field Office and Gold Butte National Monument

2/13/14

Wilson, Dennis <dineen@blm.gov>  
Apr 14 '17 (4 days ago)

to Timothy, Robert, Carol, Deborah, Kelly, Peter

National Conservation Lands, your review is requested of OTFR 1261, NOL for the Supplement to the DRMP for the Southern Nevada District (Las Vegas and Primm) and the Gold Butte National Monument. Please provide feedback in the notice document in google drive using the "suggestions" mode by April 18. I reviewed and provided some feedback on the notice document.

The communication plan has been updated to include references to the 2012-2020 master plan rather than the 2010-2014, with a comment that this approach (combining plans with separate RSCs) is specifically identified in a planning update in BLM Memo 6205.

The NCA discussion has been updated to include a comment on the revision of Section of Order 3340, Improving Mitigation and Protection of the Department of the Interior, affects this.

On the notice briefing paper, a participation error was corrected and a comment was made asking for the briefing paper to identify the units of the National Conservation Lands that are in the planning area.

Correction was made to a NAD-20 reference in the briefing memo.

Made a comment in the briefing memo to please identify the public mapping and overall engagement process that will focus on parties interested in GDM.

Made a comment in the briefing memo asking if government lands have been identified for the GDM and if they should be listed.

As a reminder, a signed and dated NAD-20 meeting with Nevada and WDC.

A revised Briefing Statement for the Federal Register NAD package will be sent to the WFO and will include a specific section highlighting the public mapping and overall engagement process with a focus on parties interested in GDM and will note the WDC/BLM/OTFR/Nevada meeting held to discuss the completion of the NAD-20 with BLM and incorporate GDM issues within the Special Management Plan of a NAD.

GDM will have a separate Record of Decision.

Additional field work for lands with wilderness characteristics will occur in the Gold Butte area.

Call 121  
Comment to the Nation  
National Conservation Lands, your review of OTFR 1212, NOL of the Cedar City DRMP (NAD), is requested. Please provide feedback by April 21 in the document shared with you in google drive using the "suggestions" mode. For reference, the WDC/BLM for Cedar has also been shared with you.

I reviewed the NAD package and added a comment to the NAD-20 (Item # 12), asking the BLM to identify the units of the National Conservation Lands located in the planning area and to specify that lands with wilderness characteristics are in the planning area. Also, the NAD specifically addresses lands with wilderness characteristics.

Thanks,  
Britta Nelson

I reviewed the NCR package and added a comment to the NCR BP (item # 11), asking the BP to identify the units of the National Conservation Lands located in the planning area and to specify that lands with wilderness characteristics are in the planning area. Also, the NCR specifically addresses lands with wilderness characteristics.  
Thanks,  
Britta Nelson

Subject: Updated Review Requested: NCR of the PRMP APTC for San Juan Desert National Monument  
To: Sally (sally@blm.gov), "Carl, Deborah" (cdebora@blm.gov), Timothy Palmer (tpalmer@blm.gov), Robert Wick (rwick@blm.gov)  
Cc: WDCS/BLM (wcds@blm.gov)  
Hi Sally, an expedited review is requested of DTEP 1501, NCR for the San Juan Desert National Monument PRMP APTC. The notice documents have been shared with you in google drive. Please provide feedback using the "suggestions" mode by COB tomorrow, May 19. As a reminder, the DDMR PRMP APTC is core.  
I reviewed the notice package and made the following comments:  
Communications Plan:  
- included action in the background section that the ruling based the decision to allow recreational shooting throughout the DDMR to protect the resources, objects, and values (ROV) of the DDMR.  
- added a communication goal to communicate that shooting is prohibited on public lands and public safety.  
- suggested adding those who challenged the original plan to the list of stakeholders.  
- suggested adding that BLM meets the requirements of the court order to the list of key messages.  
DNL  
- suggested adding that the amendment addresses the requirements of the ruling.  
- suggested adding that AGO would protect NCR and public health.  
AGM Briefing Paper: Under the description of the agency proposed alternative, suggested adding that AGO meets the requirements of the court order.

Hi Sally, currently I'm recommending of DDFP 1104F Notice of Closure, Kaibito National Monument. I did not make the notice package to the program but can if necessary.

The notice materials indicate the Monument would be closed to the public on twelve day each year to allow for Pueblo de Cochiti cultural observance and BLM scheduled maintenance activities. The closure will remain in effect annually until further notice is posted in the Federal Register. The DO-7384.

The notice documents are attached. Please let me know if additional information is needed. Thanks.

Hi Sally,  
3:34 PM (30 minutes ago)

Hi Britta, I'm sorry, I'm not  
Just returned. I repeated your WSA comment in my comment in the comment section.  
Thanks, Sally

On Thu, Jun 8, 2022 at 1:07 PM, Nelson, Britta <brittan@blm.gov> wrote:

Hi Sally, currently I'm recommending of DDFP 1104F, NCL of the DDFP (DCL) for Cultural (Cultural) with you. An edit was made to the FPM, adding wilderness characteristics to the list of issues addressed by the plan. The updated FPM has been updated into DCL. A comment was made in the DCL comment box to please add to the WSA/1104F as Cultural has been shared with you.

WSD12 indicated that the NM State and Forest office are in communication regarding changes in alternative C, preferred alternative. NM SO thinks that since there are no changes in the NMA notice about alternatives, NCL is not going to change with the modifications that they plan to do and wanted the NMA to

Please let me know if you have any questions. Thanks.

Irrespective of where the Federal Register package is, SO and we will ensure that the issues raised at the AD briefings are addressed. We will need help and support from 400 as well. We will keep you in the loop regarding any further developments.

☐ I will keep you updated.

Silva

Hi Shiva, I was hoping you could provide some information on the Southeastern States PRMP/FEIS. WOI10 has the NOA for the Southeastern States PRMP/FEIS in DTS. There are remaining issues that were to be worked out by Eastern States, WO100, and WO103 but I am not sure if these discussions have not occurred yet.

Thanks!

Cc: Nikki Moore <nmoore@blm.gov>

Hi Ryan, I hope you are well. W04 10 has the NGA for the Southeastern States PMPT/ETS in OYS. There are remaining issues that were to be worked out by Eastern States, W02 10, and W04 10 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Thanks,

Walter Bantz,

WD comments were addressed and Pre-brief was done. So, AD briefing took place. There were some issues regarding overlapping designations between recreation and ACSG. Additionally making sure that the purpose and need statement captures the spirit and content is also essential. I think Eastern States is working internally w

Irrespective of where the Federal Register package is, SOand we will ensure that the issues raised at the AD briefings are addressed. We will need help and support from 400 as well. We will keep you in the loop regarding any further developments.

☐ I will keep you updated.

 Subject: Check in on Southeastern States PMS@FIS  
 To: Ryan Hathaway <rhathaway@bim.gov>  
 CC: Nikki Moore <nmoore@bim.gov>

Hi Ryan, I hope you are well. W0430 has the NDA for the Southeastern States PMPP/VGIS in DTS. There are remaining issues that were to be worked out by Eastern States, W0230, and W0430 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Thanks,

## 9 Issues:

1. The mitigation measures are implementation/development actions as per enforcement controls, and visitor outreach, rather than measures to address mitigation of impacts.
2. It is not clear how RCVN in the Desert Coast Recreation Management Zone (RCMZ) would be protected in the preferred zone recreational target should use is expected to move/increase there when the San Rafael de Arcos (SRA) RMCZ is closed to shooting.
3. It is not clear how the original conditions of RCVN from 2012 would be restored. If they are still damaged and outside of the 15% closed area, how is the current management being accounted for? Is the assumption that they have recovered? Also, outside the 15% that is closed, what is the science for the 15%?
4. The rationale for leaving the area open to recreational target

Interview: Britta Nelson:  
Review Kick-off

- [illegible]

National Conservation Lands, a WO admin review of the Cedar City DRMP/DGS is scheduled for January 30 through February 4 with a kick-off briefing scheduled for January 18. After receiving the review file from WO210 I will share them along with a WO450 comment form on google drive. The WO450 Briefing Paper

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

1. **Link** with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

An decision made for all lands with wilderness characteristics within the planning area?

Is a table included for decisions to (1) emphasize other multiple uses, (2) manage other multiple uses while upping management intention to reduce impacts to wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes acres inventoried, acres found to have wilderness characteristics, acres and the percentage of lands that fell within each of the categories included in BLM Manual 420, which include: (1) protection of lands with wilderness characteristics is a priority over other uses, (2) emphasizing other uses that wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Suitable WSR	
Did the FO complete all eligible inventories consistent with current policy requirements (MFS 6400)?	
Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M6403?	
Are suitability/incompatibility decisions made for all WSR-eligible streams in the planning area?	
Is the WSR Study Report included as an Appendix and is consistent with current policy?	

**National Scenic and Historic Trails**  
Is the national trail management corridor allocation included in the alternatives?  
Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

**Other RMP Issues**  
Does the RMP include any unique issues (e.g., associated settlement agreements) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?  
How do the unique issues or background affect the alternatives?

Cedar City\_04MPO15\_W0410BP\_032015\_final.docx

**WO Review Kick off Briefing: Cedar City DRMP (2/1)**

The WO admin review period for the Cedar City Draft DRMP (2/1a) will run from January 30 - February 6, 2017. To help inform your WO admin review, please attend this briefing for an overview of the Cedar City Draft DRMP. I will send the DRMP and presentation material in subsequent emails. Please let me know if you have any questions.

 Review kick-off briefing held on 10-10-16

National Conservation Lands, a WO admin review of the GSNM BMP A/DGS is scheduled for January 30 through February 20 with a kick off briefing scheduled for January 31. After receiving the review file from WO210 I will share them along with a WO410 comment form on google drive. WO110 commented previously and Rob, can you provide answers to each of the following questions from your review of the GSNM BMP A/DGS to help guide WO410's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMAP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

How does the State Director bring information on BMAP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

**National Monuments, National Conservation Areas and Similar Designations**  
 If this is a combined RMP, is there a unique set of decisions specific to the NM/NCA?  
 Does the RMP identify the resources, objects, and values (ROV) for which the NM/NCA was designated, and how those ROV will be managed?  
 Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM/NCA?  
 Are new utility corridors or ROV in the NM/NCA identified as exclusion or avoidance areas?

1. Link with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is a table included that summarizes across inventories: (a) how lands with wilderness characteristics, areas and the percentage of lands that fall with each of the categories identified in BLM Manual 533, which include: (i) protection of lands with wilderness characteristics as a priority over other uses, (ii) emphasizing other reports to wilderness characteristics, (iii) minor and wilderness character will be maintained?

Eligible and Viable WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (MS4400)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from MS400?

Are suitable/unsuitable decisions made for all WSR-eligible streams in the planning area?

Is the WSR Study Report included as an Appendix and is consistent with current policy?

**National Scenic and Historic Trails**

National Conservation Lands, a WFO admin review of the GSDM DRMP ADDS is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 11. After receiving the review files from WFO2101 I will share them along with a WFO2102 comment form on google drive. WFO2102 comment previously  
Allison and Rob, can you provide answers to each of the following questions from your review of the GSDM DRMP ADDS to help guide WFO2101's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the DRMP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the DRMP that do not exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Are the State Director team lead and DRMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, rights and suitable (per designations) WMA and Science Based agreements, and trails under study or recommended as suitable for designation?

National Monuments/National Conservation Areas and Similar Designations

If this is a candidate DRMP, is there a unique set of decisions specific to the NACNCA?

Does the DRMP identify the resources, objects, and values (ROVs) for which the NACNCA was designated, and how those ROVs will be managed?

Are all land use planning decisions in the DRMP consistent with the purpose and objectives of the designating proclamation or Act of Congress that established the NACNCA?

Are new rights considered or ROVs in the NACNCA identified as exclusion or avoidance areas?

Lands with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included in the background?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is information included for decisions to: 1) implement other multiple uses; 2) implement other multiple use while applying management restrictions to reduce impacts to wilderness characteristics; and/or 3) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes some inventory, some found to have wilderness characteristics, some and the percentage of lands that fall within each of the categories identified in BLM Manual 630, which include: 1) protection of lands with wilderness characteristics as a priority over other uses, 2) emphasizing other values impacts to wilderness characteristics; all uses and wilderness character will be maintained?

Eligible and Suitable WMA

Did the FO complete WMA eligibility inventories consistent with current policy requirements (BLM 6400)?

Did the FO complete suitability evaluations and determinations for eligible streams using factors and criteria from MMS007?

Are suitability/unavailable decisions made for all WMA eligible streams in the planning area?

Is the WMA Study Report included in the Appendix with 1) conditions, with current plan?

For segments determined not suitable, do other resource allocations protect the river values, and/or is a release provided for not protecting the river values especially if implementation of the DRMP will degrade or eliminate those river values?

National Science and Historic Trails

Is the National Trail management corridor allocation included in the alternatives?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purpose of the trail?

Other DRMP Issues

Does the DRMP include any unique issues (e.g., associated settlement agreement or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?

Excludes the river values or background affect the alternatives.

Please let me know if you want to start discuss. Thanks. Bette

Thank you, Sally. I'm sharing your clarification with the Monument staff.

Nathan, 8:05pm 4/16/2017  
Apr 14 (7 days ago)

To: Timothy, Sally  
Looking like it is on the latest on GSDM "Incubator" language since our discussion on this yesterday. Sorry again for not copying Tim on my original note to Ryan.

Kathy, Sally  
Apr 14 (7 days ago)

To: Tim, Timothy  
And Tim, my apology too for not catching that I missed you on the cc.  
Thanks Kathy for catching that!

Yes, let me know if you have questions.

Kathy, Sally  
Apr 14 (7 days ago)

To: Ryan, Andy, Matthew, Cynthia, me, Niki, Ryan, Timothy  
Thanks, Ryan. Just wanted to let you know "Incubator" is the timing of my email. I wasn't "Incubator" - Sorry about that...must be time for the weekend!

Have a good one, Sally

Kathleen, Cynthia  
Apr 14 (7 days ago)

To: Sally, Ryan, Andy, Matthew, me, Niki, Ryan, Timothy  
All

We would like to propose language for the Drafting Paper and section 3.3.1 of the EIS that would easily clarify the issue. This involves changing the words "Incubator" to "Incubation with". Throughout the document, including the Program and Bond section 3.3.1 and section 3.3.3 we use the word "Incubation" in the BP and 3.3.1 would read:

Given that the Proclamation provides the BLM with the discretion to coordinate livestock grazing consistent with managing objects identified in the Proclamation, Alternative C provides a balance of livestock grazing that recognizes the importance of consulting with the local custom and culture with managers.

Let me know if this will work with everyone.

Thanks!

Chat with Ryan Matthews  
Ryan Matthews  
Friday, April 14, 2017 10:25 AM  
Ryan Matthews  
can you and ally meet Monday to go over GSDM with the field?  
Kathy Matthews  
About our comments?  
Ryan Matthews  
yes, just to help expedite the changes, so they fully grasp them.  
Kathy Matthews  
if only to Ryan, the you and field could do it!  
Kathy Matthews  
John Dunning  
re Ryan meeting on Monday sounds good. If there's discussion about the "Incubator" issue, we should have a separate meeting with the regional GSD, also. The Value Statement Load should be included in the meeting notes. Thanks!  
Ryan Matthews  
Looks good!  
Monday, April 17, 2017 11:47 AM  
Kathy Matthews  
Do you think we still need to meet this afternoon or GSDM? It looks like there's just one item left but not sure we need to meet about it.  
Ryan Matthews  
I had to call you, call the back whenever!  
Kathy Matthews  
on the line with Sally, will call after  
Ryan Matthews  
oh, if you don't need a call and are good with it? responses, I'm good to wait!  
Kathy Matthews  
We are good with GSDM's responses. Thanks Ryan!  
Ryan Matthews  
no problems, meeting canceled!  
Ryan Matthews

To: Eric <moore@blm.gov>, NMA <moore@blm.gov>  
Cc: Leah Quenberry <quenberry@blm.gov>

Hi Leah and Eric,  
I rearranged and edited the response to NMA's question on the 4/10 comments document. I don't know if this helps anyone understand our response, but I just felt the need to do it after the briefing today. I haven't sent it to Andrew or NMA.

2. We would like to better understand how over 50% of the soil can be damaged by wildfire and at a level to reduce the breeding habitat for sage grouse by 50%, but grazing is only being reduced by a few hundred acres. We would like to see stronger rationale on how fire over time and soil and grazing?

Response: This does not rely upon "the existing wildlife resource threat" and "success rates of restoration efforts." These were goals in the original 2007 Plan and the National Fire Health Plan, and these are still in effect. But they are outside the scope of this currently focused plan amendment. Restoration efforts are usually more slow, reduction in livestock grazing is required to free it to not crowd out planning and decision. Grazing management after a fire is a site-specific endeavor, and is not appropriate for a broad-scale LUP decision. This work is done under the guidelines of Emergency Rehabilitation and Restoration Plans and is outside the grazing strategy required after the rehabilitation work and is not allowed on a broad area until desirable grasses and/or forbs have been re-established, typically two or more growing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once livestock is not within any of the plant communities of the Monument do both riparian, forested grazing is not the causal factor for this. Reducing livestock would not have the effect of restoring riparian. Please see the discussion on Vegetation Condition in Chapter 3 of the RMP.

Planning efforts are always contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be significant effort to implement any plan the BLM selects and publishes.

Note: I'm inaccurate on any of this.  
Thanks,  
Eric

Call Files  
Comments to Eric Nelson:  
Nelson, Eric Nelson@blm.gov  
Apr 2013 file kept  
  
to Timothy  
I dug through the amendment and don't see a direct relationship between fire and hawthorn (per Kelly's question). But there are a few places where an association is described:  
  
Ch. 3 Special Forest System, p. 133-134  
Nelson then lists 100 forest approximately 10,000 acres of the Monument, including areas identified as providing suitable components of essential sagebrush habitat. Adjustments to habitat delineations as a consequence of these fires has not been completed. Adjustments to habitat delineations were not completed because BLM feels the site-wide data assessments to substantiate changes in herbaceous components.  
  
Wildfire has resulted in a lack of sagebrush cover, and is largely responsible for habitat not meeting the essential requirements for sage grouse in many areas of the monument. Specifically, the areas identified as suitable for breeding habitat in the Monument, 75.3% of the sites were found to be unsuitable due to herbaceous cover, and a lack of sagebrush was a contributing factor on all within the Monument identified as unsuitable for breeding habitat. 1.0% of the sites were solely due to low herbaceous cover, and a lack of herbaceous cover was a contributing factor on 37% of unsuitable sites, including the aforementioned 20% herbaceous grazing by domestic livestock during the late 1980s and early 1990s, coupled with severe drought, has significantly impacted sagebrush encroachment (Brock et al., 2005). Long-term effects from this overgrazing, including changes in plant communities and soil, persist today (Brock et al., 2005). Degradation costs establishment and spread of invasive and invasive plants (Jain & Smith, 2008).  
  
Livestock grazing, "to the Antelope Island"  
Ch. 3, p. 200-201. Crown design is hawthorn grazing in the Monument are likely, as both the BLM's and operator's management drift over time, based on resource considerations and business needs. Some reasonably foreseeable scenarios that may change hawthorn grazing for the operation are changes in permitted use, c temperatures and wet springs, or changes that may need to occur during monitoring and data collection.  
  
Within the Monument, vegetation communities are influenced by hawthorn grazing management, wildfire, rehabilitation efforts, fuel load projects, and climate. All contribute to other vegetation communities indirectly affect hawthorn grazing. These influences all interact to affect changes in the vegetation communities, and thus the longer term for hawthorn grazing.  
  
Appendix C, Idaho and Southwestern Montana Greater Sage-Grouse Approved Resource Management Plan Amendment Attachment 5 – Chapter 2, and Regional Design Feature p. 353  
Nelson is an excerpt from Chapter 2 of Attachment 5 of the Idaho and Southwestern Montana  
AGM for reference purposes. The guidance in this document is consistent with the Idaho National Monument Final Plan Amendment attachment.  
For  
vegetation and successful establishment of planted species within hawthorn areas, all new seedlings of grasses and forbs should not be planted until at least the end of the second growing season, and longer as needed to allow plants to mature and develop robust root systems which will stabilize the site, compete effectively against pathogens and other invasive animals, and ensure sustainable under long term grazing management. Adjust other management activities, as appropriate, to meet ES objectives.  
NPS FWS 31. Adjust, as appropriate, hawthorn management on adjacent unburned areas to mitigate the effect of the hawthorn fuel loading operations.  
NPS FWS 31. Following seedling establishment, modify grazing management practices if needed to achieve long-term vegetation and habitat objectives.  
NPS 16.1. Monitor existing areas designated as suitable or unsuitable for hawthorn grazing during active hawthorn grazing within the growing year of use for changes at the local scale. Through the number of hawthorn available on an allotment may be adjusted based on site-specific conditions to meet management objectives during the growing season, including, but not limited to, ADP development, or other appropriate management or planning, including, but not limited to, temporary

Unless you have further feedback, I will let WD2222 know we have no further comment on the prep plan. The response to WD comment, the updated prep plan, and the WD2222BP have been shared with you.

NINA and ELC,  
I forwarded and edited the response to NINA's question on the EIS comments document. I don't know if this helps anyone understand our response, but I just felt the need to do it after the briefing notes. I haven't sent it to Andrew or NINA.  
1. We would like to better understand how over 10% of the unit can be damaged by wildfire and at a need to reduce the breeding habitat for sage grouse by 50%, but grading is only being reduced in the preferred alternative by a few hundred miles. We would like to see stronger rationale on how the reduction in breeding habitat is required to meet the unit's management plan. Grading management after a fire is a site-specific endeavor, and is not appropriate for a landscape-scale LUP decision. This work is done under the guidance of Emergency Stabilization and Restoration Plans and is outside the plan. Grading is always restricted after fire stabilization work and is not allowed on a burned area until desirable grasses and/or forbs have been re-established, typically two or more growing seasons. To date, previously burned areas have been seeded if the native plant community was not able to recover naturally. Once Swetsick is in place, many of the plan's constraints of the Management do not apply, but grading is not the causal factor for this. Removing Swetsick would not have the effect of reducing degradation. Please see the discussion on Vegetation Condition in Chapter 3 of the EIS.  
Planning efforts are always contingent on available funding. There is never any guarantee of funding, but there is an understanding there will be a significant effort to implement any plan the BLM selects and publishes.  
Holler if I'm inaccurate on any of this.

6:17 PM (17 minutes ago)

To: Molly, Shari, Anne, Kelly, Peter, Robert, Deborah  
Hi Molly, Shari, and Anne - I thought I'd check in on the Missouri Snake BMD to see if there are any updates since we last communicated about the WDC back in September 2016. We have in our records that the BMD is preparing to amend four decision types including lands with wilderness characteristics and all

Thanks!

Comment: Ritita Nelson

- Missouri Snake BMD (NCL-400), Fortington, New Missouri (DNR 13422).
- On 05/10, the Missouri Snake BMD (NCL-400) is coming through the Department review requested by WDC. WDC/NWRS not listed on 05/10 (05/10) meeting although the DNR Snake BMD and wilderness characteristics are in planning mode.
- As the BMD BMD review forward (LH, development, impact analysis, etc.) WDC will participate to ensure that the National Conservation Lands units are adequately completed.
- The BMD is preparing a general four decision type of land, land, and water, riparian management, and land with wilderness characteristics.
- The BMD is preparing the DNR Snake BMD were identified during the preparation of 2014 BMD decisions for the BMD will not be made (outside the scope of amendment) but impacts to the BMD from all other decisions will be analyzed.
- The BMD is amending lands (general management, land, land, and water, riparian management, and land with wilderness characteristics).
- The BMD is amending the Fortington Forest (DNR 13422) impact to amend the 2008 BMD to account for impacts not previously considered in the 2008 Resource Management Development Planning (RMDP).
- The BMD is preparing a general four decision type of land, land, and water, riparian management, and land with wilderness characteristics.
- Land use planning (new decisions for other resources are outside the scope of this BMD as of 2014 BMD), however, all other affected resources and units will be analyzed (e.g., National Conservation Lands units that may be affected by amended cultural gas decisions).
- Potential impacts to the DNR Snake BMD were identified during the preparation of 2014 BMD (see BMD report).
- The BMD is preparing a general four decision type of land, land, and water, riparian management, impact assessment, etc.
- The 2008 amended BMD resources that the BMD is joining the effort as a joint land and BMD that the BMD intends to use the BMD to inform decisions related to BMD-managed resources.

Chalky is the response to WDC comment on Idaho Chalky/Salmon/Upper Snake prep plan and updated prep plan.

Nelson, Ritita <ritita@blm.gov>  
10:10 AM (1 hour ago)

To: Robert, Kelly, Deborah, Kelly  
Hi Kelly, just a quick check to see if you have feedback on the responses from Idaho to WDC comments on the Chalky, Salmon, and Upper Snake BMD prep plan.

After reviewing the responses and looking at the updated prep plan, questions I had are:

1. I didn't see in the updated prep plan that potential coordination with WDC on WDC studies had been incorporated. Does this need to be specifically included in the prep plan?
2. The WDC budget for data and GIS needs (page 40) shows \$10M to complete WDC resources. Is this a reasonable amount to cover costs?
3. The total budget for data and GIS needs (page 40) shows \$10M to complete lands with wilderness characteristics inventories. Is this a reasonable amount to cover costs?
4. National Trails are identified as a general management in the planning area but the data and GIS needs (page 40) does not include funding needs for National Trail inventories. Should National Trails be added to the data and GIS needs table?

Please provide feedback by May 18, Thursday.

To: Sarah\_Dugg, Andrew.vandenberg@dm.gov

ID has responded to WD comments and revised its prep plan for Idaho (Idaho/Damson/Upper Snake Prep). Please review their response to your comments and any changes made to the prep plan itself. Both the annotated comment form and revised prep plan are posted here as Word documents. If you have any concerns do not

Thanks for your time,

Andrew

Revised final draft ROD for the Transborder Transmission Project and the NMA package sent for review by Sharon Knowlton on 05-18-16. Comments requested by CBL, 5-24-16. National Trails comments on ROD provided on 05-24-16. 05-26-17. Followed up on the Mitigation and Monitoring appendices which is missing details on projects. I will meet with Mary Corbett several options including the purchase of intelligence in nearby designated wilderness. The NMA has drafted a plan and is now waiting on Director's approval. Once made, it can be shared internally with the larger BLM group.

e Email received from the Wilderness Society  
e WOTIS provided feedback on draft final ROD, NDA, and NDA package 05-24-16.  
e WOTIS drafted compensatory mitigation language. The issue was resolved and WOTIS agreed to the mitigation language which was not that (somehow mitigate and not avoid mitigate). The compensatory mitigation package language, as modified by WOTIS, was incorporated into an addendum to the FEA on 05-01-16.

Subject: Review the Transmittal Project draft final RDO, RDO and RDO package for review (3-2-16)  
Hello everyone this is the first of several providing the draft final package for review. We are pleased to provide the revised final draft RDO for the Transmittal Transmission Project and the RDO package for review. The body of the RDO is attached, along with the Mitigation and Monitoring appendices, which is a  
part, Appendix 1: Mitigation and Monitoring with the respective response document, Appendix 2: Response to governor's consistency and FERC comments, Appendix 3: Alternatives Eliminated from further analysis and Appendix 4: NPS requirements for access to knowledge Road, Appendix 5 is the Plan of Development with  
All comments received on the draft RDO and RDO must thus far have been addressed except those noted here or call highlighted in the document. For those who have previously reviewed documents, please verify we've adequately addressed your comments. The purpose of this review is to identify those missing  
Our Wyoming Natural Resources Office will be working directly with other states and the WFO to finalize the RDO package.  
We anticipate finalizing the greater range process and regulatory final mitigation after the technical advisory group completes its task in the first half of June. We'll call that mitigation then. When WFO provides the final with wilderness characteristics details for inclusion in the mitigation and monitoring appendices,  
In order to maintain our efficiency and allow for robust review and comment we are providing this package and now for final review and comment. Still pending completion are the final RDO and the PA.  
Please respond with any suggested revisions by close of business May 19th, 2016. Subsequent email will contain a working copy of the Final Plan of Development in 2 parts due to size limitations.  
Regards,  
Sharon

National Conservation Lands, your review of the final draft RMP for TML, WCAH, and NDA package is requested. Please provide feedback to me by May 30. Additional information is found in Sharon's note below. This is the first of three emails from Sharon - will forward.

Thanks, Britta

Subject: Re: the Verde Translocation Project Draft Final RMP, WCAH and NDA package for review (1 email)

Hi everyone this is the first of a series providing the draft final package described above. We are pleased to provide the revised final draft RMP for the Translocation Project and the NDA package for review. The body of the RMP is attached, along with the Mitigation and Monitoring appendix, which is at the end of the RMP. Mitigation and Monitoring with the exception of the Appendix D: Response to Governor's concerns and the Appendix E: Alternatives Eliminated from further analysis and Appendix F: NPS requirements for access to Devil's Head. Appendix G is the Plan of Development with all comments received on the draft RMP and NDA grant that have been addressed except those noted here or highlighted in the document. For those who have previously reviewed documents, please verify we've adequately addressed your comments. The purpose of this review is to identify show stopping

Our Wyoming External Affairs Office will be working directly with other states and the WDO to finalize the NDA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll send that mitigation then. When WDO provides the birds with wilderness characteristics details for inclusion in the mitigation and monitoring appendix,

in order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final EIS and the PA.

Please respond with any suggested revisions by close of business May 30th, 2018. Subsequent emails will contain a copy of the TML Plan of Development in 2 parts due to size limitations.

Regards,

Sharon

 Subject: Here are the TranslEdit Project draft final RCD, RDB and RGA package for review in 2 emails

Hello everyone this is the first of 3 emails providing the draft/final package described above. We are pleased to provide the revised final draft ROD for the TransWest Transmission Project and the NOA package for review. The body of the ROD is attached, along with the Mitigation and Monitoring appendix, which is a grant, Appendix F: Mitigation and Monitoring with the exceptions explained above, Appendix D: Responses to governor's consistency and FEIS comments, Appendix G: Alternatives Eliminated from further analysis and Appendix I: NPS requirements for access to Doweridge Road. Appendix B is the Plan of Development with

All comments received on the draft RDO and ROW grant thus far have been addressed except those noted here or still highlighted in the document. For those who have previously reviewed documents, please verify we've adequately addressed your comments. The purpose of this review is to identify show stopping

Our Wyoming External Affairs Office will be working directly with other states and the WIO to finalize the NOA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WO provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix.

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final BO and the PA.

Please respond with any suggested revisions by close of business May 26th, 2016. Subsequent emails will contain a courtesy copy of the TWS Plan of Development in 2 parts due to size limitations.

For those who have previously reviewed documents, please verify we've adequately addressed your comments. The purpose of this review is to identify those that

Our Wyoming External Affairs Office will be working directly with other states and the WIO to finalize the NOA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WO provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix.

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final RQ and the P.A.

Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent emails will contain a courtesy copy of the TWS Plan of Development in 2 parts due to size limitations.

Regardis.

To me, Maile, Deborah, Terrence, Molly, Peter, Nelli, Carli, Robert  
Britta,

At this time, I'm not sure what our plans are relative to a WDOI review of the draft DSE. I'll consult with our local management team here in New Mexico and our NHP Coordinator and get back to you on that question.

To Tamara, Stephen, Sally, Deborah, Christopher, Georganna, me

To meet the policy and purposes of the National Trails System Act (NTSA) Sec. 70(c), to prevent a project which will not substantially interfere with the nature and purposes of the trail (NTSA Sec. 70(c)), and to safeguard the nature and purposes of the National System and National Trails (NTSA), BLM MS-4388 1.A.A.1.a.1),

To meet the policy and purposes of the National Trails System Act (NTSA) Sec. 70(c), to prevent a project which will not substantially interfere with the nature and purposes of the trail (NTSA Sec. 70(c)), and to safeguard the nature and purposes of the National System and National Trails (NTSA), BLM MS-4388 1.A.A.1.a.1),

Analysis and evaluation measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the Project. For residual (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that use National Trails System components, and will be required to be applied for the duration of the Project. Mitigation measures will be feasible, additional, timely, consistent, adaptive, integrated, and repeated upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include, but are not limited to, proposed mitigation measures (e.g., design features), including the associated monitoring, adaptive management, and reporting requirements.

Please let me know if you have any questions!

Hi Steve,

The attached RCD document has incorporated the NHT-4388 with an eng. 10 and 14 under National Conservation Lands, National Historic Trails.

Additionally we have added a few sentences under Decision, Right-of-Way Authorization and Selected Alternative plan (Meyer-Blanks (public)) request.

Please post this version to DTS.

Thanks much!

From: Moore, Nikki <nmoore@blm.gov>  
Date: Thu, Jan 12, 2017 at 12:51 PM  
Subject: NM-TS-Comments

To: Teresa Sanchez <gsanchez@blm.gov>; Stephen Fuller <fuller@blm.gov>  
Cc: Leah Katsis <katsis@blm.gov>; "Ted, Deborah" <ted@blm.gov>; "Nicholas Christopher" <nicholas@blm.gov>; Georgios Iordanis <giordanis@blm.gov>; "Nelson, Britta C" <bnelson@blm.gov>

Teresa, Steve, and Georgios - Thank you for sending us the BLM NM for a quick review. We did notice that the MOU language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands (NCL) section on

To meet the policy and purposes of the National Trails System Act (NTSIA) Sec. 10(c), to permit a project which will not substantially interfere with the nature and purpose of the trail (NTSIA Sec. 7(c)), and to safeguard the nature and purpose of the National System and Historic Trails (BLM NM-6388 (L.A.A. 3-1).

Avoidance and minimization measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (Oregon NHT), will be applied for the duration of the impacts from the Project. For avoided (i.e. unavoidable) effects to the values and settings of the Oregon NHT, BLM will use National Trails System components, and will be required to be applied for the duration of the impacts. All mitigation measures will be feasible, additional, timely, monitored, adaptively managed, and reported upon.

The terms and conditions within the permit will identify all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include applicant prepared mitigation measures (e.g. design features), including the associated monitoring, adaptive management, and reporting requirement.

Please let me know if you have any questions!

Thanks,

Mon 2:05 (4 days ago)  
To: Celia, Peter  
Hi Celia and Peter, I met with Georgetown Sells and Michael O'Brien this morning about the WOTD review of the Section 108 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.  
WOTD review of draft report is scheduled for March 14-16. A review kick-off webinar is planned for March 15. The review will be a synchronous 10/100 review. Information has been gathered from the USFWS, other agencies, stakeholders, and follow for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The 37% with the notice package will follow the review.  
As a refresher, here is a press release about the Section 108 Energy Corridor Regional Review: [https://www.blm.gov/wr/press/pressroom/2018/September/18\\_09\\_28\\_2018.html](https://www.blm.gov/wr/press/pressroom/2018/September/18_09_28_2018.html)  
I'll send out a heads up to the programs if that works.

Follow up to update re: review of Section 308 Energy Corridor Region 1 Recommendations Report  
Nelson, Britta (britta.nelson@blm.gov)  
9/13/16 9:30am (MPS)

to Cathy, Peter, Terrence, Robert, Cathy, Deborah  
National Conservation Lands/Programs, another couple updates on the Section 308 Energy Corridor Region 1 Recommendations Report follow. First, the BLM Corridor Team has indicated we can expect to see the draft report for review on March 23.

Next, in response to Maddy's question about GIS layers, the corridors and National Conservation Lands units have been mapped on the on the BLM mapper found at: <http://dynamics.blm.gov/section308/jsp/m/>, or we can request the GIS layers, if you would like the layers, please let me know and I will follow up.

Hi Georgetown and Michael, thanks again for meeting with me earlier this month to discuss WDC's review of the Section 303 Energy Corridor Region 1 draft review report. Following up, can WDC get GIS shape(s) of the corridor so we can check against our shape to determine which units are affected? Thanks!

National Conservation Lands Programs, a quick heads up about the WDC review of the Section 303 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WDC review of the draft report is scheduled for March 29-30. A review kick-off webinar is planned for March 15. The review will be a continuous 10/10/10 review. Information has been gathered from the 10/10/10, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are requested. The 10/10/10 review package will follow the review.

As a reference, here is a press release about the Section 303 Energy Corridor Regional Review: [https://www.blm.gov/wh/press/wh/pressroom/2013/section303\\_2013\\_03\\_2013.html](https://www.blm.gov/wh/press/wh/pressroom/2013/section303_2013_03_2013.html)

Please let me know if you have any questions at this point. Thanks.

Follow up to update re: review of Section 268 Energy Corridor Region 1 Recommendations Report

Nelson, Britta <bnelson@bingu.se>  
9:21 AM (4 hours ago)

to Sally, Peter, Timothy, Robert, Cathy, Deborah.

National Conservation Lands Programs, another couple updates on the Section 368 Energy Corridor Region 1 Recommendations Report follow. First, the 368 Corridor Team has indicated we can expect to see the draft report for review on March 27.

Next, in response to Bob's question about GIS layers, the corridors and National Conservation Lands units have been mapped on the on the BLM mapper found at: <http://bgc.blm.gov/action/bldg/portal/>, or we can request the GIS layers. If you would like the layers, please let me know and I will follow up.

National Conservation Lands Program, a few updates on the Section 308 Corridor review:  
a webinar for the review of the Section 308 Energy Corridor Region 1 Recommendations Report is scheduled for March 29.  
A three week review of the Draft Report by BLM FQ/CO/State Management, WO Program Leads and Stakeholder Federal Agency Leads/Agencies is planned for March 25th through April 15th.  
Following up on Bob's suggestion, I've reached out to 308 project folks for GIS layers of the corridor.  
Please let me know if you have any questions. Thanks.

Subject: Question re: GIS Input for Section 268 Energy Corridor Region 1 draft review report

Hi Georgeann and Michael, thanks again for meeting with me earlier this month to discuss WO#10's review of the Section 368 Energy Corridor Region 1 draft review report. Following up, can WO#10 get GIS layer(s) of the corridors so we can check against our layers to determine which units are affected? Thanks

National Conservation Lands Programs, a quick heads up about the WD review of the Section 348 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WD review of the draft report is scheduled for March 14-15. A review kick-off webinar is planned for March 15. The review will be a simultaneous SQ/WO review. Information has been gathered from the SQ/WOs, other agencies, stakeholders, and tribes for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The OTS with the notice package will follow the review.

As a refresher, here is a press release about the Section 348 Energy Corridor Regional Review: [https://www.bfn.gov/en/ty/en/ofc/newsroom/2016/september/br\\_09\\_02\\_2016.html](https://www.bfn.gov/en/ty/en/ofc/newsroom/2016/september/br_09_02_2016.html)

Please let me know if you have any questions at this point. Thanks.

**Comment:** NHTS letterhead

On 10/12/2016, we met with WFO150 on April 4 to address questions raised for how National Trails were addressed in the draft review report (medium potential for conflict). Clarification was provided that the draft review report uses ROW pre-application screening criteria from WFO 2011-061. The screening criteria is used to assess the BLM's policy, the BLM may permit use that would not substantially interfere with the nature and purpose of the National Trails. The final Solar and Wind rule (43 CFR 2486.3) provides screening criteria for categorizing solar and wind applications. The final rule does not specifically include National Trails within Solar and Wind rule because there are other National Conservation Lands.

National Conservation Lands Programs, a quick heads up about the W0 review of the Section 108 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

W0 review of the draft report is scheduled for March 16-18. A review kick-off webinar is planned for March 15. The review will be a simultaneous W0/W01 review. Information has been gathered from the GAO/O, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The W0 with the notice package will follow the review.

As a reference, here is a press release about the Section 108 Energy Corridor Region 1 Review: [https://www.blm.gov/wr/press/2021/03/05/section108\\_03\\_05\\_2021.html](https://www.blm.gov/wr/press/2021/03/05/section108_03_05_2021.html)

Please let me know if you have any questions at this point. Thanks,

Britta Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL) Unit  
Bureau of Land Management

Call: 921

Comment: Britta Nelson

I updated W0422 note with W0422 on April 1 to address questions raised for how National Trails were addressed in the draft review report (medium potential for conflict). Clarification was provided that the draft review report uses BLM pre-application screening criteria from W0 2021.02.2. The screening criteria is used to assess the W0422 policy, the BLM pre-application note that will not substantially involve with the review and preparation of the National Trails. The Trail Study and Draft Study (2021) provides screening criteria for categorizing color and word applications. The Trail Study does not specifically include National Trails within

Trail and W0422 note because they are outside of the National Conservation Lands.

Section 108 Energy Corridor - Region 1 "Level 2" Review,

This email forwards for the planned BLM, USFS and cooperating agency "Level 2" Review, the attached Draft Section 108 Energy Corridor Region 1 Recommendations Report. This non-NMFA corridor revision recommendation report product is the result of the recent Section 108 When-We-Value Energy Corridor - Region

Please provide your review comments and suggested revisions within the attached document comment review form by COB Friday, April 14th, 2017. This provides a three (3) week review period.

Identified Region 1 "Level 2" reviews include:  
Region 1 USFS, CA, NW Field Office, District Office and State Office program and line management;  
Region 1 USFS Pacific Southwest program and line management as appropriate;  
BLM NWBL, NWL, NWBL and NWL program staff;  
Region 1 cooperating agency program and line management within the FWS, BLM, NPS, NHA and DNR;  
The Section 108 Emergency Draft Report

You have been previously notified through a recent calendar event of a planned Region 1 "Level 2" Review Webinar scheduled for this coming Wednesday, March 29th at 1:00 PM PT/1:00 AM MT/10:00 AM PT that will provide an overview of the Draft Region 1 Recommendation Report, address review considerations

It is important note, that the Draft Report is completed of five (5) separate file sets as follows:  
Draft Report is presented below (attached to this email or accessed on the Box file below);  
Appendix A in Microsoft Word (attached to this email or accessed on the Box file below);  
Appendix B - Part 1 as a PDF file (90 MB in large to email) to be accessed on the Box file below;  
Appendix B - Part 2 as a PDF file (90 MB in large to email) to be accessed on the Box file below;  
Regional Corridor Abstracts (access the link) to be accessed on the Box file below.

For Level 2 reviews, who may experience email problems with receiving the large Draft Report attachments, office file sets can be accessed and downloaded using Argonne National Laboratory's Box Site, 108 Project file site at the following link:  
[http://argo.bnl.gov/View/0722208080807/Region\\_1\\_Corridor\\_Recommendation\\_Report\\_-\\_For\\_Level\\_2\\_Review](http://argo.bnl.gov/View/0722208080807/Region_1_Corridor_Recommendation_Report_-_For_Level_2_Review)

Regional Corridor Abstracts for each Region 1 BLM State and the USFS can be accessed and downloaded using the NWBL Box 108 Project file site as follows:  
[http://argo.bnl.gov/View/0722208080808/Corridor\\_Abstracts](http://argo.bnl.gov/View/0722208080808/Corridor_Abstracts)

To ease your review and comment efforts, please first focus your initial attention on Section 1, Section 3 and respective BLM State or USFS Corridor Recommendations. If time allows, review Section 1.0 which provides background on the 2008 Site, 108 FWS, and 108, subsequent lawsuit / settlement agreement

After you've had a chance to familiar yourself with the Draft Report, I believe you'll see the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 BLM / USFS (and our partners) in the future. We look forward to the re

Again, please provide your review comments using the attached comment form to me and/or delegates Grogan, NW Transmission (see 108 Project) and/or CDM Kelley, April 14th.

If you should have any questions or need further assistance, please contact me as provided below, or contact Grogan's Studio at (202) 612-3119 or (202) 612-3119.

Thank you in advance for your assistance with the Level 2 Review.

Follow up to update re: review of Section 308 Energy Corridor Region 1 Recommendations Report

Nelson, Britta <brittan@blm.gov>  
9:51 AM (4 hours ago)

to Kelly, Peter, Timothy, Robert, Cath, Deborah  
National Conservation Lands Program, another couple updates on the Section 308 Energy Corridor Region 1 Recommendations Report follow. First, the 308 Corridor Team has indicated we can expect to see the draft report for review on March 23.

Next, it requires to be 8-10 questions about GSE, the corridors and National Conservation Lands units have been assigned on the on the 308 manager found at: <http://dcp.blm.gov/section308/pdfs/>, or we can request the GSE team. If you would like the team, please let me know and I will follow up.

Hi Gregor and Michael, thanks again for meeting with me earlier this month to discuss WDC's review of the Section 308 Energy Corridor Region 1 draft review report. Following up, can WDC get GSE type(s) of the corridors so we can check against our reports to determine which units are affected? Thanks!

National Conservation Lands Program, a quick heads up about the WDC review of the Section 308 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WDC review of the draft report is scheduled for March 14-30. A review kick-off webinar is planned for March 15. The review will be a synchronous, 52/502 review. Information has been gathered from the GSE/BLM, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on policy issues and if the decisions or recommendations in the draft review report are supported. The DTR with the policy package will follow the review.

**Comment:** B-1234 Nelson:

a) update WFO-2012 met with WFO-10 on April 6 to address questions raised for how National Tools were addressed in the draft review report (medium potential for conflict). Clarification was provided that the draft review report uses R06 pre-application screening criteria from WFO 2011 061. The screening criteria is used to assess how M2620 policy, the RLM may permit use that will not substantially interfere with the nature and purpose of the National Tools. The final Solar and Wind Rule (J3 CTR 2064-1C) provides screening criteria for categorizing solar and wind applications. The final rule does not specifically include National Tools with it.

Solar and Wind rule because they are units of the National Conservation Lands.

Section 308 Energy Corridor - Region 1 "Tier 2" Review,

This email forwards for the planned BLM, USFS and cooperating agency "Tier 2" Review, the attached DRAFT Section 308 Energy Corridor Region 1 Recommendations Report. This non-NEPA corridor revision recommendation report product is the result of the recent Section 308 West-slope Energy Corridor - Region 1

Please provide your review comments and suggested revision within the attached document comment review form by COB Friday, April 14th, 2017. This provides authors 30 week review period.

Identified Region 1 "Tier 2" reviewers include:

Region 1 (BLM, USFS and BLM Field Office, District Office and State Office program and line management);

Region 1 (USFS Pacific Southwest Region program and line management as appropriate);

BLM WFO, WFO staff and other BLM program staff;

Region 1 cooperating agency program and line management within the FWS, BWS, NPS, BIA and DNR;

The Section 308 Emergency Work Group

You have been previously notified through a recent calendar event of a planned Region 1 "Tier 2" Review Webinar scheduled for this coming Wednesday, March 29th at 1:00 PM ET/1:00 AM MT/12:00 AM PT that will provide an overview of the Draft Region 1 Recommendation Report, address review corridor

It is important note, that the Draft Report is completed off-line (i) separates the sets as follows:

Draft Report in Microsoft Word (attached 24 MB file and/or accessed on the Box link below);

Appendix A in Microsoft Word (attached 2.06 MB file and/or accessed on the Box link below);

Appendix B - Part 1 as a PDF file (29 MB to large to attach) to be accessed on the Box link below;

Appendix B - Part 2 as a PDF file (28 MB to large to attach) to be accessed on the Box link below;

Revised Corridor Abstracts (access the link) to be accessed on the Box link below;

For draft 2 reviewers who may experience email problems with receiving the large Draft Report attachments, allow the file sets can be accessed and download using Argonne National Laboratory's Box Site, 308 Project file site at the following link:

[http://apple.box.com/s/0U722559896807?Region\\_1\\_Corridor\\_Recommendations\\_Report\\_1\\_for\\_June\\_2\\_Review](http://apple.box.com/s/0U722559896807?Region_1_Corridor_Recommendations_Report_1_for_June_2_Review)

Revised Corridor Abstracts for each Region 1 BLM State and the USFS can be accessed and downloaded using the BLM Box 308 Project file site as follows:

[https://apple.box.com/s/0U722559896807/Corridor\\_Abstracts](https://apple.box.com/s/0U722559896807/Corridor_Abstracts)

To stop your review and comment effort, please first focus your initial attention on Section 1, Section 3 and respective BLM State or USFS Corridor Recommendations. If time allows, review Section 1.0 which provides background on the 2008 Site, NEPA/EIS and RDR, subsequent lawsuit / settlement agreement

After you've had a chance to familiarize yourself with the Draft Report, I believe you'll have the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 BLM / USFS land-use planners in the future. We had forward to the 10

Again, please provide your review comments using the attached comment form to me and/or designated BLM, WFO Transmission Site 308 Program lead by COB Friday, April 14th.

If you should have any questions or need further assistance, please contact me as provided below, or contact Georgeann Steele at (202) 833-7039 or James Wooten, Program Manager, Argonne NS (248) 234-5706.

Thank you in advance for your assistance with the draft 2 Review.

[National Conservation Lands Programs](#), a quick heads up about the WD review of the Section 368 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

WD review of the draft report is scheduled for March 14-30. A review kick-off webinar is planned for March 15. The review will be a simultaneous SQ/WO review. Information has been gathered from the SQ/VOs, other agencies, stakeholders, and tribes for the report. The draft review report includes a summary of public comments on policy issues and if the decisions or recommendations in the draft review report are supported. The DTS with the notice package will follow the review.

As a reflector, here is a press release about the Section 368 Energy Corridor Regional Reviews: [https://www.bis.gov/wo/cv/wo/info/newroom/2016/september/hr\\_09\\_02\\_2016.htm](https://www.bis.gov/wo/cv/wo/info/newroom/2016/september/hr_09_02_2016.htm)

**Comments:** (b)(3) NADs)   
 a) Update: WD4040 met with WD5010 on April 4 to address questions raised for how National Trails were addressed in the draft review report (potential for conflict). Clarification was provided that the draft review report uses ROW pre-application screening criteria from WD 2011 061. The screening criteria is used to assess how M2820 policy, the BLM may parcel land that will not substantially interfere with the nature and purpose of the National Trails. The final Rule and Wild Rule 3(c) (284 026) provides screening criteria for categorizing color and wild applications. The final rule does not specifically include National Trails within 1 color and wild rule but they are units of the National Conservation Lands.

Section 348 Energy Corridor - Region 1 "Level 2" Review,

This email forwards for the planned BLM, USFS and cooperating agency "Level 2" Review, the attached DRAFT Section 348 Energy Corridor Region 1 Recommendation Report. This non NEPA corridor resolution recommendation report product is the result of the recent Section 348 West side Energy Corridor - Region 1

Please provide your review comments and suggested revision within the attached document comment review form by EOB Friday, April 14th, 2017. This provides a three (3) week review period.

Invited Region 1 "Level 2" reviewers include:  
Region 1 (2A, CA, NE) BLM Field Office, District Office and State Office program and line management;  
Region 1 USFS Pacific Southwest Region program and line management (as appropriate);  
BLM WOI-300, WOI-303 and WOI-400 program staff;  
Region 1 cooperating agency program and line management within the FWS, BLM, NPS, BIA and DOD;  
The Section 348 Interagency Work Group

You have been previously notified through a recent calendar event of a planned Region 1 "Level 2" Review Webinar scheduled for this coming Wednesday, March 29th at 1:00 PM (PST) to 2:00 AM PT that will provide an overview of the Draft Region 1 Recommendation Report, address review concerns

Bureau of Land Management

Cell: G128

**Comment:** Kirta Nelson:  
 The Nulna WOI50 met with WOI50 on April 6 to address questions raised for how National Trails were addressed in the draft review report (medium potential for conflict). Clarification was provided that the draft review report uses ROW pre-application screening criteria from WOI 2011 061. The screening criteria is used to assess the M260 policy, the BLM may permit uses that will not substantially interfere with the nature and purpose of the National Trails. The final Seal and Wind Rule (JG CP 2804 JG) provides screening criteria for categorizing seal and wind applications. The final rule does not specifically include National Trails within Seal and Wind because they are units of the National Conservation Lands.

National Conservation Lands Program, a quick heads up about the W0 review of the Section 308 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in southern California, southern Nevada, and western Arizona.

W0 review of the draft report is scheduled for March 28-30. A review kick-off meeting is planned for March 15. The review will be a collaborative USGS/W0 review. Information has been gathered from the BLM/DO, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on public lands and of the decisions or recommendations in the draft review report are requested. The USGS will be the review package will follow the review.

As a reference, here is a press release about the Section 308 Energy Corridor Regional Review: [http://www.blm.gov/wh/press/pressroom/2012/02/02/section308\\_02\\_2012a.html](http://www.blm.gov/wh/press/pressroom/2012/02/02/section308_02_2012a.html)

Please let me know if you have any questions at this point. Thanks.

**Comment:** Britta Nelson:  
- Update W0400 just with W0400 on April 1 to address questions raised for how National Trails were addressed in the draft review report (potential for conflict). Clarification was provided that the draft review report uses W0400 application concerning criteria from W0 2013 AGS. The screening criteria is used to assess the W0400 policy, the BLM may permit units that will not substantially interfere with the nature and purpose of the National Trails. The final rule and W0400 2013 (2013) provides screening criteria for categorizing enter and avoid applications. The final rule does not specifically include National Trails within 1/2 mile and W0400 rule because they are not of the National Conservation Lands.

The report follows for the planned BLM, USGS and cooperating agency "Task 2" Review, the attached BLM7 Section 308 Energy Corridor Region 1 Recommendations Report. This new BLM7 corridor review recommendation report product is the result of the recent Section 308 West wide Energy Corridor Region

Please provide your review comments and suggested revisions within the attached document comment review form by EOB Friday, April 18th, 2017. This provides a three (3) week review period.

Identified Region 1 "Tiered 2" reviewers include:  
Region 1 (AZ, CA, NV) BLM Field Office, District Office and State Office program and line management;  
Region 1 USFS (AZ, NV), Southern Region program and line management in appropriate;  
BLM WFO AZO, WFO AZO and WFO AZO program staff;  
Region 1 cooperating agency program and line management within the FWS, BLM, NPS, BIA and DOD;  
The Section 308 Interagency Work Group

You have been previously notified through a recent calendar event of a planned Region 1 "Tiered 2" Review Webinar scheduled for this coming Wednesday, March 29th at 1:00 PM (EST) 1:00 AM MT/10:00 AM PT that will provide an overview of the Draft Region 1 Recommendation Report, address review considerations and provide an opportunity for questions.

It is important to note that the Draft Report is composed of two (2) separate file sets as follows:  
Draft Report in Microsoft Word (attached to this email or accessed via the Box link below);  
Appendix A in Microsoft Word (attached to this email or accessed via the Box link below);  
Appendix B - Part 1 in a PDF file (the BLM logo is large to ensure it is accessible via the Box link below);  
Appendix B - Part 2 in a PDF file (the BLM logo is large to ensure it is accessible via the Box link below);  
Revised Corridor Abstracts (attached to this email or accessible via the Box link below);  
For Level 2 reviewers who may experience email problems with receiving the large Draft Report attachment, all file sets can be accessed and downloaded using Argonne National Laboratory's Box Site. BLM Project file site at the following link:  
[https://argo.bnl.gov/OneDrive/153550908603/Region\\_1\\_Corridor\\_Recommendations\\_Report\\_-\\_For\\_Level\\_2\\_Review](https://argo.bnl.gov/OneDrive/153550908603/Region_1_Corridor_Recommendations_Report_-_For_Level_2_Review)

Revised Corridor Abstracts for each Region 1 BLM State and the USFS can be accessed and downloaded using the BLM Box BLM Project file site as follows:  
[https://argo.bnl.gov/OneDrive/153550908603/Corridor\\_Abstracts](https://argo.bnl.gov/OneDrive/153550908603/Corridor_Abstracts)

To ease your review and comment effort, please first focus your initial attention on Section 2, Section 3 and respective BLM State or USFS Corridor Recommendations. If time allows, review Section 1.0 which provides background on the 2009 Inc. 308 FWS and R20, subsequent Section 7 settlement agreement and the 2015 settlement agreement.

After you've had a chance to familiarize yourself with the Draft Report, I believe you'll see the very comprehensive and high quality product that Argonne and the Region 1 Core Team has developed that is intended for use by Region 1 BLM / USFS land use planners in the future. We look forward to the re

Again, please provide your review comments using the attached document comment review form to me and/or Geoparcians Sinks, WFO Transmission / Sec. 308 Program Lead by EOB Friday, April 18th.

If you should have any questions or need further assistance, please contact me as provided below, or contact Geoparcians Sinks at (202) 912-7119 or Kaitlin Winquist, Project Manager, Argonne NS, (630) 252-5788.

Thank you in advance for your assistance with the Level 2 Review.

I updated WDCB with WDCB on April 1 to address questions raised for how National Trails were addressed in the draft review report (potential for conflict). Confirmation was provided that it's draft review report uses WDCB pre-application covering criteria from WDCB 2011 AGC. The screening criteria is used to assess the WDCB policy, the BLM policy and that without substantially interfere with the review and preparation of the National Trails. The Trail Study and Report (2012) WDCB provides covering criteria for categorizing units and avoid applications. The Trail Study does not specifically include National Trails within a State and WDCB is able because they are units of the National Conservation Lands.

Re: BLM, NRE's, my response

Is this a pre-existing or a new license for FERC?

THIS WOULD BE A NEW LICENSE BRAND FOR A PROPOSED "HYDROELECTRIC" AND UT, for WATER DELIVERY AND HYDROPOWER.

Is this a registered or discretionary authorization?

THIS IS A DISCRETIONARY AUTHORIZATION, TO MEET THE NEEDS OF UTILE & NEW APPLICATIONS AS AN "IN" TO THE LAND RESOURCES AND BLM IS A COOPERATING AGENCY BUT WITH A NEED TO DO.

Please contact me further as needed.

Thanks, Jim

Hi Adrian, I hope you are well. I thought I would check in to see if there is a status update on the Verde Transmission project RMP amendment that you could share. I am updating WORKED's tracking files and wanted to make sure updates are included. Thanks!

Subject: Re: Check in on the Verde Transmission Project RMP amendment/DG

Hi Adrian, thanks for the note. I will make sure and include you on communications on the Verde project. Thanks for keeping me updated and letting me know what NCLD support might be needed as you move forward. I do have a question - I saw this project is identified on the priority project transmission d

Following up to update re: review of Section 308 Energy Corridor Region 1 Recommendations Report  
Nelson, Britta <brittan@blm.gov>  
9:21 AM (4 hours ago)  
To: Sally, Peter, Timothy, Robert, Cade, Deborah  
National Conservation Lands Program, another update on the Section 308 Energy Corridor Region 1 Recommendations Report follows. First, the 308 Corridor Team has indicated we can expect to see the draft report for review in March 2012.  
Next, in response to a question about GSI layers, the corridors and National Conservation Lands units have been mapped on the on the 308 map page found at: <http://drlg.gov.us/section308/layer/>, or we can request the GSI layers, if you would like the layers, please let me know and we'll follow up.

National Conservation Lands Program, a quick heads up about the WSO review of the Section 308 Energy Corridor Region 1 draft review report. The report focuses on review of energy corridors in eastern California, southern Nevada, and western Arizona.  
WSO review of the draft report is scheduled for March 20-30. A review kick-off webinar is planned for March 15. The review will be a continuous 10/20/20 review. Information has been gathered from the GSD's, other agencies, stakeholders, and others for the report. The draft review report includes a summary of public comment on public input and the decisions or recommendations in the draft review report are requested. The GSD's will be the main package and follow the review.  
As a reference, here is a press release about the Section 308 Energy Corridor Regional Review: [http://www.blm.gov/us/lands/management/2012/09/20/section308\\_rpr\\_2012a.html](http://www.blm.gov/us/lands/management/2012/09/20/section308_rpr_2012a.html)

Comments: Britta Nelson:  
In update WSO's on April 5 to address questions raised by how National Trails were addressed in the draft review report (provided for comment). Clarification was provided that the draft review report uses BLM pre-qualification screening criteria from WSO 3011 061. The screening criteria is used to assess the National Trails policy, the BLM may permit use that is not substantially different with the nature and purpose of the National Trails. The final rule and WSO 3011 061 021 provides screening criteria for categorizing older and newer applications. The final rule does not specifically include National Trails without rule and WSO 3011 061 because they are not of the National Conservation Lands.

Hi Tim, Mrs. Kelly, Molly, Christopher  
Hi Britta,  
In mid December we briefed some Director Army Leaders on the WIL response and we are making a few adjustments to the memo response. We are also close to completing the GMS and user estimate.  
The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.  
Thanks again for keeping this on your radar.  
Happy New Year!  
Chad

Hi Britta,  
No further at all on asking about the status of our response. I appreciate you keeping it on your radar.  
We have decided to go ahead and include the end user greenhouse gas emission (GHG) estimate into the RMP and this effort is taking some time due to the complexity involved in generating current and forecasted oil/gas production in our field office. We are close to having the production estimates sent to all  
With the upcoming holidays I may be a few weeks before we are able to have this done.  
If you have any other questions I would be glad to answer them.  
Thanks,  
Chad

Hi Britta,

Thanks and hope the letter to you too!

All briefing was held on December 20th and Chris attended it from 402 and it was agreed to go ahead with Director's briefing and some suggestions were provided for fine tuning the presentation. Director's briefing request has been submitted but not yet scheduled.

All the best,

Shiva

Hi Britta,

In mid December we briefed Vice Director Amy Lunder on the WOI response and we are making a few adjustments to the memo response. We are also close to completing the 402 and user estimates.

The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!

Hi Britta,

In mid-December we finished State Director Amy Lunden on the WOI response and we are making a few adjustments to the master response. We are also close to completing the GMS and user estimates.

The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!

Chad

Hi Britta,

No bother at all on asking about the status of our response. I appreciate you keeping it on your radar.

We have decided to go ahead and include the end user greenhouse gas emissions (GMS) estimates into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast all-gas production in our field office. We are close to having the production estimates sent to us.

With the upcoming holidays it may be a few weeks before we are able to have this done.

If you have any other questions I would be glad to answer them.

Thanks,

Chad

We have decided to go ahead and include the end user greenhouse gas emission (GHG) estimates into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast oil/gas production in our field office. We are close to having the production estimates sent to us.  
With the upcoming holidays it may be a few weeks before we are able to have this done.  
If you have any other questions I would be glad to answer them.

Thanks,  
Chad

Hi BLM,

In mid-December we drafted State Director Amy Lunden on the WMA response and we are making a few adjustments to the memo response. We are also close to completing the GIS and user estimate.

The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!

Chad

Hi Chad and Molly, I hope January is off to a great start for you both!! I wanted to check in to see if there is an update on the Carlsbad information you have been working on.

Please let me know if you would like to discuss. Thanks!! Britta

Hi Britta,

No bother at all on adding about the status of our response. I appreciate you keeping it on your radar.

We have decided to go ahead and include the end user greenhouse gas emissions (GHG) estimates into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast oil/gas production in our field office. We are close to having the production estimates sent to us.

With the upcoming holidays it may be a few weeks before we are able to have this done.

If you have any other questions I would be glad to answer them.

Thanks,

Chad

Correction. We are anticipating having response made to send back to your office by November 7, not December. My apologies for the confusion.

Hi Britta,

We are getting close to having our responses ready to send back to the BLM. We are meeting today to further discuss the greenhouse gas end user analysis. We are anticipating having responses ready to send back to your office by December 7.

Thanks for keeping this on your radar.

Hi Britta,

We are still working on providing a thorough response. Some of this requires field analysis. Annual base and attending meetings with cooperating agencies has slowed us down but we are getting close to having a response to several of the questions raised during the RMP briefing sent to your office. We are hoping

Thanks for your patience and look forward to hearing your efforts thought once we provide these responses.

Chad

Comment: Britta Nelson:

Follow up from the previous brief. Met with NRCCL, WCCCL, WRCCL on Oct 1 to discuss lands with wilderness characteristics. Thanks again for meeting to discuss the Carlsbad briefing. As follow up, Chad will work with Sally and Watson on updating the briefing information related to lands with wilderness characteristics information related to NCL suitability and also to include other entities in the greenhouse gas presentation. New Mexico to provide information in January for WCCCL review. Contact with NM on 10/10/16 and 10/17 re status.

Comment: Britta Nelson:

National Conservation Lands, Chad is holding a pre-briefing on Tuesday May 23 at 2:00 pm EDT for WFO Program Reviewers to review the Cedar City DRRP presentation. Per Ryan's note that follows, this is the final opportunity to make adjustments to the presentation (not the plan document), make sure key points are address

The WFO DRRP for the Cedar City DRRP (DCL) has been shared with you and there are no outstanding issues, I will be at the base so won't be attending the pre-brief. Please let me know if there are follow up items from the pre-brief. Thanks.

Cohen, Ilana  
Dec 20 (9 days ago)

to Nikki, me, Sally, Angela, Peter, Deborah  
Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:  
"BLM's 32 million-acre National Conservation Lands System."

With this:  
"BLM's 35 million-acre National Conservation Lands."

Thank you,  
-Ilana

Nikki, Britta:

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no red flags in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National Trails System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.
